Getting It Chicks In Charge:

Women in Charge Andrea Martin, 2021-11-26 Every man loves a woman who knows what she wants and where she can get it This collection of sensational stories features wild wives and horny girls taking control seizing the moment and loving every wicked second of the experience This collection contains explicit scenes of erotica and is not suitable for minors

Women in Charge (Routledge Revivals) Robert Goffee, Richard Scase, 2015-06-11 Why do women start their own businesses Is it solely because they are searching for financial success or for other reasons On the basis of detailed interviews with a number of women who have started their own businesses this book first published in 1985 reveals the significance of factors that are directly related to women's experiences at home at work and in the wider society The author's analysis shows how business start up enables many women but not all to achieve forms of economic and social independence that they would not otherwise enjoy Further they illustrate ways in which business proprietorship has a wide variety of effects upon individuals and upon their personal relationships and life styles They refute the notion of a single entrepreneurial experience and argue that the causes and consequences of business start up are highly conditioned by the extent to which women are committed to traditionally prescribed roles and to profitability The findings of this book will have important implications for the formulation of small business policies It will also be of particular value to those interested in women's studies and small business management

Women in Charge Marisa Silvestri, 2013-05-13 This book is concerned with the gendered world of police leadership at a time when calls are being made for a different kind of police leader to guide the organisation through the twenty first century Drawing on in depth interviews carried out with senior policewomen across a range of police forces in England and Wales *Women in Charge* is the first book to provide a detailed study of women in police leadership The work challenges existing conceptualisations and theorisations of police culture for the study of police leaders demonstrating the various ways in which police cultures are shaped by both rank and gender Women in police leadership face a different kind of gendered environment than their non managerial counterparts one in which a smart macho culture of police management dominates At the same time this book investigates the extent to which senior policewomen are involved in developing new styles and conceptualisations of leadership It argues that women are involved in promoting a different kind of police leadership using more consultative and holistic styles styles not traditionally associated with the police organisation
