The Conquest of History

Christopher Schmidt-Nowara,2006-11-06 As Spain rebuilt its colonial regime in Cuba Puerto Rico and the Philippines after the Spanish American revolutions it turned to history to justify continued dominance The metropolitan vision of history however always met with opposition in the colonies The Conquest of History examines how historians officials and civic groups in Spain and its colonies forged national histories out of the ruins and relics of the imperial past By exploring controversies over the veracity of the Black Legend the location of Christopher Columbus s mortal remains and the survival of indigenous cultures Christopher Schmidt Nowara s richly documented study shows how history became implicated in the struggles over empire It also considers how these approaches to the past whether intended to defend or to criticize colonial rule called into being new postcolonial histories of empire and of nations *Historia Crítica de la Literatura Espanola* José Amador de los Ríos,1865 *José Bergamín* Nigel Dennis,1986-01-01 Writer critic and cultural activist Jos Bergam n 1895 1983 was unjustly relegated to the sidelines of contemporary Spanish intellectual life for reasons that have more to do with his political dissidence and long periods of exile than with the interest and importance of his written work This book represents the first attempt to come to terms with that work Professor Dennis s study focuses on the period 1920 1936 the so called silver age of Spanish literature during which Bergam n rose to prominence alongside a group of superlatively gifted writers and friends among them Federico Garcia Lorca Rafael Alberti Jorge Guill n and Pedro Salinas It sets out to explain the nature of the relationship Bergam n had as a critic and prose writer with the major poets of the 1920s and 1930s and at the same time systematically examines the singularity of his own work as an aphorist essayist and dramatist Professor Dennis also devotes attention to explaining the sense of Bergam n s initiative in founding the important journal Cruz y Raya 1933 1936 and the role this publication played both culturally and politically during the troubled years of the Second Republic This book not only fills a notable gap in our understanding of pre Civil War literary and intellectual life in Spain but also lays the foundation for all future research into the work of this fascinating and enigmatic writer *Humanism and Christian Letters in Early Modern Iberia (1480-1630)* Alejandro Coroleu,2010-05-11 Even though humanism derived its literary moral and educational predilections from ancient Greek and Roman models it was never an inherently secular movement and it soon turned to religious questions Humanists were of course brought up with Christian beliefs regarded the Bible as a fundamental text and many of them were members of the clergy either regular or secular While their importance as religious

sources was undiminished biblical and patristic texts came also to be read for their literary value Renaissance authors who aspired to be *poetae christianissimi* naturally looked to the Latin Fathers who reconciled classical and Christian views of life and presented them in an elegant manner The essays offered in this volume examine the influence of Christian Latin literature whether biblical patristic scholastic or humanistic upon the Latin and vernacular letters of the Iberian Peninsula in the period 1480 to 1630 The contributions have been organized into three thematically coherent groups dealing with transmission adaptation and visual representation Contrary to most studies on the Iberian literature of the period in which practically no essays are devoted to texts other than in Spanish this volume successfully accommodates authors writing in Portuguese and Catalan Likewise a significant part of the pieces presented here is concerned with literary texts written in Latin Moreover it shows how the interests and preoccupations of the better known authors of the Iberian Renaissance were also shared by contemporary figures whose choice of language may have resulted in their exclusion from the canon

The Melancholy Void Felipe Valencia, 2021-07 At the turn of the seventeenth century Spanish lyric underwent a notable development Several Spanish poets reinvented lyric as a melancholy and masculinist discourse that sang of and perpetrated symbolic violence against the female beloved This shift emerged in response to the rising prestige and commercial success of the epic and was enabled by the rich discourse on the link between melancholy and creativity in men In *The Melancholy Void* Felipe Valencia examines this reconstruction of the lyric in key texts of Spanish poetry from 1580 to 1620 Through a study of canonical and influential texts such as the major poems by Luis de G ngora and the epic of Alonso de Ercilla but also lesser known texts such as the lyrics by Miguel de Cervantes *The Melancholy Void* addresses four understudied problems in the scholarship of early modern Spanish poetry the use of gender violence in love poetry as a way to construct the masculinity of the poetic speaker the exploration in Spanish poetry of the link between melancholy and male creativity the impact of epic on Spanish lyric and the Spanish contribution to the fledgling theory of the lyric *The Melancholy Void* brings poetry and lyric theory to the conversation in full force and develops a distinct argument about the integral role of gender violence in a prominent strand of early modern Spanish lyric that ran from Garcilaso to G ngora and beyond
