Identity and Nationalism in Modern Argentina Jeane DeLaney,2020-07-25 Nationalism has played a uniquely powerful role in Argentine history in large part due to the rise and enduring strength of two variants of anti liberal nationalist thought one left wing and identifying with the people and the other right wing and identifying with Argentina s Catholic heritage Although embracing very different political programs the leaders of these two forms of

nationalism shared the belief that the country's nineteenth century liberal elites had betrayed the country by seeking to impose an alien ideology at odds with the supposedly true nature of the Argentine people. The result in their view was an ongoing conflict between the false Argentina of the liberals and the authentic nation of true Argentines. Yet despite their commonalities, scholarship has yet to pay significant attention to the interconnections between these two variants of Argentine nationalism. Jeane DeLaney rectifies this oversight with *Identity and Nationalism in Modern Argentina*. In this book, DeLaney explores the origins and development of Argentina's two forms of nationalism by linking nationalist thought to ongoing debates over Argentine identity. Part I considers the period before 1930, examining the emergence and spread of new essentialist ideas of national identity during the age of mass immigration. Part II analyzes the rise of nationalist movements after 1930 by focusing on individuals who self-identified as nationalists. DeLaney connects the rise of Argentina's anti-liberal nationalist movements to the shock of early twentieth century immigration. She examines how pressures posed by the newcomers led to the weakening of the traditional ideal of Argentina as a civic community and the rise of new ethno-cultural understandings of national identity. *Identity and Nationalism in Modern Argentina* demonstrates that national identities are neither unitary nor immutable and that the ways in which citizens imagine their nation have crucial implications for how they perceive immigrants and whether they believe domestic minorities to be full-fledged members of the national community. Given the recent surge of anti-immigrant sentiment in Europe and the United States, this study will be of interest to scholars of nationalism, political science, Latin American political thought, and the contemporary history of Argentina.

Hybrid Identity and the Utopian Impulse in the Postmodern Spanish-American Comic Novel Paul R. McAleer, 2015. The author examines the role of comedy in the novels of four key postmodern Spanish American writers: Gustavo Sainz, Alfredo Bryce Echenique, Jaime Bayly, and Fernando Vallejo. An important but often overlooked function of comedy is its intrinsic relation to questions of identity. This relationship furthermore is connected to another traditional feature of comedy: the utopian impulse. This book analyses these functions of comedy in the novels of four key postmodern Spanish American writers: Gustavo Sainz, Alfredo Bryce Echenique, Fernando Vallejo, and Jaime Bayly. Focusing on the correlation between changing concepts of identity and the hybrid cultural context of the late 20th century, it examines the issues of individual and social identities expressed by these authors in their inscription and distortion of the comic genre as well as in their usage of different modes of comedy. It views the novels' comic aspects as symptoms of hybridity, which, according to many theorists, have brought about the dissolution of concepts such as the self and society and utopian modernity. These symptoms are studied in tandem with the individual themes of the novels, such as gender, sexuality, class, and global migration, as well as the post-national question of Peruvian, Colombian, and Mexican identity. Paul McAleer is Lecturer in Hispanic Studies at the University of Hull.
