Idol And Distance Five Studies:

The Idol and Distance Jean-Luc Marion, 2018 Marked sharply by its time and place Paris in the 1970s this early theological text by Jean Luc Marion nevertheless maintains a strikingly deep resonance with his most recent groundbreaking and ever more widely discussed phenomenology And while Marion will want to insist on a clear distinction between the theological and phenomenological projects to read each in light of the other can prove illuminating for both the theological and the philosophical reader and perhaps above all for the reader who wants to read in both directions at once the reader concerned with those points of interplay and undecidability where theology and philosophy inform provoke and challenge one another in endlessly complex ways

The Idol and Distance Jean-Luc Marion, 2001 Marked sharply by its time and place Paris in the 1970s this early theological text by Jean Luc Marion nevertheless maintains a strikingly deep resonance with his most recent groundbreaking and ever more widely discussed phenomenology And while Marion will want to insist on a clear distinction between the theological and phenomenological projects to read each in light of the other can prove illuminating for both the theological and the philosophical reader and perhaps above all for the reader who wants to read in both directions at once the reader concerned with those points of interplay and undecidability where theology and philosophy inform provoke and challenge one another in endlessly complex ways In both his theological and his phenomenological projects Marion s central effort to free the absolute or unconditional be it theology s God or phenomenology s phenomenon from the various limits and preconditions of human thought and language will imply a thoroughgoing critique of all metaphysics and above all of the modern metaphysics centered on the active spontaneous subject who occupies modern philosophy from Descartes through Hegel and Nietzsche

Navigating Postmodern Theology Michael J.

McGravey, 2023-07-03 Theology in the postmodern era has encountered various cultural and narrative shifts which have helped shape the Roman Catholic Church and Christianity at large Negatively the Church has been affected by external factors e g globalization immigration emigration increased access to technology etc and internal struggles e g reduced church attendance an aging population etc Positively postmodernity has ushered in a return to religion through new philosophical and theological ideas e g phenomenology existentialism post metaphysics etc This book aims to contribute to the ongoing postmodern concerns addressed in the cultural and narrative shifts by focusing on the work of Jean Luc Marion and Gianni Vattimo The emphasis of this project focuses on the use of metaphysics as the foundational tool of theology and its corresponding limitations while also addressing the Christian virtue of caritas Addressing this attribute of Christianity this project observes the possibility of a return to religion one that reflects the postmodern exploration of religion by the several philosophers addressed herein While Michael J McGravey avoids offering a reconstruction of theology or more specifically ecclesiology he aims to re establish the importance of philosophy metaphysics and caritas in the postmodern context

The
Mysticism of Ordinary Life Andrew Prevot, 2023 The Mysticism of Ordinary Life presents a new vision of Christian mystical

theology offering critical interpretations of the theologians philosophers and intersectional feminists who draw on mystical traditions to affirm ordinary life arguing that everyday experiences of divine grace can be an empowering source of social transformation

Nietzsche on Women and the Eternal-Feminine Michael J. McNeal, 2023-07-27 By re examining Nietzsche's notion of the eternal feminine and his views on women and feminism this volume offers new perspectives on some of his key ideas It brings together a diverse group of scholars to critically engage with Nietzsche's use of late 19th century gender stereotypes and the ways in which they served his critique of values including his use of woman as a trope for truth Among other subjects the contributors consider the role of psychology in Nietzsche's thought his concern with style self creation and advocacy of perfectionism his views on romantic love and marriage and his aim of revaluing all values to instigate a distant philosophy of the future They investigate parallels between Nietzsche's thought and Shaktism his relation to Goethe and Stendahl and his influence on Beauvoir Butler and Dohm With the inclusion of two seminal essays on Nietzsche and women by Lawrence J Hatab and Kelly Oliver the volume also illustrates some of the ways in which scholarship on these subjects has evolved over the last four decades Providing fresh insights into these inter related subjects *Nietzsche on Women and the Eternal Feminine* highlights the enduring relevance of his thought and its still underappreciated potential for re thinking both the bases for and aims of feminism and other emancipatory movements

The Play of Goodness Jacob Benjamins, 2024-10-15 One of the enduring claims in the Christian tradition is that creation is good Given the diversity of experience and the abundance of suffering in the world however such an affirmation is not always straightforward *The Play of Goodness* provides a phenomenology of creation's goodness that clarifies the ongoing relevance of the doctrine today It argues that what is good about creation is not synonymous with a confession of faith and does not require an overly optimistic disposition but instead appears within diverse and often surprising circumstances Alongside original contributions to French phenomenology and creation theology *The Play of Goodness* counterbalances a tendency in continental philosophy to focus on negative phenomena By developing the philosophical concept of a prelinguistic experience of goodness the book identifies a quality of goodness that is integral to the place in which we find ourselves It also articulates shared points of contact among people in an increasingly polarized world while demonstrating that distinctly theological concepts do not need to be presented in opposition to secular agnostic or atheist perspectives in order to be relevant Benjamins develops an account of creation's goodness that has the potential to animate an abiding affection for one's place accentuate our reasons to care for it and confirm that what happens in our lives is of genuine significance

Maximus the Confessor Paul M. Blowers, 2016 This study contextualizes the achievement of a strategically crucial figure in Byzantium's turbulent seventh century the monk and theologian Maximus the Confessor 580-662 Building on newer biographical research and a growing international body of scholarship as well as on fresh examination of his diverse literary corpus Paul Blowers develops a profile integrating the two principal initiatives of Maximus's career first his reinterpretation of the christocentric

economy of creation and salvation as a framework for expounding the spiritual and ascetical life of monastic and non monastic Christians and second his intensifying public involvement in the last phase of the ancient christological debates the monothelete controversy wherein Maximus helped lead an East West coalition against Byzantine imperial attempts doctrinally to limit Jesus Christ to a single divine activity and will devoid of properly human volition Blowers identifies what he terms Maximus s cosmo politeian worldview a contemplative and ascetical vision of the participation of all created beings in the novel politeia or reordered existence inaugurated by Christ s new theandric energy Maximus ultimately insinuated his teaching on the christiformity and cruciformity of the human vocation with his rigorous explication of the precise constitution of Christ s own composite person In outlining this cosmo politeian theory Blowers additionally sets forth a theo dramatic reading of Maximus inspired by Hans Urs von Balthasar which depicts the motion of creation and history according to the christocentric plot or interplay of divine and creaturely freedoms Blowers also amplifies how Maximus s cumulative achievement challenged imperial ideology in the seventh century the repercussions of which cost him his life and how it generated multiple recontextualizations in the later history of theology

Reading the Church Fathers Morwenna

Ludlow, Scot Douglass, 2011-04-28 Reading the corpus of texts written by the Fathers of the Church has always been a core area in Christian theology However scholars and academics are by no means united in the question how these important but difficult authors should be read and interpreted Many of them are divided by implicit but often unquestioned assumptions about the best way to approach the texts or by underlying hermeneutical questions about the norms limits and opportunities of reading Ancient Christian writers This book will raise profound hermeneutical questions surrounding the reading of the Fathers with greater clarity than it has been done before The contributors to this volume are theologians and historians who have used contemporary post modern approaches to illuminate the Ancien corpus of texts The chapters discuss issues such as What makes a good reading of a church Father What constitutes a responsible reading Is the reading of the Fathers limited to a specialist audience What can modern thinkers contribute to our reading of the Fathers

Postcolonial Fiction and Sacred Scripture Sura Qadiri, 2017-12-02 Francophone writers from North Africa and the Middle East often choose to

write within a sacred context sometimes engaging directly with Islamist rhetoric Novelists like Tahar Ben Jelloun Morocco Assia Djebar Algeria and Amin Maalouf Lebanon revisit scripture as a way to convey nuances which they believe have been stamped out by monolithic religious world views For them fiction offers a way to break away from limited exegetical horizons but to remain within the faith Others though would go further moving away from all religious practice not just the excessively political or violent Tunisian writers Abdelwahab Meddeb and Fethi Benslama propose that all literature is of its very nature outside of religion and that its proliferation will ultimately lead to a secular society Qadiri explores this wide spectrum of approaches not only by draw comparison with metropolitan French thought but also to assess its potential impact at a time of radical change in the Islamic world Sura Qadiri is a research associate in the French Department University of Cambridge

The Self-Emptying Subject Alex Dubilet, 2018-04-03 Against the two dominant ethical paradigms of continental philosophy Emmanuel Levinas's ethics of the Other and Michel Foucault's ethics of self cultivation *The Self Emptying Subject* theorizes an ethics of self emptying or kenosis that reveals the immanence of an impersonal and dispossessed life without a why Rather than aligning immanence with the enclosures of the subject *The Self Emptying Subject* engages the history of Christian mystical theology modern philosophy and contemporary theories of the subject to rethink immanence as what precedes and exceeds the very difference between the human self and the divine other between the subject and transcendence By arguing that transcendence operates and subjects life in secular no less than in religious domains this book challenges the dominant distribution of concepts in contemporary theoretical discourse which insists on associating transcendence exclusively with religion and theology and immanence exclusively with modern secularity and philosophy *The Self Emptying Subject* argues that it is important to resist framing the relationship between medieval theology and modern philosophy as a transition from the affirmation of divine transcendence to the establishment of autonomous subjects Through an engagement with Meister Eckhart G W F Hegel and Georges Bataille it uncovers a medieval theological discourse that rejects the primacy of pious subjects and the transcendence of God Eckhart retrieves a modern philosophical discourse that critiques the creation of self standing subjects through a speculative re writing of the concepts of Christian theology Hegel and explores a discursive site that demonstrates the subjecting effects of transcendence across theological and philosophical operations and archives Bataille Taken together these interpretations suggest that if we suspend the antagonistic relationship between theological and philosophical discourses and decenter our periodizing assumptions and practices we might encounter a yet unmapped theoretical fecundity of self emptying that frees life from transcendent powers that incessantly subject it for their own ends

The Sacrality of the Secular Bradley B. Onishi, 2018-04-24 Through a bold and historically rooted vision for the future of philosophy of religion *The Sacrality of the Secular* maps new and compelling possibilities for a nonsecularist secularity In recent decades philosophers in the continental tradition have taken a notable interest in the return of religion a departure from the supposed hegemony of the secular age that began with the Enlightenment At the same time anthropologists and sociologists have begun to reject the once dominant secularization thesis which both prescribed and described the demise of religion in modern societies In *The Sacrality of the Secular* Bradley B. Onishi reconsiders the role of religion at a time when secularity is more tenuous than it might seem He demonstrates that philosophy's entanglement with religion led perhaps counterintuitively to vibrant reconceptions of the secular well before the unraveling of the secularization thesis or the turn to religion Through rich readings of Heidegger Bataille Weber and others Onishi rethinks what philosophy can contribute to our understanding of religion and the wider social and cultural world

Protestant Metaphysics after Karl Barth and Martin Heidegger Timothy Stanley, 2010-08-06 Karl Barth is doubtless one of the most important and influential theologians of the twentieth century The Radical Orthodoxy movement has made

major contributions to the debate about the return to metaphysics in Christian theology and philosophy In this groundbreaking book which challenges much of what is regarded as orthodoxy in Barthian circles more les Timothy Stanley makes a distinctly Protestant contribution to this debate *Nothingness: Tadao Ando's Christian Sacred Space* ,

Maximus the Confessor as a European Philosopher Sotiris Mitralaxis, Georgios Steiris, Marcin Podbielski, Sebastian Lalla, 2017-09-18 The study of Maximus the Confessor's thought has flourished in recent years international conferences publications and articles new critical editions and translations mark a torrent of interest in the work and influence of perhaps the most sublime of the Byzantine Church Fathers It has been repeatedly stated that the Confessor's thought is of eminently philosophical interest However no dedicated collective scholarly engagement with Maximus the Confessor as a philosopher has taken place and this volume attempts to start such a discussion Apart from Maximus relevance and importance for philosophy in general a second question arises should towering figures of Byzantine philosophy like Maximus the Confessor be included in an overview of the European history of philosophy or rather excluded from it as is the case today with most histories of European philosophy Maximus philosophy challenges our understanding of what European philosophy is In this volume we begin to address these issues and examine numerous aspects of Maximus philosophy thereby also stressing the interdisciplinary character of Maximian studies Karl Rahner's Theological Aesthetics Peter Joseph Fritz, 2014 This innovative book discloses Karl Rahner's foremost achievement discovering and delineating an ethos of Catholicism a multifaceted and comprehensive approach to life in Christ Karl Rahner's Theological Aesthetics does so by placing the German Jesuit and his teacher philosopher Martin Heidegger into a richly detailed dialogue on aesthetics The book treats classic Rahner topics such as anthropology and Christology But it breaks new ground by exploring themes such as angels Mary and the apocalypse juxtaposed with analogous philosophical topics in Heidegger **Beyond Measure** Isaac Slater, 2020-02-15 Bernard continually returns to the classical idea that the quality of desire shapes theological imagination By attending to the multiple ways he develops and applies this insight Beyond Measure uncovers a new depth of organic unity to the literary philosophical and theological strands densely interwoven through his writings Bernard's apparent iconoclasm with respect to art affectivity and the humanity of Jesus is revealed as an alternative mystical aesthetic congruent with his program for monastic reform The central movement of Cistercian spirituality from the carnal to the spiritual is shown not to elide but to recapitulate the carnal in higher spiritual expression Further this approach provides fresh understanding of the ways in which Bernard is at once last of the fathers and first of the moderns In particular a careful reading of works by Julia Kristeva and Jean Luc Marion on Bernard reveals both the enduring brightness and vitality of his writing and the relevance of his work for people today **Dialectical Anatomy of the Eucharist** Donald Wallenfang, 2017-05-16 For centuries Christian theology has understood the Eucharist in terms of metaphysics or in protest against it Today an opening has been made to imagine the sacrament through the method of phenomenology bringing about new theological life and meaning In Dialectical

Anatomy of the Eucharist Donald Wallenfang conducts a sustained analysis of the Eucharist through the aperture of phenomenology yet concludes the study with poetic and metaphysical twists Engaging the work of Jean Luc Marion Paul Ricoeur and Emmanuel Levinas Wallenfang proposes pioneering ideas for contemporary sacramental theology that have vast implications for interfaith and interreligious dialogue By tapping into the various currents within the Judeo Christian tradition Jewish Catholic Orthodox and Protestant a radical argument is developed that leverages the tension among them all Several new frontiers are explored dialectical theology a fourth phenomenological reduction the phenomenology of human personhood the poetics of the Eucharist and a reinterpretation of the concept of gift as conversation On the whole Wallenfang advances recent debates surrounding the relationship between phenomenology and theology by claiming an uncanny way out of emerging dead ends in philosophical theology return to the fray

Degrees of Givenness Christina M. Gschwandtner, 2014-10-22 Beautifully written advances scholarship on Marion and offers a sustained and critical analysis of two weaknesses in Marion's phenomenology Tamsin Jones author of A Genealogy of Marion's Philosophy of Religion The philosophical work of Jean Luc Marion has opened new ways of speaking about religious convictions and experiences In this exploration of Marion's philosophy and theology Christina M Gschwandtner presents a comprehensive and critical analysis of the ideas of saturated phenomena and the phenomenology of givenness She claims that these phenomena do not always appear in the excessive mode that Marion describes and suggests instead that we consider degrees of saturation Gschwandtner covers major themes in Marion's work the historical event art nature love gift and sacrifice prayer and the Eucharist She works within the phenomenology of givenness but suggests that Marion himself has not considered important aspects of his philosophy Christina M Gschwandtner has established herself as a valued reader of contemporary French philosophy in general and of Marion's writings in particular She was the first to consider at length Marion's extensive reflections on Descartes and to evaluate their theological importance and she has translated two of Marion's books from the French This new study Degrees of Givenness extends her contribution to our understanding of this fecund philosopher Notre Dame Philosophical Reviews

One of the Trinity Has Suffered: Balthasar's Theology of Divine Suffering in Dialogue Joshua R. Brotherton, 2020-01-01 Hans Urs von Balthasar's discourse on the descent of Christ into hell and its implications for the Triune God have been disputed for half a century One of the Trinity has Suffered evaluates and revises von Balthasar's theology of divine suffering in a way that interacts with and significantly enriches contemporary Catholic theology In this book Joshua R Brotherton engages twentieth century Thomistic theology as well as the thought of Pope Emeritus Benedict XVI Joseph Ratzinger and Pope St John Paul II Drawing from the vast secondary literature on von Balthasar Brotherton offers a balanced assessment of his work on the topic of divine suffering both critical and appreciative Recognizing von Balthasar's laudable attempt to integrate mystical spirituality and systematic theology Brotherton seeks to distinguish valid insights from confused mixtures of metaphorical meta symbolic and philosophical metaphysical discourse on

God particularly with respect to the classical problem of how the Creator who willed to become incarnate may be said to suffer Truly One of the Trinity has suffered and yet this mystery of faith must be carefully explained and understood in conformity with sustained Catholic reflection on divine immutability and simplicity the dual nature and unique personhood of Christ the Trinity of divine subsistent relations the freedom of God in creating and becoming man the analogy of being the problem of evil and the immensity and infinite value of Christ's redemptive suffering Human and Divine Being Donald Wallenfang, 2017-04-10 Nothing is more dangerous to be misunderstood than the question What is the human being In an era when this question is not only being misunderstood but even forgotten wisdom delivered by the great thinkers and mystics of the past must be recovered Edith Stein 1891-1942 a Jewish Carmelite mystical philosopher offers great promise to resume asking the question of the human being In Human and Divine Being Donald Wallenfang offers a comprehensive summary of the theological anthropology of this heroic martyr to truth Beginning with the theme of human vocation Wallenfang leads the reader through a labyrinth of philosophical and theological vignettes spiritual being the human soul material being empathy the logic of the cross and the meaning of suffering The question of the human being is asked in light of divine being by harnessing the fertile tension between the methods of phenomenology and metaphysics Stein spurs us on to a rendezvous with the stream of perennial philosophy that has watered the landscape of thought since conscious time began In the end the meaning of human being is thrown into sharp relief against the darkness of all that is not authentically human
