songs evolved from the waltz and ragtime to jazz rock rap and hip hop Factual analysis and historical context combine to offer a rich picture of the American songbook from Irving Berlin to Elton John Song of the Season paints a fresh picture for musical theatre students and fans alike illustrating significant changes in the form through the music Analyzed in an accessible and engaging way that doesn't rely on music theory knowledge and including a link to playlist where all the songs of the seasons can be listened to it is a must have for those looking to expand their knowledge of the form and trace the social history of the American showtune
