**To Go Making Paths** Joan Bliss, 2012-01-01 *To Go Making Paths* is the follow-up to Joan's first book *A Path Made by Walking* and covers her life after leaving England aged 19 with just 20.00 in her pocket to the next 16 years she spent living abroad and travelling the world. Joan led a fascinating life, and *To Go Making Paths* takes us from her early years struggling to make ends meet in the South of France to her job with a shady diamond dealer and to writing gossip columns, letters to the editor, and horoscopes for a local paper. Latterly realising she wanted more from life, she worked to gain entry to Geneva University, studying child development with world famous psychologist Jean Piaget. Seeing her qualities, Piaget appointed her to the university staff while she was still an undergraduate. Her growing reputation led to further opportunities such as teaching in the USA and making films for the BBC about child development. Joan worked with Piaget until he retired, taking on responsibility for part of a large project designed to improve the teaching of mathematics in the UK, and this period is also covered in *To Go Making Paths*. Later she returned to the UK to teach maths in a UK university. Soon after she met her future husband, and from there a whole new life opened up.

***Taken By Bear in Glacier National Park*** Kathleen Snow, 2020-05-01 The first person accounts in *Taken by Bear in Glacier National Park* provide a you-are-there perspective on human and grizzly bear encounters since the park's founding in 1910. Most of these encounters have ended peacefully, but many have not. In order to most accurately tell the stories of those involved in the more deadly incidents, Kathleen Snow went directly to the source: the National Park Service archives. With help from personnel at park headquarters, Snow has collected more than 100 years' worth of harrowing true stories that read like crime scene investigations and provide hard-learned lessons in outdoor safety. A must-read for fans of *Taken by Bear in Yellowstone* and the classic *Bear Attacks: Their Causes and Avoidance* by Stephen Herrero.
