Miller-McLemore,2017-07-05 A uniquely comprehensive discussion of vocation from infancy to old age Do infants have a vocation Do Alzheimer s patients In popular culture vocation is often reduced to adult work or church ministry Rarely do we consider childhood or old age as crucial times for commencing or culminating a life of faith in response to God s calling This book addresses that gap by showing how vocation emerges and evolves over the course of an entire lifetime The authors cover six of life s distinct seasons weaving together personal narrative developmental theory case studies and spiritual practices Calling All Years Good grounds the discussion of vocation in concrete realities and builds a cohesive framework for understanding calling throughout all of life

The Emerging Church, Millennials, and Religion: Volume 2 Terry Shoemaker,Rachel C. Schneider,Xochitl Alvizo,2022-03-01 Millennials and progressive Christians are continuing their work of creating alternative spaces for spiritual and religious expressions in North America The practices and beliefs of progressive Christian movements like the emerging church and millennials who tend toward spirituality over and against religion have been the targets of much criticism Yet millennials and progressive Christians continue to both curate spaces for self and collective expression while also engaging within contexts often critical or hostile This collection analyzes these movements from theological religious studies and social scientific perspectives to provide a more holistic view of what is taking shape in religious and spiritual trends and it ventures to project what may lie ahead for the progressive Christianity that is emerging and enduring

Through the Eyes of Titans: Finding Courage to Redeem the Soul of a Nation Danjuma G. Gibson,2024-01-10 Human beings tend to romanticize history or idealize historical figures This is nowhere more apparent than the civil rights era of the twentieth century The problem is that when we idealize history we fail to learn from it The result is that history repeats itself along with its sins and atrocities The January 6 Capitol insurrection and the current racial reckoning we are experiencing is unoriginal to the American experience We have been here before This book seeks to humanize people we have idealized Readers are invited to challenge racial hatred and injustice in their own context by looking to the lives of historical figures who have faced the challenges we currently face By examining the self care practices of personalities like Ida B Wells Fannie Lou Hamer Benjamin Elijah Mays and Martin Luther King Jr this book examines the practices of introspection and self work these historical figures engaged in that enabled them to fulfill the body of work they are celebrated for today By humanizing these historical titans we can emulate similar practices of self care and introspection in our own lives that can equip us in continuing the ongoing work of dismantling structures of racial hatred and oppression and promoting freedom love equity and justice to redeem the soul of a

nation **Law, Registration, and the State** Jess Smith, 2023-07-28 This book provides an original and compelling analysis of registration as a dynamic process which makes and unmakes legal identities Critical legal and socio legal scholarship tends to assume that registration is a textually mediated act of statecraft which governs through the technology of writing Taking a different approach this book develops movement as socio legal method to illustrate the legal social and bureaucratic layers of movement which unfold in everyday engagements with the law The book presents empirical and theoretical analysis of historical contemporary and future oriented places of registration a community hub a city of pilgrimage and the General Register Office Drawing from diverse perspectives across anthropology geography sociology architecture and mobility studies the book argues for an understanding of registration as evolving socially constructed and shaped by spatial imaginaries which are materialised in its architecture This mobile understanding of registration expands conceptual discussions of legal materiality whilst opening up possibilities for legal identities unconstrained by the assumed desirability of stability or endurance This interdisciplinary book will appeal primarily to a sociolegal critical legal and legal geography readership but it will also be of interest to those in other disciplines concerned with materiality movement and statecraft

Celebrating The 12 Days of Christmas Chris Marchand, 2019-10-10 The song The 12 Days of Christmas is a mainstay of the holiday season but the practice of celebrating Christmas as a twelve day festival fell out of fashion long ago in most cultures In *Celebrating the 12 Days of Christmas* author Chris Marchand explores the history behind the season and individual feast days from December 25 to January 6 and then offers suggestions for how you can celebrate it with your family church or community Along with this he provides answers to many of the nagging questions surrounding the holiday such as the history behind the twelve days song why December 25 was chosen as the date and what to do about its supposedly pagan origins The challenge before us is to first help people see Christmas as a holiday that begins rather than ends on December 25 and then to together figure out how to reinvent Christmas in the present by learning how it was celebrated in the past

Media Perceptions of Religious Changes in Australia Enqi Weng, 2019-12-05 This volume explores the contradiction between the news coverage given to issues of religion particularly since 2001 in relation to issues such as terrorism politics security and gender and the fact of its apparent decline according to Census data Based on media research in Australia and offering comparisons with the UK the author demonstrates that media discussions overlook the diversity that exists within religions particularly the country's main religion Christianity and presents religion according to specific interpretations shaped by race class and gender which in turn result in very limited understandings of religion itself Drawing on understandings of the sacred as a non negotiable value present in religious and secular form *Media Perceptions of Religious Changes in Australia* calls for a broader sociological perspective on religion and will appeal to scholars of sociology and media studies with interests in religion and public life

Black culture and life style In her book Geneva Smitherman makes a substantial contribution to an understanding of Black English by setting it in the larger context of Black culture and life style In addition to defining Black English by its distinctive structure and special lexicon Smitherman argues that the Black dialect is set apart from traditional English by a rhetorical style which reflects its African origins Smitherman also tackles the issue of Black and White attitudes toward Black English particularly as they affect educational policy Documenting her insights with quotes from notable Black historical literary and popular figures Smitherman makes clear that Black English is as legitimate a form of speech as British American or Australian English

Jesuits in Science Fiction: Reason and Revelation on Other Worlds Richard Feist,2025-01-07 From their founding in 1540 to this day Jesuits have been controversial Their centuries of missionary work have taken them to all corners of the world They have been accused of killing Kings and Presidents and contributing to colonization and destruction of cultures even participating in enslavement But the Jesuits have also been seen as bringers of light and education With their ferocity of purpose and intellectual rigor the Jesuits impact on world history cannot be ignored No surprise then that Jesuits appear in literature especially that literature of ideas exploration and social commentary otherwise known as science fiction This unique collection of essays explores how the Jesuit has long been part of science fiction s history and how Jesuit ideas and characters are featured in some of science fiction s greatest works In this collection we see Jesuits continue their missionary spirit as they take leave of the earth moving their missionary labors literally towards the heavens Reason and revelation are now indeed on other worlds In this collection we have explorations of philosophy science theology and culture all done in typical Jesuit fashion always in various and foreign contexts This collection is akin to others in its linking of religion and science fiction but it is unique in its concentration on the Jesuits and science fiction This collection will be of interest to scholars working and researching in the field of science fiction studies and would be suitable for courses on science fiction But it will also be of interest and accessible to those of us who simply love science fiction for its power to explore other worlds and in this case to take some of the deepest human reflections namely those on God morals and culture lift them up and see what forms they may take on other worlds

The Digital Cathedral Keith Anderson,2015-05 Expands on author s popular work in Click 2 Save Provides both practical and theological perspectives on using media appropriately and pastorally Rapid cultural and technological changes through the last two decades have changed the context for ministry The development of digital social media and advances in affordable mobile technologies have dramatically changed the way most people interact with others communicate organize and participate in communities The Digital Cathedral is a warm embrace of the rich traditions of Christianity especially the recovery of the premodern sense of cathedral which encompassed the depth and breadth of daily life within the physical and imaginative landscape of the church It is for anyone who seeks to effectively minister in a digitally integrated world and who wishes to embody the networked relational and incarnational characteristics of that ministry

Ethics and Social Survival Milton Fisk, 2016-05-20 When speaking of society's role in ethics one tends to think of society as regimenting people through its customs. *Ethics and Social Survival* rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together. It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society. Fisk traces this theme through the work of various philosophers and builds a consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions. The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty, modesty and self esteem still retain ethical importance. Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty, justice and democracy and strives to connect global and local ethics.

Radical Conversion Christopher M. Duncan, 2021-07-13 *Radical Conversion* utilizes both analytic and normative philosophic theoretical frameworks to study the relationship between Christian Catholic conceptualizations of politics, citizenship, faith and religion as viewed through a quasi theological lens. The work is situated in the context of the American liberal tradition and in conversation and debate with the public philosophy that attempts to sustain it and provide a rationale for its perpetuation. In a single sentence the book's thesis is that for America to fully realize its authentic and unique moral and political mission and secure it into the future it will need to become both more Catholic and more catholic. Concordantly that mission properly understood is nothing less than the recognition and protection of the idea of the sacredness of every individual human person and their right to flourish and realize the fullness of their particular vocation as a child of God.
