Lumb, Ged Williams, 2009-11-21 The World Federation of Societies of Intensive and Critical Care Medicine WFSIC CM has reached the age of maturity Physicians nurses and many others associated with the field of Intensive and Critical Care Medicine will be coming from all corners of the world to Florence Italy in August 2009 to celebrate the 10th quadrennial congress Every 4 years for the last 36 years congresses in the magnificent venues of London 1973 Paris 1977 Washington 1981 Jerusalem 1985 Kyoto 1989 Madrid 1993 Ottawa 1997 Sydney 2001 and Buenos Aires 2005 have signified an ever developing process which has resulted in the four pillars of the field of Intensive and Critical Care Medicine namely partnership ethics professionalism and competence The first pillar is based on a stronger interdisciplinary collaboration and a multi professional partnership in the field of Intensive and Critical Care Medicine In recent decades professional activity in medicine has been regulated by well defined universal principles such as the welfare of the patient autonomy social justice and the patient physician relationship The second pillar ethics has offered welcomed assistance to all these principles in establishing an ethics curriculum **Palliative Care** Elaine Stevens, Janette Edwards, 2008-09-15 Editors Preface Introduction 1 Introduction to palliative care 2 Essential concepts 3 Generic assessment in palliative care 4 Anxiety and depression 5 Breathlessness 6 Fatigue 7 Pain 8 Quality improvement Glossary Abbreviations **The Clinician's Guide to Surviving IT** Alan Gillies, 2006 The NHS is currently in the middle of the biggest information technology project in Western Europe which will fundamentally change the working practices of all NHS staff over the next five years This book explains to ordinary clinicians why they should be bothered with IT and what their responsibilities are in making it work This book provides an enlightening and reassuring read that dispels ignorance and suspicion The user friendly style is helpful and friendly panels with tips warnings reflective pauses and key points highlight important details It is also suitable for use as a student textbook *The Clinician's Guide to Surviving IT* is a must for every doctor nurse and midwife in the NHS *Report of the Mid Staffordshire NHS Foundation Trust Public Inquiry* Mid Staffordshire NHS Foundation Trust Public Inquiry, Robert Francis, 2013-02-06 This public inquiry report into serious failings in healthcare that took place at the Mid Staffordshire NHS Foundation Trust builds on the first independent report published in February 2010 ISBN 9780102964394 It further examines the suffering of patients caused by failures by the Trust there was a failure to listen to its patients and staff or ensure correction of deficiencies There was also a failure to tackle the

insidious negative culture involving poor standards and a disengagement from managerial and leadership responsibilities. These failures are in part a consequence of allowing a focus on reaching national access targets, achieving financial balance and seeking foundation trust status at the cost of delivering acceptable care standards. Further, the checks and balances that operate within the NHS system should have prevented the serious systemic failure that developed at Mid Staffs. The system failed in its primary duty to protect patients and maintain confidence in the healthcare system. This report identifies numerous warning signs that could and should have alerted the system to problems developing at the Trust. It also sets out 290 recommendations grouped around i) putting the patient first, ii) developing a set of fundamental standards easily understood and accepted by patients, iii) providing professionally endorsed and evidence based means of compliance of standards that are understood and adopted by staff, iv) ensuring openness, transparency and candour throughout system, v) policing of these standards by the healthcare regulator, vi) making all those who provide care for patients properly accountable, vii) enhancing recruitment, education, training and support of all key contributors to the provision of healthcare, viii) developing and sharing ever improving means of measuring and understanding the performance of individual professionals, teams, units and provider organisations for the patients, the public and other stakeholders. **Clinical**

Governance in Health Care Practice Thoreya Swage, 2000. Outlines the principles underlying clinical governance and gives practical examples of clinical governance in action. Leadership and the Elder Care Home Sector Nadeem Moiden, 2003. This study was undertaken to explore whether current leadership in the elder care home sector promotes a balance between personal and work life of healthcare staff. A case study approach was used to carry out the study using structured interviews, semi structured interview and participant observation as major data collection methods. The sample a combination of enrolled nurses, experienced and inexperienced carers were representative of the employees in care homes studied. This consisted of 18 subjects, 10 from a private care home and 8 from a charity care home. The structured interviews consisted of all 18 participants and the semi structured interviews consisted of 6 participants from the 18, 2 carers and 1 nurse from each setting. For participant observation, both homes were observed for 8 days from the three months spent in each. During interviews, data were collected on the leaders' style, leaders' role, staff home life and work life and leaders' support. During participant observation, the work environment, climate, leader and staff interaction were observed and key points were recorded. The data were analysed using the Ethnograph v4.0, a program for the analysis of text based data. For the research purpose, a codebook of 99 codes that would identify different aspects of the data in the interviews and participant observation was created. Content and thematic approach were taken towards analysis using the computer software. The result from this study showed that 1) staff are seen to prefer their leader to be democratic as there is room for negotiation, participation, consideration and understanding, 2) the staff's perception of the leader is an individualistic as well as every aspect of their needs being met due to variables such as age, gender, marital status, experience, dependants, education, position and language.

3 the level of effect of leadership style on the individual is dependent on individual circumstances 4 the extent to which the staff's personal and work life balance are not promoted depends in the different combination of leadership style of the leader as leader is not autocratic democratic or laissez faire at all times 5 the more democratic the leaders are the more understanding and flexible they are in promoting a balance between personal and work life of their followers 6 staff with different personal circumstances and background view their leaders differently 7 none of the staff want their leader to be liberal 8 staff psychosocial needs are not with leadership high in autocratic approach These findings have implications for nurse training and education and leadership development Trained appropriately and applying the results and recommendations from this study the leaders will assist towards staff retention increase productivity and increase the quality of care in the elder care home sector and promote a healthy and cost effective workforce

Getting Health Economics into Practice David Kernick, 2018-08-11 Fifty years ago medicine was straightforward Doctors had limited therapeutic options and patients did as they were told Today an array of medical interventions is putting increasing pressure on limited resources patients are questioning everything and doctors are uncertain of their role Health economists hoped to offer important insights to aid decision making but their technical frameworks bore little resemblance to the practical requirements of end users Now this book presents the concepts and insights that health economics has to offer in a way that is accessible to every healthcare decision maker Getting Health Economics into Practice is for all those who are involved in the planning commissioning and delivery of healthcare It illuminates the practical value that the concepts and principles of health economics can offer decision makers at all levels Comprehensive and extensive it is the first such book to be edited by a clinician rather than a health economist with contributions from an expert panel of specialists This approach ensures it is accessible and useful in the everyday work of health professionals It is relevant for all healthcare sectors in particular for Primary Care Trusts and is essential reading for managers researchers and especially practitioners

Spotlight On General Practice Sally Irvine, Hilary Haman, 2018-04-19 What are the dynamics that shape a primary care team How can difficult issues be tackled when aiming towards the government's strategies This book shows how good governance and quality management in general practice can be achieved It addresses difficult issues such as power leadership interpersonal behavior confrontation accountability and handling conflict and looks at the dynamics of both groups and individuals and investigates ways of dealing with them It provides practical solutions questions to help the reader analyze problems and test their performance case studies and real examples drawn from the authors many years experience in diagnostic management consultancy It is essential reading for all members of the new primary care organizations especially GPs practice managers and nurses

Clinical Director of Pathology Mike Galloway, 2018-04-19 These practical books written by members of the British Association of Medical Managers BAMM help clinical directors tackle their role as medical managers They provide information and guidance to enable their readers to benefit from the sharing of learning good ideas and best practice
