In Laudem Hierosolymitani Ronnie Ellenblum, 2016-12-05 In the thirty five years since B Z Kedar published the first of his many studies on the crusades he has become a leading historian of this field and of medieval and Middle Eastern history more broadly His work has been groundbreaking uncovering new evidence and developing new research tools and methods of analysis with which to study the life of Latins and non Latins in both the medieval West and the Frankish East From the Israeli perspective Kedar s work forms a important part of the historical and cultural heritage of the country This volume presents 31 essays written by eminent medievalists in his honour They reflect his methods and diversity of interest The collection outstanding in both quality and range of topics covers the Latin East and relations between West and East in the time of the crusades The individual essays deal with the history archaeology and art of the Holy Land the crusades and the military orders Islam historiography Mediterranean commerce medieval ideas and literature and the Jews Given Benjamin Kedar s close involvement with the Society for the Study of the Crusades and the Latin East and his years as its President and his work to establish the journal *Crusades* it is fitting that this volume should appear as the first in a series of *Subsidia* to the journal For information about the Society for the Study of the Crusades and the Latin East see the society s website www.sscle.org

Interludes of Peace in the Medieval Latin East Yvonne Friedman, 2025-09-08 *Interludes of Peace in the Medieval Latin East* undertakes a multifaceted examination of peacemaking processes as they unfolded in the medieval Latin East Perhaps less heroic than war these peacemaking endeavors make a significant contribution to our understanding of life in the medieval Middle East during the Crusades This book considers how ceasefires truces and peace treaties were achieved through a process of mutual acculturation between Crusaders and local Muslim societies and the mechanisms employed to overcome both cultural and religious divides Notwithstanding these warring societies differing concepts of lasting peace this did not prevent them from engaging in treaty making during the

two-century long conflict in the Latin East. The story told here is of the quest for small realistic peace, however fragile and temporary. In the process, a shared language of gestures, body language, and gift giving was created that enabled and enhanced trust and coexistence. However, global political changes, economic developments, and new trade routes ultimately ended European rule in the medieval Middle East.

Unofficial peace diplomacy Lior Lehrs, 2022-10-04. This book analyses the international phenomenon of private peace entrepreneurs. These are private citizens with no official authority who initiate channels of communication with official representatives from the other side of a conflict in order to promote a conflict resolution process. It combines theoretical discussion with historical analysis, examining four cases from different conflicts: Norman Cousins and Suzanne Massie in the Cold War; Brendan Duddy in the Northern Ireland conflict; and Uri Avnery in the Israeli-Palestinian conflict. The book defines the phenomenon, examines the resources and activities of private peace entrepreneurs, and their impact on the official diplomacy, and examines the conditions under which they can play an effective role in peace-making processes. This book is relevant to United Nations Sustainable Development Goal 16: Peace, justice, and strong institutions.

Peacemaking and the Restraint of Violence in High Medieval Europe Simon Leboutteiller, Louisa Taylor, 2023-10-04. The High Middle Ages have been seen as an important point within the development of governmental and administrative bureaucracy, as well as a time in which there was frequent conflict. This volume addresses the methods by which violence was regulated and mitigated, and peaceful relations were re-established in high medieval Europe. By studying the restraint of violence and the imposition of peace, the chapters in this volume contribute to interdisciplinary discussions about the effects that violence had on medieval societies. The wide-ranging geographical scope of this volume invites comparisons to be made in relation to how violence was restrained and peace established in different settings. The chapters in the first part of this volume address the issue of how violence was moderated and curbed during and following periods of conflict. The second part explores attempts to maintain peace and the processes which developed to deal with those viewed as having broken the peace. The final part of this volume explores the ways in which conflict was avoided through the maintenance of positive relationships between individuals and groups. This book will be of interest to both academics and students interested in conflict, the restraint of violence, and peacemaking in medieval societies, as well as those working on ritual and conflict resolution in any historical period.

Peacemaking Susan Allen Nan, Zachariah Cherian Mampilly, Andrea Bartoli, 2011-11-10. In a world where conflict is never ending, this thoughtful compilation fosters a new appreciation of the art of peacemaking as it is understood and practiced in a variety of contemporary settings. Peacemaking: From Practice to Theory is about seeing, knowing, and learning peacemaking as it exists in the real world. Built on the premise that peacemaking is among the most elemental of human experiences, this seminal work emphasizes the importance of practice and lived experiences in understanding the process and learning what works to nurture peace. To appropriately reflect the diversity of peacemaking practices, challenges, and innovations, these two volumes bring together many authors and viewpoints. The first

volume consists of two sections Peacemaking in Practice and Towards an Inclusive Peacemaking the second of two additional sections New Directions in Peacemaking and Interpreting Peacemaking As the title states the work moves peacemaking beyond mere theory showcasing peacemaking efforts produced recorded recognized and understood by a variety of individuals and institutions In doing so it refocuses the study of peacemaking and guides readers to a systematic understanding and appreciation of the practices of peacemakers around the globe Marguerite de Navarre's Shifting Gaze Elizabeth Chesney Zegura,2016-11-10 Reading between the lines political allegory and metonymy in the Heptameron Conclusion Selected bibliography Index *War and Reason* Bruce Bueno de Mesquita,David Lalman,2008-10-01 DIVIn this landmark work two leading theorists of international relations analyze the strategies designed to avoid international conflict Using a combination of game theory statistical analysis and detailed case histories Bruce Bueno de Mesquita and David Lalman evaluate the conditions that promote negotiation the status quo capitulation acquiescence and war The authors assess two competing theories on the role that domestic politics plays in foreign policy choices one states that national decision makers are constrained only by the exigencies of the international system and the other views leaders as additionally constrained by domestic political considerations Finding the second theory to be more consistent with historical events they use it to examine enduring puzzles such as why democracies do not appear to fight one another whether balance of power or power preponderance promotes peaceful resolution of disputes and what conditions are necessary and sufficient for nations to cooperate with one another They conclude by speculating about the implications of their theory for foreign policy strategies in the post Cold War world div *Crusades* Benjamin Z. Kedar,Jonathan Phillips,Jonathan Riley-Smith,2016-08-12 Crusades covers seven hundred years from the First Crusade 1095 1102 to the fall of Malta 1798 and draws together scholars working on theatres of war their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology law literature art numismatics and economic social political and military history Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East Particular attention is given to the publication of historical sources in all relevant languages narrative homiletic and documentary in trustworthy editions but studies and interpretative essays are welcomed too Crusades appears in both print and online editions Peter W Edbury again features in an issue of Crusades this time with his piece on The French translation of William of Tyre's Historia the manuscript tradition Dictionary of Gestures Francois Caradec,2023-08-01 An illustrated guide to more than 850 gestures and their meanings around the world from a nod of the head to a click of the heels Gestures convey meaning with a flourish A vigorous nod of the head a bold jut of the chin an enthusiastic thumbs up all speak louder than words Yet the same gesture may have different meanings in different parts of the world What Americans understand as the A OK gesture for example is an obscene insult in the Arab world This volume is the reference book we didn't know we needed an illustrated dictionary of 850 gestures and their meanings around the world It catalogs voluntary gestures made to communicate openly as distinct

from sign language dance moves involuntary tells or secret handshakes and explains what the gesture conveys in a variety of locations It is organized by body part from top to bottom from head nodding shaking turning to foot scraping kicking playing footsie We learn that to oscillate the head while gently throwing it back communicates approval in some countries even though it resembles the headshake of disapproval used in other countries that to tap a slightly inflated cheek constitutes an erotic invitation when accompanied by a wink that the middle finger pointed in the air signifies approval in South America We may already know that it is a grave insult in the Middle East and Asia to display the sole of one's shoe but perhaps not that motorcyclists sometimes greet each other by raising a foot Illustrated with clever line drawings and documented with quotations from literature the author François Caradec was a distinguished and prolific historian of literature culture and humorous oddities as well as a novelist and poet this dictionary offers readers unique lessons in polylingual meaning

What Would You Do? John Howard Yoder, 1992-08-14 John Howard Yoder helps answer the age old question What would you do if someone was attacking your grandmother husband wife daughter or son Yoder provides a variety of responses to this classic question his own thorough ethical analysis along with the answers given by other writers such as Leo Tolstoy Dale Brown and Dale Aukerman and a variety of real life stories of people who have discovered alternative responses to violence

Conflicted are the Peacemakers Eric N. Budd, 2012-12-20 The 1993 Oslo Accords were a key attempt to resolve the Palestinian Israeli conflict whose failure was largely attributed to extremists on both sides The book challenges this conventional wisdom by examining the role of Israeli and Palestinian peacemakers themselves in derailing the peace process Looking at the role of moderates before and after Oslo the different agreements and peace proposals they negotiated and their rhetoric the book shows that these peacemakers retained an inherent ambivalence toward the peace process and one another This prevented them and their constituents from committing to the process and achieving a lasting peace This unique survey shows how the people who drive the peace process can not only undermine it but also prevent its successful conclusion By dealing with such an important aspect of negotiation the book will foster a better understanding of the role of moderates and why peace processes may falter It will fill a gap in the literature and be a valuable research tool for anyone studying conflict processes the Arab Israeli conflict and Middle East politics **Transition 116** IU Press

Journals, 2015-02-02 The 116th issue features essays as well as some fiction and poetry dedicated to the remembrance of former South African president Nelson Mandela Published three times per year by Indiana University Press for the Hutchins Center at Harvard University Transition is a unique forum for the freshest most compelling ideas from and about the black world Since its founding in Uganda in 1961 the magazine has kept apace of the rapid transformation of the African Diaspora and has remained a leading forum of intellectual debate Transition is edited by Alejandro de la Fuente December 2014 marked a year since the passing of Nelson Mandela a man who was as much myth as flesh and blood Transition pays tribute to Mandela's worldly attainments and to his otherworldly sainthood Featuring remembrances from Wole Soyinka Xolela

Mangcu Pierre de Vos and Adam Habib this issue assembles Mandela's staunchest allies for whom he approached saintliness as well as his most entrenched critics. Other contributors consider the iconicity of Mandela including his representations in films, the importance of boxing to his political career, his time studying with the revolutionary army in Algeria, his stance on children's rights and even his ill-fated trip to Miami. Whoever you think Mandela was or wasn't, this issue is the new required reading.

The Israeli-Palestinian Conflict Y. Bar-Siman-Tov, 2007-02-19 This book focuses on the September 2000 confrontation between Israelis and Palestinians, examining the characteristics of a confrontation that developed into a protracted low-intensity conflict. Topics addressed include the strategies adopted by both sides, the reasons for the failure of moderation and the phenomenon of unilateral disengagement.

Limited Statehood and Informal Governance in the Middle East and Africa Ruth Hanau Santini, Abel Polese, Rob Kevlihan, 2020-10-08 Hybrid forms of governance where the central state authority does not possess a monopoly of violence and fails to exercise control are not only an epiphenomena but a reality likely to persist. This book explores this phenomenon, drawing on examples from the Middle East and Africa. It considers the different sorts of actors: state and non-state, public and private, national and transnational, which possess power, examines the dynamics of the relationships between central authorities and other actors, and reviews the varying outcomes. The book provides an alternative view of the way in which governance has been constructed and lived, puts forward a conceptualisation of various forms of governance which have hitherto been regarded as exceptions, and argues for such forms of governance to be regarded as part of the norm.

Amnesty in Brazil Ann M. Schneider, 2021-10-05 In 1895, forty-seven rebel military officers contested the terms of a law that granted them amnesty but blocked their immediate return to the armed forces. During the century that followed, numerous other Brazilians who similarly faced repercussions for political opposition or outright rebellion subsequently made claims to forms of recompense through amnesty. By 2010, tens of thousands of Brazilians had sought reparations referred to as amnesty for repression suffered during the Cold War era dictatorship. This book examines the evolution of amnesty in Brazil and describes when and how it functioned as an institution synonymous with restitution. Ann M. Schneider is concerned with the politics of conciliation and reflects on this history of Brazil in the context of broader debates about transitional justice. She argues that the adjudication of entitlements granted in amnesty laws marked points of intersection between prevailing and profoundly conservative politics, with moments and trends that galvanized the demand for and the expansion of rights, showing that amnesty in Brazil has been both surprisingly democratizing and yet stubbornly undemocratic.
