Social Perspectives in Lesbian and Gay Studies Peter M. Nardi, Beth E. Schneider, 2013-09-13 This comprehensive reader brings a social science perspective to an area hitherto dominated by the humanities Through it students will be able to follow the story of how sociology has come to engage with gay and lesbian issues from the 1950s to the present from the earliest research on the underground worlds of gay men to the emergence of queer theory in the 1990s Bringing together classic readings and the best work of younger scholars from all parts of the English speaking world this reader will be an invaluable resource for courses at undergraduate and graduate level in all areas of the sociology of sexuality and gender Separate sections cover theoretical foundations identity and community making institutions and social change challenges for the future Each section begins with an introduction giving readers a brief guide to the readings in that section contextualises them and relates them to one another and the book ends with an afterword by Ken Plummer summing up the present state of play and looking forward to the future

Gay and Lesbian Identity Richard R. Troidon, 1988 In the past twelve years research into homosexuality has undergone a major shift in emphasis A concern with documenting the etiology treatment and psychological adjustment of homosexuals has been replaced by an interest in understanding how people develop homosexual identities that is organized perceptions of themselves as homosexuals in relation to sexual and romantic settings People are not born with perceptions of themselves as homosexual bisexual or heterosexual Sexual identities evolve slowly over a long period of time This book develops an ideal typical model of homosexual identity formation that represents a synthesis of and elaboration on previous theorizing and research on the subject The model draws heavily upon accounts provided by homosexuals themselves The model developed is unique in four major ways it is grounded in current research and theory it describes identity formation in both lesbians and gay males it notes similarities as well as differences between the sexes in homosexual identity development and it explains differences between gay males and lesbians in terms of their experiences with gender role socialization This is the first book to differentiate analytically the constructs of self self concept identity and homosexual identity within a unified theoretical framework With one major exception these conceptual distinctions have not been drawn in previous discussions of homosexual identity and this lack has contributed to conceptual disarray The theoretical approach adopted here is symbolic interactionism a social psychological perspective within the discipline of sociology There is a sharp disagreement among theorists about the nature and meaning of homosexual identities Do homosexuals identities represent a confusion of being with doing the mistaken belief that one is what one does the equation of the entire self with one type of behavior Do homosexual identities represent one of several major interests that are constructed socially and d Identity and
