The Power of Your Other Hand Lucia Capacchione, 2019
Brain researchers have in recent years discovered the vast untapped potential of the brain's little-used right hemisphere. Art therapist Lucia Capacchione discovered that our nondominant hand is a direct channel to that potential. Her research and fieldwork with people using their other hand provides the raw material for this classic, first published in 1988. In workshops and private sessions, Lucia has worked with thousands of people employing these techniques to help them become more creative, expressive, and intuitive in their day-to-day lives and also experience improved health and greater fulfillment in their relationships. Lucia will show you how to channel the deep inner wisdom of your True Self. Change negative attitudes about yourself. Unlock creativity. Uncover hidden artistic abilities. Heal your relationships. Through various drawing and writing exercises, Lucia Capacchione hopes you will discover the power that lies hidden in your other hand. The techniques will help you explore and understand your thoughts and feelings on a completely different level and reconnect with a sense of playfulness you may have left behind in childhood.

The Genesis of Technoscientific Revolutions Venkatesh Narayanamurti, Jeffrey Y. Tsao, 2021-11-30
Scientific progress doesn't always precede engineering advances; it often follows. Answering questions isn't always the goal; finding questions often is. Sometimes we seek to strengthen conventional wisdom; sometimes to surprise it. What if we could rethink nurturing research through policy and management to harmonize with the nature of research?
