

NEW FRONTIER "chronicles the experiences of DC Comics heroes from the end of World War II through the cold war. Mr. Cooke's drawings are striking, and his plot makes good use of DC's diverse characters."

— THE NEW YORK TIMES

"Writer/artist Darwyn Cooke smartly reimagines the dawn of the 'Silver Age' of heroes in the late '50s. Heavy on character, and with slightly cartoony art that evokes the period."

— SEATTLE TIMES

NEW FRONTIER "was a love letter to the Justice League that reimagined the team's late '50s and early '60s origins with a sense of honor, grandeur, and sensawunda that would thrill the most jaded heart."

— SUNDAY WATERBURY REPUBLICAN

THE ACCLAIMED EPIC CONCLUDES!

IT'S A MYSTERY IN SPACE AS SUPERMAN, THE SUICIDE SQUAD, AND THE CHALLENGERS OF THE UNKNOWN ENCOUNTER A FRIGHTENING EXTRATERRESTRIAL LIFEFORM. COULD THIS HIDEOUS CREATURE HAVE ANYTHING TO DO WITH THE SENSE OF IMPENDING DOOM ALL THE HEROES ARE EXPERIENCING? MEANWHILE, PILOT HAL JORDAN IS GROUNDED. WHILE POST-WAR AMERICA FACES A MONSTROUS THREAT OLDER THAN TIME! WILL THIS CHALLENGE BRING AMERICA AND ITS HEROES BACK TOGETHER OR TEAR THEM APART? FEATURING GREEN LANTERN, THE FLASH, MARTIAN MANHUNTER, AQUAMAN, WONDER WOMAN, AND MORE!

CRITICALLY ACCLAIMED WRITER/ILLUSTRATOR DARWYN COOKE (CATWOMAN: SELINA'S BIG SCORE, BATMAN: EGG, SPIDER-MAN'S TANGLED WEB) CONCLUDES HIS MOST AMBITIOUS PROJECT YET. PAIRED WITH COLORIST EXTRAORDINAIRE DAVE STEWART, THIS VOLUME COLLECTS THE SECOND HALF OF THIS LANDMARK TALE, WHICH ALSO FEATURES BONUS ARTWORK AND AN AFTERWORD BY COOKE.

Frontier Volume 2 Comparative Studies

Steven G. Reinhardt, Dennis Reinhartz

Frontier Volume 2 Comparative Studies:

Comparing Cowboys and Frontiers Richard W. Slatta, 1997 Historians of the American West perhaps inspired by NAFTA and Internet communication are expanding their intellectual horizons across borders north and south This collection of essays functions as a how to guide to comparative frontier research in the Americas Frontiers specialist Richard W Slatta presents topics techniques and methods that will intrigue social science professionals and western history buffs alike as he explores the frontiers of North and South America from Spanish colonial days into the twentieth century The always popular cowboy is joined by the fascinating gaucho llanero vaquero and charro as Slatta compares their work techniques roundups songs tack lingo equestrian culture and vices We visit saloons and pulperias as well as plains and pampas and Slatta expertly compares clothing weather terrain diets alcoholic beverages card games and military tactics From primary records we learn how Europeans Native Americans and African Americans became the ranch hands cowmen and buckaroos of the Americas and why their dependence on the ranch cattle industry kept them bachelors and landless peons *Social Change in the Southwest, 1350-1880* Thomas D. Hall, 1989 *Comparing Globalizations* Thomas D. Hall, 2017-11-17 This work explores essential debates on globalization and world systems analysis It begins with a review of theoretical insights from world systems analysis and explains the evolution of its terminology The book subsequently seeks to answer several important questions When did globalization begin and what insights into contemporary globalization may be gained from older forms How does globalization differ in different places and how can different instances of globalization be compared Who is affected by globalization how are they affected and how do these effects vary if at all over time and space As world systems analysis and studies of globalization require interdisciplinary expertise the contributing authors draw on many fields including anthropology economics geography philosophy political science sociology and world history The book's overall goal is to facilitate the dialogue between approaches that at times seem to talk at cross purposes and to extend an invitation to scholars from many different areas to explore globalization *Rise And Demise* Christopher Chase-Dunn, 2018-02-06 The authors combine an excellent state of the art review of the literature in world systems analysis with a vigorous presentation of their own quite coherent views This book is a major contribution to our collective dialogue on the past and the future Immanuel Wallerstein Binghamton University author of *The Modern World System* An up to date and synthetic overview of current world systems research The authors draw on diverse literatures from political science to archaeology from contemporary policy issues to Native American studies and from history to sociology This thoughtful volume serves as both a provocative summary of ongoing scholarship and a fertile foundation for future cross disciplinary dialogue Gary M Feinman University of Wisconsin Madison To understand the evolution of the world's political economy we need empirical theories that can handle ancient and modern processes a longer time frame encompassing multiple millennia and less concern about trespassing in other people's disciplines Chase Dunn and Hall's new book *Rise and Demise* delivers all three with noteworthy

style and effect William Thompson Indiana University Rise and Demise is a wide ranging and stimulating synthesis of the world systems approach and its main findings Its broad coverage of parallel social processes in various regions and time periods convincingly makes the argument that world systems theory is able to integrate many diverse historical and social science specializations Richard E Blanton Purdue University

Transatlantic History Steven G. Reinhardt, Dennis Reinhartz, 2006 The transatlantic world has had immense influence on the direction of world history The six illuminating studies in Transatlantic History address cultural exchanges and intercontinental developments that contribute to our modern understanding of global communities Transatlantic history encompasses a variety of scholarly problems and approaches from multiple disciplines and volume editors Steven G Reinhardt and Dennis P Reinhartz have assembled a collection of essays that reflect the diversity within the field Introducing the book William McNeill provides a unifying overview of the concept and practice of transatlantic history by placing it within the larger context of world history The chapter authors bring distinctive styles and methods to the investigation of the processes of interaction and adaptation among Africans Native Americans and Europeans Their studies range from the Spanish imperial crisis in the 1600s to the urbanization of Europe and the Americas from graphic portrayals of the Atlantic world to the settlement of Ireland America and South Africa and the recent diaspora of West Africans Readers interested in world history communication and cultural studies will find Transatlantic History provocative and challenging as it convincingly argues for the importance of this new field

Frontiers, Insurgencies and Counter-Insurgencies in South Asia Kaushik Roy, 2020-11-29 This book uses cross cultural analysis across Eurasia and Afro Asia to trace the roots of contemporary border disputes and insurgencies in South Asia It discusses the way frontiers of British India and consequently the modern states of India and Pakistan were drafted through negotiations backed up by organized violence showing how this conce

The War on Terrorism and the American 'Empire' after the Cold War Alejandro Colas, Richard Saull, 2007-04-11 This new study shows how the American led war on terror has brought about the most significant shift in the contours of the international system since the end of the Cold War A new imperial moment is now discernible in US foreign policy in the wake of the neo conservative rise to power in the USA marked by the development of a fresh strategic doctrine based on the legitimacy of preventative military strikes on hostile forces across any part of the globe Key features of this new volume include an alternative critical take on contemporary US foreign policy a timely accessible overview of critical thinking on US foreign policy imperialism and war on terror the full spectrum of critical view sin a single volume many of these essays are now contemporary classics The essays collected in this volume analyse the historical socio economic and political dimensions of the current international conjuncture and assess the degree to which the war on terror has transformed the nature and projection of US global power Drawing on a range of critical social theories this collection seeks to ground historically the analysis of global developments since the inception of the new Bush Presidency and weigh up the political consequences of this imperial turn This book will

be of great interest for all students of US foreign policy contemporary international affairs international relations and politics

Carolina's Historical Landscapes Linda France Stine,1997 Featuring contributions by leading scholars this book goes beyond conventional archaeological studies by placing the description and interpretation of specific sites in the wider context of the landscape that connects them to one another **Scorched Earth** Emmanuel Kreike,2022-10-25 A global history of

environmental warfare and the case for why it should be a crime The environmental infrastructure that sustains human societies has been a target and instrument of war for centuries resulting in famine and disease displaced populations and the devastation of people s livelihoods and ways of life Scorched Earth traces the history of scorched earth military inundations and armies living off the land from the sixteenth to the twentieth century arguing that the resulting deliberate destruction of the environment environcide constitutes total war and is a crime against humanity and nature In this sweeping global history Emmanuel Kreike shows how religious war in Europe transformed Holland into a desolate swamp where hunger and the black death ruled He describes how Spanish conquistadores exploited the irrigation works and expansive agricultural terraces of the Aztecs and Incas triggering a humanitarian crisis of catastrophic proportions Kreike demonstrates how environmental warfare has continued unabated into the modern era His panoramic narrative takes readers from the Thirty Years War to the wars of France s Sun King and from the Dutch colonial wars in North America and Indonesia to the early twentieth century colonial conquest of southwestern Africa Shedding light on the premodern origins and the lasting consequences of total war Scorched Earth explains why ecocide and genocide are not separate phenomena and why international law must recognize environmental warfare as a violation of human rights A Conquering Spirit Gregory A.

Waselkov,2009-05-19 The August 30 1813 massacre at Fort Mims left hundreds dead and ultimately changed the course of American history The Indian victory shocked and horrified a young America ushering in a period of violence surrounded by racial and social confusion Fort Mims became a rallying cry calling Americans to fight their assailants and avenge the dead In A Conquering Spirit Waselkov thoroughly explicates the social climes surrounding this tumultuous moment in early American history with a comprehensive collection of illustrations artifact photographs and detailed accounts of every known participant in the attack on Fort Mims These rich and extensive resources make A Conquering Spirit an invaluable collection for any reader interested in America s frontier era Winner of the Adult Nonfiction Book of the Year award by the Alabama Library Association Winner of the Clinton Jackson Coley award from the Alabama Historical Association Canadian

Geography Thomas A. Rumney,2009-12-10 Canadian Geography A Scholarly Bibliography is a compendium of published works on geographical studies of Canada and its various provinces It includes works on geographical studies of Canada as a whole on multiple provinces and on individual provinces Works covered include books monographs atlases book chapters scholarly articles dissertations and theses The contents are organized first by region into main chapters and then each chapter is divided into sections General Studies Cultural and Social Geography Economic Geography Historical Geography

Physical Geography Political Geography and Urban Geography Each section is further sub divided into specific topics within each main subject All known publications on the geographical studies of Canada in English French and other languages covering all types of geography are included in this bibliography It is an essential resource for all researchers students teachers and government officials needing information and references on the varied aspects of the environments and human geographies of Canada

Archaeology of Frontiers & Boundaries J J ROBINSON,2014-06-28 Archaeology of Frontiers Boundaries *Objects and Frontiers in Modern Asia* Lipokmar Dzüvichü,Manjeet Baruah,2019-03-06 Focusing on the geographies between the Mekong and the Indus this book brings objects to the centre of enquiry in the understanding of modern Asian frontiers It explores how a range of objects have historically been significant bearers and agents of frontier making For instance how are objects connected to aspects of state making social change everyday life diplomacy political and ecological worlds capital forms of violence resistances circulations and aesthetic expressions This book seeks to interrogate and understand the dynamism of frontiers from the vantage point of objects such as salt rubber tea guns silk scarves horses and opium It attempts to explore objects as sites of encounter mediation or dislocation between the social and the spatial The book not only locates objects in the specificities of frontier spaces but it also looks at how they are produced circulated and come to be intricately linked to a wide range of people institutions networks and geographies In the process it explores how objects traverse and come to inhabit multiple historical cultural and geographical scales This book will be of interest to researchers and academics working in areas of history social and cultural anthropology Asian studies frontiers and borderland studies cultural studies political and economic studies and museum studies

The View from Madisonville Penelope Ballard Drooker,1997-01-01 Madisonville was one of the key settlements of the Ohio Valley Fort Ancient people and was the subject of James Griffin s 1943 classic *The Fort Ancient Aspect* It is a site rich in burials and artifacts documenting the earliest European influences Drooker re explores a century of excavation to explain how Contact Period events affected Madisonville inhabitants and their links to eastern Fort Ancient northern Ohio Iroquoian Oneota and Mississippian groups

The Quest for Modern Assam: A History Arupjyoti Saikia,2023-08-28 A model work of historical scholarship Ramachandra Guha The most well researched comprehensive history of contemporary Assam ever written Partha Chatterjee The crucial battles of World War II fought in India s north east followed soon after by Independence and Partition had a critical impact on the making of modern Assam In the three decades following 1947 the state of Assam underwent massive political turmoil geographical instability and social and demographic upheaval among others Later the truncated state suffered widespread unrest as various groups believed their cultural identity and political leverage were under threat New social energies and political forces were unleashed and came to the fore Definitive comprehensive and unputdownable *The Quest for Modern Assam* explores the interconnected layers of political environmental economic and cultural processes that shaped the development of Assam since the 1940s It offers an authoritative account that sets new standards in the writing of regional

political history Not to be missed by any one keen on Assam India Asia or world history in the twentieth century **Gallegos Mesa Settlement and Subsistence** Lawrence Vogler,1982 **Society and Government in Colonial Brazil, 1500-1822**

A.J.R. Russell-Wood,2024-10-28 Professor Russell Wood s detailed studies of Brazilian social history in the colonial era have long been recognised as model contributions to the history of class race gender and religion This collection combines work on particular persons and groupings with survey articles on the role of the port and the frontier in colonial Brazil and on its historiography The author describes the administration and structure of government and the realities of royal power with examples drawn from the port cities and the mining townships of the interior then moves on to examine the interplay of class religion and race with reference to brotherhoods of persons of African descent and the racially exclusive Third Orders One group who overcame legal physical and social constraints were women who whether of European or African descent contributed decisively to the economy and society of Brazil To conclude there are accounts of three individuals each of whose experiences illustrate facets of the judicial system governance and education in Portugal s richest colony Les tudes d taill es du professeur Russell Wood sur l histoire sociale br silienne durant la p riode coloniale ont longtemps t reconnues comme un mod le de contribution histoire des classes des races des genres et des religions Cette collection allie des travaux au sujet d individus sp cifiques et de groupements des r sum s d enqu te sur la r le du port et de la fronti re dans le Br sil colonial et dans son historiographie L auteur d crit l administration et la structure gouvernementale ainsi que les r alit s du pouvoir royal s appuyant d exemples tir s des cit s portuaires et des communes mini res de l int rieur Il passe ensuite l examen de l interaction des classes des religions et des races en faisant r f rence aux liens de fraternit qui unissaient les personnes de descendance africaine ainsi qu aux Troisi mes Ordres qui pratiq Race and Practice in Archaeological Interpretation Charles E. Orser, Jr.,2013-04-19 Scholars who investigate race a label based upon real or perceived physical differences realize that they face a formidable task The concept has been contested and condoned debated and denied throughout modern history Presented with the full understanding of the complexity of the issue Race and Practice in Archaeological Interpretation concentrates on the archaeological analysis of race and how race is determined in the archaeological record Most archaeologists even those dealing with recent history have usually avoided the subject of race yet Charles E Orser Jr contends that its study and its implications are extremely important for the science of archaeology Drawing upon his considerable experience as an archaeologist and using a combination of practice theory as interpreted by Pierre Bourdieu and spatial theory as presented by Henri Lefebvre Orser argues for an explicit archaeology of race and its interpretation The author reviews past archaeological usages of race including a case study from early nineteenth century Ireland and explores the way race was used to form ideas about the Mound Builders the Celts and Atlantis He concludes with a proposal that historical archaeology cast as modern world archaeology should take the lead in the archaeological analysis of race because its purview is the recent past that period during which our conceptions of race developed Inadvertent Expansion Nicholas

D. Anderson, 2025-01-15 In *Inadvertent Expansion* Nicholas D Anderson investigates a surprisingly common yet overlooked phenomenon in the history of great power politics territorial expansion that was neither intended nor initially authorized by state leaders Territorial expansion is typically understood as a centrally driven and often strategic activity But as Anderson shows nearly a quarter of great power coercive territorial acquisitions since the nineteenth century have in fact been instances of what he calls inadvertent expansion A two step process inadvertent expansion first involves agents on the periphery of a state or empire acquiring territory without the authorization or knowledge of higher ups Leaders in the capital must then decide whether to accept or reject the already acquired territory Through cases ranging from those of the United States in Florida and Texas to Japan in Manchuria and Germany in East Africa Anderson shows that inadvertent expansion is rooted in a principal agent problem When leaders in the capital fail to exert or have limited control over their agents on the periphery unauthorized efforts to take territory are more likely to occur Yet it is only when the geopolitical risks associated with keeping the acquired territory are perceived to be low that leaders are more likely to accept such expansion Accentuating the influence of small seemingly insignificant actors over the foreign policy behavior of powerful states *Inadvertent Expansion* offers new insights into how the boundaries of states and empires came to be and captures timeless dynamics between state leaders and their peripheral agents

The Geography of Genocide Allan D. Cooper, 2009 *The Geography of Genocide* offers a unique analysis of over sixty genocides in world history explaining why genocides only occur in territorial interiors and never originate from cosmopolitan urban centers This study explores why genocides tend to result from emasculating political defeats experienced by perpetrator groups and examines whether such extreme political violence is the product of a masculine identity crisis Author Allan D Cooper notes that genocides are most often organized and implemented by individuals who have experienced traumatic childhood events involving the abandonment or abuse by their father Although genocides target religious groups nations races or ethnic groups these identity structures are rarely at the heart of the war crimes that ensue Cooper integrates research derived from the study of serial killing and rape to show certain commonalities with the phenomenon of genocide *The Geography of Genocide* presents various strategies for responding to genocide and introduces Cooper's groundbreaking alternatives for ultimately inhibiting the occurrence of genocide
