That They Know Me C. H. Henry,2011-04-27 Charlene Henry had such an overwhelming spiritual hunger that she walked away from a successful career at the height of the economic slowdown just so that she could spend all of her time seeking a more intimate relationship with Jesus Over the course of the next two years Jesus rewarded her by frequently awakening her during the night to explain in dreams and visions backed with scriptural references the simplicity of the Gospel She dutifully copied these visions in book form and they are now being used around the world in Bible studies prison ministries and classes for new believers The scriptures flow effortlessly from one subject to the next and tie the whole New Testament together You will learn how you can develop a personal relationship with Jesus how you can distinguish God s voice from other voices how to understand ten basic spiritual principles and the six steps to praying more effectively You will also discover your own particular spiritual gift and how to develop it Prepare to have every area of your life radically transformed by this teaching C H Henry is also the author of another book that highlights snapshots of Jesus from Genesis to Revelation and one that extolls God s perfect love for you

God as Symbol John M. Shackleford,2004 Although this work is written from a Christian viewpoint it also presents the symbolic visions of the non believer The symbolic examination of God helps us to uncover what it means to be human and where we are heading as a species Symbols aid in conveying the abstract ideas that human languages are too limited to express In the broadest sense God symbolizes all the mysteries of existence Any thinking person must ask the question what is the ultimate significance of

this frail and vulnerable flesh that clothes the human ego God symbolizes these important mysteries and beckons us to approach him for answers

Spurgeon's Sermons Volume 19: 1873 Charles Haddon Spurgeon, Am I The One You Are Looking For? James L. Crawford,2021-03-16 It was in those days when year after year everything turned to mud One day in a depressed state of mind I gave up If there is a God would he help me Time passed by Months turned into one long day Nothing changed Then one day I called in sick stayed home and laid down I fell asleep and a vision appeared I was in a dark room sitting in a wooden chair facing a closed door Then a light shown under the door A fear came over me Someone was on the other side of that door The door opened slowly and a warm bright light flooded the room A man dressed in a white robe stepped forward stood in the doorway and asked me Am I the One You Are Looking For I fell to my knees and crying I said Yes The last thing I saw was a small little boy holding hands with this man as they walked up the dirt path That was me and He was the Christ the Son of the Living God In that moment I decided to leave what the world calls society and entered into a world of spirituality that only those who enter it can understand I pray you the reader may someday walk the one and only path that leads you into the world of spirituality and leads you out of the darkness of today s society and addictions God bless you and may the Lord have mercy on you James L Crawford Author **Laws of Nature, Laws of God?** Louise Hickman,Neil Spurway,2015-09-18 Up until the time of Newton scientists regarded the understandings of the physical world at which they were arriving as glimpses of the working of the Creator s mind Thus the generalisations being formulated about the behaviour of matter the Laws of Nature were seen as the Creator s injunctions to created matter as to how it was to act They were laws in the same sense as laws Divine or human about how people should behave that is why the same word was used for both And even now scientific laws are occasionally spoken of as being obeyed However it is doubtful whether any practising scientist religious believer or not now thinks of laws in the way that the word literally implies How instead scientists do or should view scientific laws has been debated since the time of Hume and Kant and it is a vigorous field of investigation among current philosophers of science In this book scientists physical and biological historians and students of ideas all of them theologically informed tackle this topic from many angles They do so in relation to the lead public lecture at the conference from which the book stems given by the eminent and iconoclastic philosopher of science Professor Nancy Cartwright She asked the question How could laws make things happen and her answer was They couldn t **Knowing Our Triune God** Richard W. Gilbert,2023-08-16 God made and placed man on the earth so that man would not only have a

cognitive head knowledge of Him but also a heart relationship with him He wanted man to know him objectively and intimately and has given mankind everything needed for that to be a reality God wants us to not only know that he loves us but he wants us to love him back The more that we know about him the more we will love him An essential part of that knowledge of God is that He is the Triune God the Trinity How well do we understand this truth How do the three persons of the Godhead interrelate to one another What does each do in our lives that only He can do In this deductive study of God Father Son and Holy Spirit we look first at those truths that belong corporately to each Person of the Godhead Then we individually look at those characteristics qualities attributes and works that are specific to each one Throughout we will progressively see who this One is who is our Father our Savior our Comforter and the depth of the relationship we are to have with Him Subject Catalog, 1982 Library of Congress,1982 *Outlook* Alfred Emanuel Smith,Francis Walton,1875
