A Military Dictionary William Duane, 1810 **Publication**, 1899 *Caligula's Barges and the Renaissance Origins of Nautical Archaeology Under Water* John M. McManamon, 2016-12-09 Sometime around 1446 A D Cardinal Prospero Colonna commissioned engineer Battista Alberti to raise two immense Roman vessels from the bottom of the lago di Nemi just south of Rome By that time local fishermen had been fouling their nets and occasionally recovering stray objects from the sunken ships for 800 years Having no idea of the size of the objects he was attempting to recover Alberti failed For most of the next 500 years various attempts were made to recover the vessels Finally in 1928 Mussolini ordered the draining of the lake to remove the vessels and place them on the lake shore In 1944 the ships burned in a fire that was generally blamed on the Germans John M McManamon connects these attempts at underwater archaeology with the Renaissance interest in reconstructing the past in order to affect the present Nautical and marine archaeologists as well as students and scholars of Renaissance history and historiography will appreciate this masterfully researched and gracefully written work [A Military Dictionary, or explanation of the several systems of discipline of different kinds of troops, ... the principles of fortification, and all the modern improvements in the science of tactics, etc](#) William DUANE (the Elder.), 1810 *Advanced Gunsmithing* W. continued to innovate in gunpowder technology through the early 1700s much longer than previously thought Why then did China become so vulnerable Andrade argues that one significant reason is that it was out of practice fighting wars having enjoyed nearly a century of relative peace since 1760 Indeed he demonstrates that China like Europe was a powerful military innovator particularly during times of great warfare such as the violent century starting after the Opium War when the Chinese once again quickly modernized their forces Today China is simply returning to its old position as one of the world s great military powers By showing that China s military dynamism was deeper longer lasting and more quickly recovered than previously understood The Gunpowder Age challenges long standing explanations of the so called Great Divergence between the West and Asia The Railway Magazine ,1907 **Specifications and Drawings of Patents Issued from the U.S.**
