Frontier Deborah Bird Rose, Richard Davis, 2006-03-01 The frontier is one of the most pervasive concepts underlying the
production of national identity in Australia Recently it has become a highly contested domain in which visions of nationhood
are argued out through analysis of frontier conflict DISLOCATING THE FRONTIER departs from this contestation and takes
a critical approach to the frontier imagination in Australia The authors of this book work with frontier theory in comparative
and unsettling modes The essays reveal diverse aspects of frontier images and dreams as manifested in performance

Frontiers of the Roman Empire Hugh Elton, 2013-04-15 With its succinct analysis of the overriding issues and detailed
case studies based on the latest archaeological research this social and economic study of Roman Imperial frontiers is
essential reading Too often the frontier has been represented as a simple linear boundary The reality argues Dr Elton was
rather a fuzzy set of interlocking zones political military judicial and financial After discussion of frontier theory and types of
frontier the author analyses the acquisition of an empire and the ways in which it was ruled He addresses the vexed question
of how to define the edges of provinces and covers the relationship with allied kingdoms Regional variation and different

rates of change are seen as significant as is illustrated by Civilis revolt on the Rhine in AD 69 He uses another case study Dura Europos to exemplify the role of the army on the frontier especially its relations with the population on both sides of the border The central importance of trade is highlighted by special consideration of Palmyra Frontier and Society in Roman North Africa Dr. David Cherry,1998 Analysing the cultural social and economic consequences of the Roman occupation of North Africa c 50 BC AD 250 this book offers a fresh look at the development and purpose of the north African frontier system

Studies in Culture Contact James G. Cusick,2015-03-05 People have long been fascinated about times in human history when different cultures and societies first came into contact with each other how they reacted to that contact and why it sometimes occurred peacefully and at other times was violent or catastrophic *Studies in Culture Contact Interaction Culture Change and Archaeology* edited by James G Cusick seeks to define the role of culture contact in human history to identify issues in the study of culture contact in archaeology and to provide a critical overview of the major theoretical approaches to the study of culture and contact In this collection of essays anthropologists and archaeologists working in Europe and the Americas consider three forms of culture contact colonization cultural entanglement and symmetrical exchange Part I provides a critical overview of theoretical approaches to the study of culture contact offering assessments of older concepts in anthropology such as acculturation as well as more recently formed concepts including world systems and center periphery models of contact Part II contains eleven case studies of specific contact situations and their relationships to the archaeological record with times and places as varied as pre and post Hispanic Mexico Iron Age France Jamaican sugar plantations European provinces in the Roman Empire and the missions of Spanish Florida *Studies in Culture Contact* provides an extensive review of the history of culture contact in anthropological studies and develops a broad framework for studying culture contact s role moving beyond a simple formulation of contact and change to a more complex understanding of the amalgam of change and continuity in contact situations

Untaming the Frontier in Anthropology, Archaeology, and History Bradley J. Parker,Lars Rodseth,2023-01-24 Despite a half century of attempts by social scientists to compare frontiers around the world the study of these regions is still closely associated with the nineteenth century American West and the work of Frederick Jackson Turner As a result the very concept of the frontier is bound up in Victorian notions of manifest destiny and rugged individualism The frontier it would seem has been tamed This book seeks to open a new debate about the processes of frontier history in a variety of cultural contexts untaming the frontier as an analytic concept and releasing it in a range of unfamiliar settings Drawing on examples from over four millennia it shows that throughout history societies have been formed and transformed in relation to their frontiers and that no one historical case represents the normal or typical frontier pattern The contributors historians anthropologists and archaeologists present numerous examples of the frontier as a shifting zone of innovation and recombination through which cultural materials from many sources have been unpredictably channeled and transformed At the same time they reveal recurring processes of frontier history that enable

world historical comparison the emergence of the frontier in relation to a core area the mutually structuring interactions between frontier and core and the development of social exchange merger or conflict between previously separate populations brought together on the frontier Any frontier situation has many dimensions and each of the chapters highlights one or more of these from the physical and ideological aspects of Egypt's Nubian frontier to the military and cultural components of Inka outposts in Bolivia to the shifting agrarian religious and political boundaries in Bengal They explore cases in which the centripetal forces at work in frontier zones have resulted in cultural hybridization or creolization and in some instances show how satellite settlements on the frontiers of core polities themselves develop into new core polities Each of the chapters suggests that frontiers are shaped in critical ways by topography climate vegetation and the availability of water and other strategic resources and most also consider cases of population shifts within or through a frontier zone As these studies reveal transnationalism in today's world can best be understood as an extension of frontier processes that have developed over thousands of years This book's interdisciplinary perspective challenges readers to look beyond their own fields of interest to reconsider the true nature and meaning of frontiers

The Frontier in British India Thomas Simpson, 2021-01-07 Thomas Simpson provides an innovative account of how distinctive forms of colonial power and knowledge developed at the territorial fringes of colonial India during the nineteenth century Through critical interventions in a wide range of theoretical and historiographical fields he speaks to historians of empire and science anthropologists and geographers alike The Frontier in British India provides the first connected and comparative analysis of frontiers in northwest and northeast India and draws on visual and written materials from an array of archives across the subcontinent and the UK Colonial interventions in frontier spaces and populations were it shows enormously destructive but also prone to confusion and failure on their own terms British frontier administrators did not merely suffer turbulent frontiers but actively worked to generate and uphold these regions as spaces of governmental and scientific exception Accordingly India's frontiers became crucial spaces of imperial practice and imagination throughout the nineteenth century

Boundaries, Borders and Frontiers in Archaeology Bryan Feuer, 2016-02-17 Until fairly recently archaeological research has been directed primarily toward the centers of societies rather than their perimeters Yet frontiers and borders precisely because they are peripheral promote interaction between people of different polities and cultures with a wide range of potential outcomes Much work has begun to redress this disparity of focus Drawing on contemporary and ethnographic accounts historical data and archaeological evidence this book covers more than 30 years of research on boundaries borders and frontiers beginning with The Northern Mycenaean Border in Thessaly in 1983 The author discusses various theoretical and methodological issues concerning peripheries as they apply to the archaeological record Political economic social and cultural processes in border and frontier zones are described in detail Three case study societies are examined China Rome and Mycenaean Greece

Geographic Perspectives on Soviet Central Asia Robert Lewis, 2003-10-04 In a unique survey based on new census

Transatlantic History Steven G. Reinhardt, Dennis Reinhartz, 2006 The transatlantic world has had immense influence on the direction of world history The six illuminating studies in *Transatlantic History* address cultural exchanges and intercontinental developments that contribute to our modern understanding of global communities Transatlantic history encompasses a variety of scholarly problems and approaches from multiple disciplines and volume editors Steven G Reinhardt and Dennis P Reinhartz have assembled a collection of essays that reflect the diversity within the field Introducing the book William McNeill provides a unifying overview of the concept and practice of transatlantic history by placing it within the larger context of world history The chapter authors bring distinctive styles and methods to the investigation of the processes of interaction and adaptation among Africans Native Americans and Europeans Their studies range from the Spanish imperial crisis in the 1600s to the urbanization of Europe and the Americas from graphic portrayals of the Atlantic world to the settlement of Ireland America and South Africa and the recent diaspora of West Africans Readers interested in world history communication and cultural studies will find *Transatlantic History* provocative and challenging as it convincingly argues for the importance of this new field

Early Native American Writing Helen Jaskoski, 1996-11-28 A collection of essays discussing early American Indian authors

The Fatal Environment Richard Slotkin, 2024-01-23 A two time National Book Award finalist's ambitious and provocative look at Custer's Last Stand capitalism and the rise of the cowboys and Indians legend The New York Review of Books In *The Fatal Environment* historian Richard Slotkin demonstrates how the myth of frontier expansion and subjugation of Native Americans helped justify the course of America's rise to wealth and power Using Custer's Last Stand as a metaphor for what Americans feared might happen if the frontier should be closed and the savage element be permitted to dominate the civilized Slotkin shows the emergence by 1890 of a mythos redefined to help Americans respond to the confusion and strife of industrialization and imperial expansion A clearly written challenging and provocative work that should prove enormously valuable to serious students of American history The New York Times An arresting hypothesis Henry Nash Smith American Historical Review

The Chinese Revolution on the Tibetan Frontier Benno Weiner, 2020-06-15 In *The Chinese Revolution on the Tibetan Frontier* Benno Weiner provides the first in depth study of an ethnic minority region during the first decade of the People's Republic of China the Amdo region in the Sino Tibetan borderland Employing previously inaccessible local archives as well as other rare primary sources he demonstrates that the Communist Party's goal in 1950s Amdo was not just state building but also nation building Such an objective required the construction of narratives and policies capable of convincing Tibetans of their membership in a wider political community As Weiner shows however early efforts to gradually and organically transform a vast multiethnic empire into a singular nation state lost out to a revolutionary impatience demanding more immediate paths to national integration and socialist transformation This led in 1958 to communization then to large scale rebellion and its brutal pacification Rather than joining voluntarily Amdo was integrated

through the widespread often indiscriminate use of violence a violence that lingers in the living memory of Amdo Tibetans and others
