Maran,2011-09-02 The pre dawn arrests of the last remaining mafiosi in December 2008 signalled the end of the Sicilian Mafia as we know it In Mafia Inside the Dark Heart A G D Maran charts the complete history of the world s most infamous criminal organisation from its first incarnation as an alternative form of local government in the Sicilian countryside and arguable force for good to the more familiar form that has been immortalised in films such as The Godfather and its final defeat after a long awaited change of attitude by the Italian government The author has used his many Italian contacts and a decade of exhaustive research to bring to life the story of the Sicilian Mafia while also exploring the links to the Cosa Nostra in America Along the way he asks many provocative questions including Why was Lucky Luciano the father of modern organised crime freed from a life sentence in America and deported to Italy allowing him to organise the international drug trade Was the Mafia involved in the death of Pope John Paul I Why did the Mafia murder Roberto Calvi known as God s Banker What is the relationship between the Mafia and Freemasonry Why did successive Italian governments fail to tackle the Mafia Why did it take 40 years to find the Last Godfathers These and many other riveting issues are covered in Maran s refreshing new take on a perennially enthralling subject Getting Lost Giulia Marroccoli,Tanja Schroot,2023-12-15 An international discussion on adequate education and new forms of learning was embedded in post 1989 socio political scenario which increasingly pronounced a knowledge based economy The idea of a time framed instruction restricted to initial life stages was outdated in a dynamic society that had changed continuously due to socio political economic and technological transformations The European Union reacted

accordingly and suggested to make learning a lifelong and lifewide process promoting geographical mobility for educational and professional motivations in order to stimulate economic growth and personal advancement on the social ladder However recent data shows that successful educational and professional integration and thus an adequate match of competences and occupational profiles is still unsatisfactory in numerous European contexts especially when speaking of qualified mobility This volume tackles the issue of professional inclusion of knowledgeable migrants under consideration of the paradigmatic life course framework and aims to contribute to international research on human capital valorisation It thus strives to investigate professional trajectories and corresponding skill utilisation of mobile workers in a highly heterogenous European labour market that constantly requires actions to combat unemployment the waste of skills the invisibility of hidden educational capital and the lack of needed qualifications of its potential workforce **The Eclectic Magazine** John Holmes
