**Maxwell** James Clerk Maxwell, 2013-11-19 One of the greatest theoretical physicists of the 19th century James Clerk Maxwell is best known for his studies of the electromagnetic field The 101 scientific papers of this two volume set arranged

chronologically testify to Maxwell's profound scientific legacy and include the preliminary explorations that culminated in his most famous work *A Treatise on Electricity and Magnetism*. One of the nineteenth century's most significant papers *A Dynamical Theory of the Electromagnetic Field* appears here along with similarly influential expositions of Maxwell's dynamical theory of gases. The author's extensive range of interests is well represented from his discussions of color blindness and the composition of Saturn's rings to his essays on geometrical optics, ether, and protecting buildings from lightning. His less technical writings are featured as well, including items written for the *Encyclopedia Britannica* and *Nature* magazine, book reviews, and popular lectures. Striking in their originality, these papers offer a wealth of stimulating and inspiring reading to modern students of mathematics and physics.

Fenn Cooper is a journalist in trouble. His boss has given him one last chance to write a riveting story or lose his job. He decides to write about the eccentric people who work at a travelling circus in Ithaca, New York, where silent movies were once made. There he meets Zena, a little person fortune teller with uncanny abilities, and her friend Holey John, a Vietnam vet whose act is piercing his flesh for five bucks a pop as penitence for what he imagines he did in Nam. Marvin Brinks, a Hollywood exec for a big time movie production company, also finds himself in trouble when he stumbles upon a one hundred year old contract his company inherited from a long forgotten silent movie company that was based in Ithaca. Wording in the contract would trigger an audit, and an audit would expose him for embezzling millions of dollars from the company. When he realizes that several copies of the contract are missing, he hires an assassin to find the contracts and kill any heirs. As Fenn begins to write his story, he uncovers a connection between the long forgotten contracts and a series of recent unsolved murders. What's more, he realizes that Zena and Holey John could be the killer's next victims. As these players converge in Ithaca, a deadly game of cat and mouse ensues. Will Fenn uncover Marvin Brinks' secrets and stop the murders before Zena and Holey John become the killer's next victim?
