Ideology Of Conduct

Carolyn Mackelcan Morell

Ideology Of Conduct:

The Ideology of Conduct (Routledge Revivals) Nancy Armstrong, Leonard Tennenhouse, 2014-06-17 In *The Ideology of Conduct* first published in 1987 scholars from various fields from the medieval period to the present day discuss literature in which the sole purpose is to instruct women in how to make themselves desirable This collection investigates how middle class writers who had long emulated the behaviour of the aristocracy began to criticise that behaviour by formulating an alternative object of desire They did so without appearing to breed political controversy because it seemed to concern only the female But writing for and about women in fact became a powerful instrument of hegemony as it introduced a whole new vocabulary for social relations induced certain forms of economic behaviour as desirable in men and women respectively and insured the reproduction of the nuclear family It is argued therefore that the literature of conduct not only recorded but also assisted the production of our contemporary gender based culture

Desire and Domestic Fiction Nancy Armstrong, 1990-02-22 *Desire and Domestic Fiction* argues that far from being removed from historical events novels by writers from Richardson to Woolf were themselves agents of the rise of the middle class Drawing on texts that range from 18th century female conduct books and contract theory to modern psychoanalytic case histories and theories of reading Armstrong shows that the emergence of a particular form of female subjectivity capable of reigning over the household paved the way for the establishment of institutions which today are accepted centers of political power Neither passive subjects nor embattled rebels the middle class women who were authors and subjects of the major tradition of British fiction were among the forgers of a new form of power that worked in and through their writing to replace prevailing notions of identity with a gender determined subjectivity Examining the works of such novelists as Samuel Richardson Jane Austen and the Brontës she reveals the ways in which these authors rewrite the domestic practices and sexual relations of the past to create the historical context through which modern institutional power would seem not only natural but also humane and therefore to be desired

Conduct Literature for Women, Part I, 1540-1640 vol 1 William St Clair, Irmgard Maassen, 2024-10-28 This collection aims to give a chronological insight into the evolution of conduct literature from its early roots in the Renaissance period through to the dramatically different role that women played at the emergence of the 20th century

The Royal God Allan Rosengren Petersen, 1998-01-01 Critically tests Mowinckel's hypothesis about the enthronement festival of Yahweh and asks whether this theory finds any support in the epic literature of Ugarit Petersen tests Sigmund Mowinckel's classical hypothesis about the enthronement festival of Yahweh and especially whether this theory as urged by the followers of Mowinckel finds any support in the epic literature of Ugarit A careful study of the two corpora of texts the Old Testament Psalms and the Ugaritic Baal cycle together with a discussion of the methodology of the cultic interpretation shows the weaknesses of the hypothesis In the history of scholarship the idea of an enthronement festival of Marduk has been arbitrarily transferred from Babylon to Jerusalem and hence to Ugarit with little basis in the relevant texts In fact the method

of cultic interpretation is to be rejected since its circularity of argumentation determines the result of the analysis beforehand **Conduct Literature for Women, Part II, 1640-1710 vol 1** William St Clair,Irmgard Maassen,2024-10-28

This collection aims to give a chronological insight into the evolution of conduct literature from its early roots in the Renaissance period through to the dramatically different role that women played at the emergence of the 20th century

Medieval Conduct Kathleen M. Ashley,Robert L. A. Clark,2001 Focusing on a broad range of texts from England France Germany and Italy conduct and courtesy books advice poems devotional literature trial records the contributors to Medieval Conduct draw attention to the diverse ways in which readers of this literature could interpret such behavioral guides appropriating them to their own ends Medieval Conduct expands the concept of conduct to include historicized practices and theorizes the connection between texts and their concrete social uses what emerges is a nuanced interpretation of the role of gender and class inscribed in such texts By bringing to light these subtleties and complexities the authors also reveal the ways in which the assumptions of literary history have shaped our reception of such texts in the past two centuries *The Shadowlands of Conduct* Beth A. Rosenson,2005-03-29 Although the linking of ethics and politics may seem more like the ingredients for a comedian s monologue it is a sober issue and one that affects every American especially when it comes to state politics where the cynical might say ethics can never survive To find examples of the latest corruption du jour all one has to do is turn to the newspaper or switch on the local newscast think Illinois and New Jersey Scandals have been ubiquitous since the beginning of the Republic but it wasn t until 1954 that ethical self regulation began to move legislatively beyond bribery statutes to address deeper issues those which in New York Governor Thomas Dewey s words skulked in the shadowlands of conduct Rosenson begins her exploration with that moment when New York became the first state to enact a general ethics law setting standards and guidelines for behavior Unforgiving and illuminating she examines the many laws that have been enacted since and the reasons that many of these law came into being It is crucial to the functioning of a democratic government to understand how and why ethics laws vary across legislatures and it is surprising to discover that many states have become far more stringent than the U S Congress in laws and regulations Using both qualitative historical sources and rigorous statistical analysis Rosenson examines when and why from 1954 to the present legislators have enacted ethics laws that seem to threaten their own well being Among the economic political and institutional factors considered that have helped or hindered the passage of these laws the most consistent was pure scandal abetted by the media To have good government one must be able to trust it and this book can help all citizens understand and find their way out of the shadowlands into the light *Conduct Books for Girls in Enlightenment France* Nadine Berenguier,2016-05-23 During the eighteenth century at a time when secular and religious authors in France were questioning women s efforts to read a new literary genre emerged conduct books written specifically for girls and unmarried young women In this carefully researched and thoughtfully argued book Professor Nadine B renguier shares an in depth analysis of this development relating the

objectives and ideals of these books to the contemporaneous Enlightenment concerns about improving education in order to reform society Works by Anne Th r se de Lambert Madeleine de Puisieux Jeanne Marie Leprince de Beaumont Louise d Epinay Barth l my Graillard de Graville Chevalier de Cerfvol abb Joseph Reyre Pierre Louis Roederer and Marie Antoinette Lenoir take up a wide variety of topics and vary dramatically in tone But they all share similar objectives acquainting their young female readers with the moral and social rules of the world and ensuring their success at the next stage of their lives While the authors regarded their texts as furthering the common good they were also aware that they were likely to be controversial among those responsible for girls education B renguier s sensitive readings highlight these tensions as she offers readers a rare view of how conduct books were conceived consumed re edited memorialized and sometimes forgotten In the broadest sense her study contributes to our understanding of how print culture in eighteenth century France gave shape to a specific social subset of new readers modern girls The Conduct of Soviet Foreign Policy Erik Peter Hoffmann, Frederic J. Fleron, Articles by Brzezinski Pipes Schulman Gati and two new chapters written by Hoffmann and Laird bring new information to this edition on geo politics SALT China and the scientific technological revolution s effects in the Soviet Union The last three sections of the book include updated selections such as a Retrospect and Prospect on the use abuse of Soviet power **Unwomanly Conduct** Carolyn Mackelcan Morell, 2014-01-09 Provocative study of women who chose to be childless based on extensive interviews with women aged between 40 and 78 A significant contribution to debates about choice the private and the public gender and diversity *The Legitimization Strategy of the Taliban's Code of Conduct* Yoshinobu Nagamine, 2016-04-29 What norms and principles guide the Afghan Taliban in their conduct of hostilities The author focuses on the Layeha a Code of Conduct issued by the highest Taliban authority Interviews with Taliban members were conducted to understand their perception of the Layeha which is modeled as a one way mirror

Significance of the Institute of Inter-American Affairs in the Conduct of U.S. Foreign Policy Louis Joseph Halle, 1948 **Challenging Discriminatory Practices of Religious Socialization among Adolescents** Kiran Vinod Bhatia, Manisha Pathak-Shelat, 2019-10-12 This book examines how religion operates as an institution of governance and discipline in society The authors unravel the ways in which adolescents are socialized into adhering to the dictates of their religious identities which often translates into practices of micro aggression enacted in and through their interaction with the religious other in schools and classrooms Through ethnographic immersion in villages in the Gujarat the authors identify media as a powerful source through which the dominant ideology of religious discrimination is perpetuated among adolescents Subsequently a critical media education framework was developed in order to equip these young people with the critical skills needed to challenge power relations with the goal being to identify resources for resistance within themselves and their immediate media environments Using pedagogic techniques such as spatial and cultural mapping content creation and applied theatre practices to create a reflective yet practical guide the findings of this book can be applied to a wide

range of socio cultural contexts **Unheroic Conduct** Daniel Boyarin,1997-06-13 The Western notion of the aggressive sexually dominant male and the passive female as Daniel Boyarin makes clear is not universal Analyzing ancient and modern texts he recovers the studious and gentle rabbi as the male ideal and the prime object of the female desire in traditional Jewish society Challenging those who view the feminized Jew as a pathological product of the Diaspora or a figment of anti Semitic imagination Boyarin finds the origins of the rabbinic model of masculinity in the Talmud The book provides an unrelenting critique of the oppression of women in rabbinic society while also arguing that later European bourgeois society disempowered women even further Boyarin also analyzes the self transformation of three iconic Viennese modern Jews Sigmund Freud Theodor Herzl and Bertha Pappenheim Anna O Pappenheim is Boyarin s hero it is she who provides him with a model for a militant feminist anti homophobic transformation of Orthodox Jewish society today **Genre** ,1993

Military Thought ,1997 **Central Problems in Social Theory** Anthony Giddens,1979-11-29 One of the most creative among the younger generation of critical social theorists Giddens stands alone in his concern for the classical tradition on sociology but he also makes brilliant use of the latest philosophical and theoretical work of several contemporary schools and disciplines A very important book for all of social science Jeffrey C Alexander *Renaissance Woman: A Sourcebook* Kate Aughterson,2003-09-02 An invaluable collection of primary sources on women and femininity in early modern England including medical documents political pamphlets sermons and literary sources Sources are accompanied by a clear introduction and notes *Prospects of Soviet Power in the 1980s* Christoph Bertram,1980-06-18 **The New Wind** Kenneth David,2011-06-03 No detailed description available for The New Wind
