Five Minute Wonder:

The Disciple Ken Holmes, 2014-09-28 The Big Guy in Heaven is pissed off with the endemic greed corruption and dishonesty in the world and his representatives on earth are doing little to stop it in fact they're just as bad. He decides a radical new Disciple is needed and summons his archangels to come up with the right candidate. Archangel Voice or Voicie spaced out on moon juice selects Jimmy Downie. Jimmy hardworking drinks a few pints when funds allow and plays footie on Saturday. His only religion Liverpool FC takes his family to Corfu on their first holiday. The family arrives at the airport and the hustle and bustle of the Departures hall suddenly stops. It's as if someone has pressed the pause button freezing everyone in time except Jimmy. Through the silence a voice announces not the next flight but Jimmy's mission: he is the Disciple. The world is rife with greed and corruption and the priests and vicars are doing precious little to stop it. In a nutshell the Big Guy called all the Archangels together big meeting sort of thing. Anyway in another nutshell he told us to come up with the radical alternative disciple sort of thing. And er anyway I suggested you. You're the chosen one. Then click normal service resumes. A stunned Jimmy tries to question what just happened but nobody else is aware of what has just happened or how massively Jimmy's life has just changed. Jimmy now embarks on a heart searching journey as he tries to come to terms with his enormous responsibility and his apparent ability to perform miracles. His only guide through the resulting chaos is the oddball archangel Voicie. What ensues is a hilarious and often irreverent novel described by author Ken as *The Bible with jokes*.

Mr Todd's Reckoning Iain Maitland, 2019-04-25 Behind the normal door of a normal house in a normal street two men are slowly driving each other insane. One of them is a psychopath. The father Mr Todd is at his wits' end. He's been robbed of his job as a tax inspector and is now stuck at home with him. Frustrated. Lonely. Angry. Really angry. The son Adrian has no job, no friends. He is at home all day obsessively chopping vegetables and tap tap tapping on his computer. And he's getting worse, disappearing for hours at a time, sneaking off to who knows where. The unholy spirit in the safety of suburbia: one man has developed a taste for killing. And he'll kill again.

[Global Finance After the Crisis](#) Richard A. Iley, Mervyn K. Lewis, 2013-01-01 Richard Iley and Mervyn Lewis have written an extremely useful book on the global economy since the Western financial crisis. Well written, well informed and easily accessible to non-economists, it offers much good sense about many questions from the future of the renminbi to that of the United States. They wisely urge that as China's rise continues the United States should engage with China rather than resist it. This is a book full of good judgement that deserves a wide readership. Martin Jacques author *When China Rules the World: The End of the Western World and the Birth of a New Global Order*. The interplay between the macro economic imbalances notably in the relationship between the USA and China and the more micro economic shortcomings of the West's financial systems particularly the lax regulation forms the centre piece of this excellently written book. In the disputes about the relative culpability of China and the USA for current macro economic problems they tend to support the

Chinese arguments and give well considered arguments for so doing This book provides an excellent clear and at times provocative assessment of the course of the macro monetary problems of the world since the great recession struck Charles A E Goodhart London School of Economics UK This thought provoking book addresses challenging questions raised in light of the aftermath of the global financial crisis that saw an accelerated rise in the economic growth of China and other emerging market economies while the US Japan and Europe have laboured under the great recession The authors examine global post crisis reordering in a long run context identify five fundamental flaws in global bank business models and document the explosion of gross capital flows They tackle difficult to answer lines of enquiry such as can zero interest rates and quantitative easing lift the advanced world back to growth or will they be dragged down by the overhang of debt Might costs on savers retirees and distortions to the pattern of global financing render zero rates counter productive What issues face the BRICs Could China as number one see the renminbi soon challenge the dollar and the euro as a major international currency Providing a detailed analysis of the post crisis world and the issues posed by the rise of China and emerging market economies relative to developed countries this book will prove a stimulating account for academics students and researchers in the fields of economics money finance and banking and world trade Bank and market economists as well as policymakers based in central banks governments and think tanks will also find this book to be an invaluable reference tool **A**
