Identity And Discursive Practices Spain And Latin Americas:

Identity and Discursive Practices Francisco Domínguez, 2000 *Identity and Discursive Practices Spain and Latin America* focuses on contemporary mutual influences between Spain and Latin America. It examines discursive practices on both sides of the Atlantic specifically in the fields of political economy, identity, literature, and gender. Although the Spanish influence is not obvious in all twelve contributions, it is an important component of the substratum from which Latin American culture and identity have both developed over the last five centuries and given rise to a variety of identities and discursive practices. With contributions by academics from Spain, Chile, Brazil, Guatemala, and Britain, the book brings together scholarly expertise to examine issues such as masculinity, homosexuality, politics, culture, women's identity, nationalism, poetry, and the current economic influence of Spain in Latin America. Scholars and students of both Latin America and Spain will greatly benefit from *Identity and Discursive Practices*.

Mercosur Francisco Domínguez, 2004 This collection of essays aims to contribute to our understanding of the process of regional integration currently underway in South America. Mercosur is a regional manifestation of a world-wide process of globalisation whose driving force is economic but which is potentially much more than that. It involves a variety of political, social, and cultural processes, some of them barely at an embryonic stage though each advancing at its own rate of progress. Mercosur's neo-liberal matrix, however, has led to the economic decision-making process being taken outside the realm of politics, thus leaving large sections of the population with no mechanism to influence the integration process so that it addresses their urgent needs and demands.

Orientalism and Identity in Latin America Erik Camayd-Freixas, 2013-03-14 Building on the pioneering work of Edward Said in fresh and useful ways, contributors to this volume consider both historical contacts and literary influences in the formation of Latin American constructs of the Orient and the Self from colonial times to the present. In the process, they unveil wide-ranging manifestations of Orientalism. Contributors scrutinize the other great encounter, not with Europeans but with Arabic, Chinese, and Japanese cultures, as they marked Latin American societies from Mexico, Central America, and the Caribbean to Peru, Argentina, and Brazil. The perspectives, experiences, and theories presented in these examples offer a comprehensive framework for understanding wide-ranging manifestations of Orientalism in Latin America and elsewhere in the developing world. *Orientalism and Identity in Latin America* expands current theoretical frameworks, juxtaposing historical, biographical, and literary depictions of Middle Eastern and Asian migrations, both of people and cultural elements, as they have been received, perceived, refashioned, and integrated into Latin American discourses of identity and difference. Underlying this intercultural dialogue is the hypothesis that the discourse of Orientalism and the process of Orientalization apply equally to Near Eastern and Far Eastern subjects as well as to immigrants regardless of provenance and indeed to any individual or group who might be construed as Other by a particular dominant culture.

Diasporic Generations Mette Louise Berg, 2011-10-01 Interpretations of the background to the Cuban diaspora, a political revolution, and the subsequent radical

transformation of the society and economy towards socialism are politicised and highly contested The Miami based Cuban diaspora has had extraordinary success in putting its case high on the US political agenda and in capturing world media attention but in the process the multiplicity of experiences within the diaspora has been overshadowed This book gives voice to diasporic Cubans living in Spain the former colonial ruler of Cuba By focusing on their lived experiences of displacement the book brings to light imaginative narrative re creations of the nation from afar Drawing on extensive ethnographic fieldwork the book argues that the Cuban diaspora in Spain consists of three diasporic generations generated through distinct migratory experiences This constitutes an important step forward in understanding the dynamics of memory making and social differentiation within diasporas and in appreciating why people within the same diaspora engage in different modes of transnational practices and homeland relations

Cervantes, the Golden Age, and the Battle for Cultural Identity in 20th-Century Spain Ana María G. Laguna, 2021-07-29 Studies that connect the Spanish 17th and 20th centuries usually do so through a conservative lens assuming that the blunt imperialism of the early modern age endlessly glorified by Franco s dictatorship was a constant in the Spanish imaginary This book by contrast recuperates the thriving humanistic vision of the Golden Age celebrated by Spanish progressive thinkers writers and artists in the decades prior to 1939 and the Francoist Regime The hybrid modern stance of the country in the 1920s and early 1930s would uniquely incorporate the literary and political legacies of the Spanish Renaissance into the ambitious design of a forward democratic future In exploring the complex understanding of the multifaceted event that is modernity the life story and literary opus of Miguel de Cervantes 1547 1616 acquires a new significance given the weight of the author in the poetic and political endeavors of those Spanish left wing reformists who believed they could shape a new Spanish society By recovering their progressive dream buried for almost a century of incipient and full Spanish modernities Ana Mar a G Laguna establishes a more balanced understanding of both the modern and early modern periods and casts doubt on the idea of a persistent conservatism in Golden Age literature and studies This book ultimately serves as a vigorous defense of the canonical as well as the neglected critical traditions that promoted Cervantes s humanism in the 20th century *Wall to Wall: Law as Culture in Latin America and Spain* Cristina Pérez-Arranz, Carlos Varón González, David Yagüe González, Ana Yáñez Rodríguez, 2021-06-08 Wall to Wall Law as Culture in Latin America and Spain comprises interventions from a wide array of scholars based in the US Spain and Latin America exploring the encounter of Hispanophone cultures and the law Its contributors delineate a fraught relationship of complicity negotiation and outright confrontation covering five centuries and a truly global landscape from Inquisitorial processes at the onset of the Spanish Empire to last ditch plans to preserve it in the 19th century Philippines to the challenges to contemporary articulations of the nation state in Catalonia Beyond single specialized time period and national cultures Wall to Wall embraces and showcases the heterogeneity of the field covering both well known territory Argentina Mexico Spain and often neglected cultures Venezuela Philippines and indigenous communities in the Yucatan area as well as problems that cannot be narrowed down to the nation state exile independence
