like your business name is These tend to be more expressing of the products and services offered rather than of the personal qualities of the owner In the past in conventional advertising you would know the business name before you learned the owner s name However with so many people using social networks these days personal branding is becoming as equally important in business and company branding PROJECTING PASSION Whether you choose one the other or both to promote the idea is to project your passion to a bigger audience If your passion is connecting others to their soul mates then you might use a business or personal name with the word love in it That s your passion It s not as hard as it seems to think up a few choice brand names to try out What is hard is reserving them online when so many have already been snapped up by others
