Focus On Editing A Grammar Workbook For Advanced Writers:

Focus on Editing Len Fox, 1992 *Focus on Editing* teaches advanced writers how to proofread and edit their own writing. The text provides clear concise grammar rules with examples followed by a variety of exercises and writing activities. Each unit contains focused editing questions designed to elicit the correct structures. *Focus on Editing* concentrates on these key areas of grammar: Articles, Nouns and Verb Forms, Punctuation and Sentence Structure, Word Forms and Prepositions. Exercises and examples practice and reinforce key grammar points. Writing assignments and a complete answer key are included.

Writing for Advanced Learners of English Francoise Grellet, 1996-04-18 *Writing for Advanced Learners of English* is a collection of stimulating writing activities for advanced learners of English language and literature in upper secondary schools and universities. The four sections of the book encourage freer written expression through a series of steps: Manipulation focuses on aspects of accuracy including punctuation and editing; Imitation allows students to work inventively within a range of frameworks for example acrostics and parody; Variations on a theme encourages students to explore parallel but different ways of expressing the same idea for example writing about the same event from different stances; Invention contains more open ended creative tasks. Throughout the tasks draw on an inspiring collection of sources that acts as the stimulus for written work for example postcards, advertisements, paintings, journalistic texts, prose and poetry.

A Guide to Writing in English as a Second Or Foreign Language Dan J. Tannacito, 1995 This bibliography offers English as a Second Language (ESL) and English as a Foreign Language (EFL) specialists and non specialists a listing of almost 3 500 works in the field of writing in ESL/EFL at all educational levels from 1937 through 1993. It includes works focusing on how non native speakers write in English, how they learn to write in English, how ESL and native English speaker NES compositions compare, how English is taught in contexts where it is used as a second or foreign language, and instructional materials developed to support writing in a second foreign language. Citations include bibliographies, monographs, textbooks, periodicals, dissertations, and some unannotated master's theses, conference papers, and Educational Resources Information Center (ERIC) documents. An introductory section and a list of native languages addressed in the works precede the annotated entries. Author and subject indexes are also included.

New Perspectives on Technical Editing Avon Murphy, Charles Sides, 2017-03-02 *New Perspectives on Technical Editing* provides readers with a rich picture of a thriving discipline. Its 10 chapters are written by various experts in the field, each of whom looks at technical editing from a distinct vantage point, setting challenging questions and offering authoritative recommendations based on experience and research. Contributors examine significant approaches to the practice and teaching of technical editing, the recommended research methodologies, the not entirely straightforward history of technical editing, effective approaches to developing editing courses, the politics of editing within today's organizations, the definition and on the job work of copyediting, the power of electronic editing, the complex nature and best practices of science editing, and the nuts and bolts of successfully editing technical journals. Readers

will find insights into background literature trends responsibilities workflow legal issues ethics tricks of the trade unanticipated complications business know how considerations of audience interpersonal relations and strategies for different media that they can apply in their own work and research Each contributor provides substantive chapter references and the book's annotated bibliography describes and evaluates 100 of the most influential and useful editing resources
