communication has been enriched with face to face communication such as Skype as users move from desktops to laptops with integrated cameras and related hardware Age gender and culture barriers seem to have crumbled and disappeared as the user base widens dramatically Other than simple statistics relating to e mail usage chatrooms and blog subscriptions we know surprisingly little about the rapid changes taking place This book assembles leading researchers on nonverbal communication emotion cognition and computer science to summarize what we know about the processes relevant to face to face communication as it pertains to telecommunication including video conferencing The authors take stock of what has been learned regarding how people communicate in person or over distance and set the foundations for solid research helping to understand the issues implications and possibilities that lie ahead *Pervasive Collaborative Networks* Luis M. Camarinha-Matos, Willy Picard, 2008-08-27

COLLABORATIVE NETWORKS Becoming a pervasive paradigm In recent years the area of collaborative networks is being consolidated as a new discipline Camarinha Matos Afsarmanesh 2005 that encompasses and gives more structured support to a large diversity of collaboration forms In terms of applications besides the traditional sectors represented by the advanced supply chains virtual enterprises virtual organizations virtual teams and their breeding environments new forms of collaborative structures are emerging in all sectors of the society Examples can be found in e government intelligent transportation systems collaborative virtual laboratories agribusiness elderly care silver economy etc In some cases those developments tend to adopt a terminology that is specific of that domain often the involved actors in a given domain are not fully aware of the developments in the mainstream research on collaborative networks For instance the grid community adopted the term virtual organization but focused mainly on the resource sharing perspective ignoring most of the other aspects involved in collaboration The European enterprise interoperability community which was initially focused on the intra enterprise aspects is moving towards inter enterprise collaboration Collaborative networks are thus becoming a pervasive paradigm giving basis to new socio organizational structures

Leveraging Knowledge for Innovation in Collaborative Networks Luis M. Camarinha-Matos, Iraklis Paraskakis, Hamideh Afsarmanesh, 2009-10-13

Collaborative Networks A Tool for Promoting Co creation and Innovation The collaborative networks paradigm offers powerful socio organizational mechanisms supported by advanced information and communication technologies for promoting innovation This in turn leads to new products and services growth of better customer relationships establishing better project and process management and building higher performing consortia By putting diverse entities that bring different perspectives competencies practices and cultures to work together collaborative networks develop the right environment for the emergence of new ideas and more efficient yet practical solutions This aspect is particularly important for small and medium enterprises which typically lack critical mass and can greatly benefit from participation in co innovation networks However larger organizations also benefit from the challenges and the diversity found in collaborative ecosystems In terms of research in addition to the trend identified in previous years toward a sounder consolidation of the theoretical foundation in

this discipline there is now a direction of developments more focused on modeling and reasoning about new collaboration patterns and their contribution to value creation Soft issues including social capital cultural aspects ethics and value systems trust emotions behavior etc continue to deserve particular attention in terms of modeling and reasoning Exploitation of new application domains such as health care education and active aging for retired professionals also help identify new research challenges both in terms of modeling and ICT support development
