Developing Core Literacy Proficiencies, Grade 12 Odell Education, 2016-09-16 The Developing Core Literacy Proficiencies program is an integrated set of English Language Arts Literacy units spanning grades 6-12 that provide student-centered instruction on a set of literacy proficiencies at the heart of the Common Core State Standards: CCSS Reading Closely for Textual Details, Making Evidence-Based Claims, Making Evidence-Based Claims about Literary Technique, Grades 9-12 Researching to Deepen Understanding, Building Evidence-Based Arguments. The program approaches literacy through the development of knowledge, literacy skills, and academic habits. Throughout the activities, students develop their literacy along these three paths in an integrated, engaging, and empowering way. Knowledge: The texts and topics students encounter in the program have been carefully selected to expose them to rich and varied ideas and perspectives of cultural significance. These texts not only equip students with key ideas for participating knowledgeably in the important discussions of our time but also contain the complexity of expression necessary for developing college and career-ready literacy skills. Literacy Skills: The program articulates and targets instruction and assessment on twenty CCSS-aligned literacy skills ranging from making inferences to reflecting critically. Students focus on this set of twenty skills throughout the year and continually apply them in new and more sophisticated ways. Academic Habits: The program articulates twelve academic habits for students to develop, apply, and extend as they progress through the sequence of instruction. Instructional notes allow teachers to introduce and discuss academic habits such as preparing and completing tasks that are essential to students' success in the classroom. The program materials include a comprehensive set of instructional sequences, teacher notes, handouts, assessments, rubrics, and graphic organizers designed to support students with a diversity of educational experiences and needs. The integrated assessment system centered around the literacy skills and academic habits allows for the coherent evaluation of student literacy development over the course of the year and vertically across all grade levels.

More Than Letters, Standards Edition Sally Moomaw, 2020-08-25 For decades, early childhood educators in high-quality programs have understood that the transition into reading and writing occurs naturally when young children are surrounded by opportunities to interact with print in ways that are meaningful to them. The original edition of *More Than Letters*, first published in 2001, showed teachers how to intentionally help children develop literacy skills through hands-on, play-based activities. Like the original edition, the Standards Edition is based on theory and research. It contains new chapters that specifically focus on developing the skills needed to decode literature and informational text. Expanded chapters include activities that target specific concepts included in national literacy standards. *Handbook of Writing Research*, [Essentials of Teaching and Integrating Visual and Media Literacy](#) Danilo M. Baylen, Adriana D'Alba, 2015-04-23 This book focuses on how to effectively integrate the teaching and learning of visual and media literacies in K-12 and higher education. Not only does it address and review the

elements and principles of visual design but also identifies discusses and describes the value of media in learning diverse and challenging content across disciplines Finally this book provides a balanced treatment of how visual and media literacies support deep content learning student engagement critical thinking creativity problem solving and production
