From Religion to Philosophy Francis Macdonald Cornford, 2009 **World and Life Views, Emerging From Religion, Philosophy and Perception of Nature** Prof. Dr. Max Bernhard Weinstein, 2024-07-01 Originally published in German in 1910 as Welt und Lebensanschauungen Hervorgegangen aus Religion Philosophie und Naturerkenntnis this philosophical opus of Dr Max Bernhard Weinstein has been painstakingly translated into English with exquisite attention paid to insuring that the pagination and illustrations remain identical to that of the original **The Pre-Socratics** Dr Zeus, 2022-09-26 Cornford traces the remarkable burst of abstract speculation among pre Socratic thinkers The first philosophers assumed quite naturally that there is a physical world that could be observed The first philosophy was natural philosophy The world is physical because what we can observe are things They went so far as to believe that consciousness is also physical and consists of very fine particles It made it easier to understand sensation which is a physical effect on sensitive parts of the body's surface eyes ears nose tongue and skin But the senses contained secrets that the first philosophers could not penetrate so they oriented themselves only on the outside of the difference between the observer and the observed Themselves as observers the inside of observation were bracketed Here is an essential book for students and scholars alike Students of the Pre Socratics must be grateful to Mourelatos and his publishers for making these essays available to a wider public **Experience, Explanation and Faith** Anthony O'Hear, 2013-05-02 In this book Anthony O'Hear examines the reasons that are given for religious faith His approach is firmly within the classical tradition of natural theology but an underlying theme is the differences between the personal Creator of the Bible or the Koran and a God conceived of as the indeterminate ground of everything determinate Drawing on several religious traditions and on the resources of contemporary philosophy specific chapters analyse the nature of religious faith and of religious experience They examine connections between religion and morality and religion and human knowledge the cosmological teleological and

ontological arguments process thought and the problem that evil presents for religion The final chapter returns to the inherently dogmatic nature of religious faith and concludes that rational people should look beyond religion for the fulfilment of their spiritual needs **An Introduction to the Philosophy of Religion** , Readability (2/2) - Annandreas,2021-09-21 This book is the second part of the two part book Readability Birth of the Cluster text Introduction to the Art of learning i e do not forget the first part This book is the definitive guide to reading and learning or to learn about philosophy science and pedagogy After having read this book you should have become a better reader and learner and you should also know a little more about philosophy Hence this book could also be seen as a general introduction to philosophy It can be seen in its content Part One 524 pages 1 Reading instructions 25 2 Pedagogical psychology and pedagogical points 87 3 Power analytics an initial relationship to Foucault 52 4 Phenomenology and the birth of the cluster text 81 5 Critical hermeneutics and knowledge about reading 102 6 Micro power learning learn how to write cluster text and techniques of discipline 29 7 Deconstruction and the text in society 62 8 Positivism and the scientific method 63 Part Two 516 pages 9 Philosophy Morality Knowledge 220 10 The non history of the cluster text 30 11 Ars Legendi reading and learning 125 12 Introduction to Ars Discendi Are texts wrongly written 60 Appendix I II and III 60 This two part book 1040 pages is part of a bundle of books that you can use to learn about texts and reading The others are Are Texts Wrongly Written 130 pages 2018 Typographic Manual 170 pages 2021 and Typographical Investigations 450 pages 2022 The two shorter books can be seen as summaries of the two longer ones Note for all these books that the cluster text style is not reflowable and that you need a screen where you can read a line length of 95 characters i e narrow screens are inappropriate *Man, God, and the Universe* I. K. Taimni,2014-07-07 The deepest concern of every thinking individual must surely be with the three great subjects which comprise the title of the book and with the relationships between them The profound concepts inevitably involved in a discussion of such a theme are presented with great clarity and wisdom and the many diagrams and charts with which the ideas are illustrated are invaluable aids to comprehension East and West meet here in enlightened synthesis Chapters include such topics as Cosmic Consciousness The Monad and the Logos Involution and Evolution Mathematics as the Basis of Manifestation and Reality and Consciousness The book also includes both a glossary and index **Hegel's Phenomenology** Ardis B. Collins,2013 How Hegel proves the truth of logic by examining the dynamics of lived experience **Design and Destiny** Ronald Cole-Turner,2008 Scholars discuss the genetic modification of embryonic cells from the viewpoints of traditional Jewish and Christian teaching considering both the possible therapeutic benefits of this technology and moral concerns about its implementation We are approaching the day when advances in biotechnology will allow parents to design a baby with the traits they want The continuing debate over the possibilities of genetic engineering has been spirited but so far largely confined to the realms of bioethics and public policy Design and Destiny approaches the question in religious terms discussing human germline modification the genetic modification of the embryonic cells that become the eggs or

sperm of a developing organism from the viewpoints of traditional Christian and Jewish teaching The contributors leading religious scholars and writers call our attention not to technology but to humanity reflecting upon the meaning and destiny of human life in a technological age Many of these scholars argue that religious teaching can support human germline modification implemented for therapeutic reasons although they offer certain moral conditions that must be met The essays offer a surprising variety of opinions including a discussion of Judaism s traditional presumption in favor of medicine an argument that Catholic doctrine could accept germline modification if it is therapeutic for the embryo an argument implying that traditional Christian teaching permits germline modification whether for therapy or enhancement and a classical Protestant view that germline modification should be categorically opposed Contributors Lisa Sowle Cahill Nigel M de S Cameron Ronald Cole Turner Amy Michelle DeBaets Celia Deane Drummond Elliot Dorff H Tristram Engelhardt Jr Thomas A Shannon James J Walter **The Owl at Dawn** Andrew Cutrofello,Georg Wilhelm Friedrich Hegel,1995-01-01 A present day continuation of the philosophical narrative presented in G W F Hegel s Phenomenology of Spirit that confronts every major post Hegelian philosophical position and arrives at an original reconception of the purpose of dialectical phenomenology
