*Methods of Money Laundering* Fabian Teichmann, 2021-10-08 How exactly is money laundered The answer to this question is not well understood and for this very reason costly prevention measures remain ineffective This much needed book provides the first in depth explanation of the methods used by intelligent criminals to amass wealth from large scale trafficking in drugs arms and human beings as well as from less odious crimes The author shows clearly not only why existing approaches to combat money laundering are bound to fail but also how money launderers easily circumvent such measures Based on qualitative interviews with both alleged criminals and prevention experts detailed illustrations of concrete steps taken by intelligent and specialized perpetrators of money laundering allow practitioners to anticipate and effectively combat this type of crime The author fully documents such aspects of money launderers behaviour as the following resources required dealing with detection risks and international mobility A central chapter covers in depth the various markets

institutions and facilities that are particularly favourable to money laundering and original insights accompany the presented findings with relevant quotations from the interviewees The author offers tailored recommendations for different professional groups including bankers prosecutors defence lawyers and judges In its critical questioning of the logic behind anti money laundering regulations and their costly implementation the book demonstrates that either the existing measures of prevention are drastically tightened and extended to almost all branches of the economy or the financial sector is relieved of the burden it bears and alternative ways of fighting this type of crime are sought instead It will prove enormously valuable to understanding and investigating white collar and financial crime and be welcomed by practitioners and professionals in financial markets banking criminal lawyers and compliance experts as well as academia *Traders in Motion* Kirsten W.
