The Physically

Disabled in Ancient Israel According to the Old Testament and Ancient Near Eastern Sources Michael D

Fiorello, 2014-09-01 In a unique way this study probes the linguistic sociological religious and theological issues associated with being physically disabled in the ancient Near East By examining the law collections societal conventions and religious obligations towards individuals who were physically disabled Fiorello gives us an understanding of the world a disabled person would enter He explores the connection between the literal use of disability language and the metaphorical use of this language made in biblical prophetic literature as a prophetic critique of Israel's dysfunctional relationship with God

COMMENDATIONS In this well researched volume Michael Fiorello has made a significant contribution to the study of disability in the Bible in the context of its ancient Near Eastern world Fiorello's work needs to be taken seriously in the

church the academy and the world Richard E Averbeck Trinity Evangelical Divinity School USA *Matthew, Disability, and Stress* Jillian D. Nelson, 2022-10-25 In *Matthew Disability and Stress* Examining Impaired Characters in the Context of Empire Jillian D Engelhardt examines four Matthean healing narratives focusing on the impaired characters in the scenes Her reading is informed by both empire studies and social stress theory a method that explores how the stress inherent in social location can affect psychosomatic health By examining the Roman imperial context in which common folk lived and worked she argues that attention to social and somatic circumstances which may have accompanied or caused the described disabilities impairments destabilizes readings of these stories that suggest the encounter with Jesus was straightforwardly good and the healing was permanent Instead Engelhardt proposes various new contexts for and offers more nuanced characterizations of the disabled impaired people in each discussed scene resulting in ambiguous interpretations that de-center Jesus and challenge able bodied assumptions about embodiment disability and healing *"The Time Is Fulfilled"* Lynne Moss Bahr, 2018-12-27 In this study Lynne Moss Bahr explores the concept of temporality as central to Jesus's proclamation of the Kingdom of God Using insights from continental philosophy on the messianic which expose the false claim that time progresses in a linear continuum Bahr presents these philosophical positions in critical dialogue with the sayings of Jesus regarding time and time's fulfillment She shows how the Kingdom represents the possibilities of a disruption in time one that reveals the intrinsic relation between God and humanity In illustrating how Jesus's sayings regarding time are thus expressions of his messianic identity as of the world and not of the world Bahr argues that the meaning of Jesus's identity as Messiah is embedded in the disjuncture of time in the impossibility of now from which the Kingdom comes Bahr's use of critical theory in this study expands the concept of God's Kingdom beyond the traditional confines of the discipline

scrutiny has sometimes been lost amongst the controversy and philosophical issues have often been overlooked in favour of the sociological. *Arguing about Disability* fills that gap by offering analysis and debate concerning the moral nature of institutions, policy and practice and their significance for disabled people and society. This pioneering collection is divided into three sections covering definitions and theories of disability, disabled people in society and applied ethics. Each contributor, drawn from a wide range of academic backgrounds including disability studies, sociology, psychology, education, philosophy, law and health science, uses a philosophical framework to explore a central issue in disability studies. The issues discussed include personhood, disability as a phenomenon, social justice, discrimination and inclusion. Providing an overview of the intersection of disability studies and philosophical ethics, *Arguing about Disability* is a truly interdisciplinary undertaking. It will be invaluable for all academics and students with an interest in disability studies or applied ethics, as well as disability activists.

Disability Politics and Community Care Mark Priestley, 1999. Priestley encourages health and welfare professionals and policy makers to start working much more closely with disabled people themselves. He argues that this will break barriers between user and provider and result in the reality of integrated living.

Encyclopedia of Disability Gary L. Albrecht, 2006. Presents current knowledge of and experience with disability across a wide variety of places, conditions and cultures to both the general reader and the specialist.
