Flying The Mail:

Flying the Mail Donald Dale Jackson, Time-Life Books, 1982 Recounts the adventures of such early aviation pioneers as Charles Lindbergh and Antoine de Saint Exupery who risked their lives to deliver the mail *Piloting the U.S. Air Mail* Lewis Edwin Theiss, 1927 **Captain** Earl Rogers, 2002-03 CAPTAIN is an adventure into the world of aviation It follows the career of an airline captain from his first solo through the first three years of his airline career It follows his struggles his disappointments his mistakes and his quest for constant improvement The book is in the form of a letter the captain writes to his grandson Although the work is fiction it is based on many actual events The account of his career is continued up to the night before his death in CAPTAIN II August 2004 *Jack Knight's Brave Flight* Jill Esbaum, 2022-03-29 High flying history is brought to life in this suspenseful story of an unknown and daring pilot named Jack Knight who in 1921 flew his biplane straight into a blizzard over America's heartland and saved the US Air Mail Service in the process When Jack Knight takes off in his biplane from North Platte Nebraska in 1921 hundreds of people crowd the airstrip Is Jack transporting a famous passenger Is he ferrying medicine for a sick child Nope Jack has six sacks of mail For the past few years biplanes like Jack's have been flying the mail only during daylight hours Flying after dark is risky and crashes are too common so lawmakers decide to cut funding for the US Air Mail Service Outraged officials and pilots want to prove that flying the mail is best so they concoct a plan a coast to coast race But when a crash exhaustion and a snowstorm ground three of the planes Jack Knight becomes the race's only hope All he has to do is fly all night long leaning out of the plane to see and navigate a blizzard over land he's never covered with an empty fuel tank Will Jack pull it off and save the Air Mail Service [Flying the Mail; The Epic of Flight](#) Donald Dale Jackson, 1982 [Flight](#), 1924 [Passenger Train Service](#) United States. Committee on Post Office and Civil Service, 1960 *Flying Magazine*, 1964-09 **Flying Magazine**, 1946-07 *Taking Flight* M. Houston Johnson, 2019-02-21 Taking Flight explores the emergence of commercial aviation between the world wars and in the midst of the Great Depression to show that the industry's dramatic growth resulted from a unique combination of federal policy technological innovations and public interest in air travel Historian M Houston Johnson V traces the evolution of commercial flying from the US Army's trial airmail service in the spring of 1918 to the passage of the pivotal Air Commerce Act of 1938 Johnson emphasizes the role of federal policy particularly as guided by both Herbert Hoover and Franklin Roosevelt to reveal the close working relationship between federal officials and industry leaders as well as an increasing dependence on federal

assistance by airline airframe and engine manufacturers Taking Flight highlights the federal government's successful efforts to foster a nascent industry in the midst of an economic crisis without resorting to nationalization a path taken by virtually all European countries during the same era It also underscores an important point of continuity between Hoover's policies and Roosevelt's New Deal a sharp departure from many interpretations of Depression era business history and shows how both governmental and corporate actors were able to harness America's ongoing fascination with flying to further a larger economic agenda and facilitate the creation of the world's largest and most efficient commercial aviation industry This glimpse into the golden age of flight contributes not only to the history of aviation but also to the larger history of the United States during the Great Depression and the period between the world wars **Aviation** ,1922 *Hearings* United States.
