The Words Say It All Gwen Swinton, 2014-03-28 This collection of poems was written for everyone to enjoy These poems were written straight from the heart through good times sad times and lonely times that author Gwen Swinton has experienced in her life **Friendship 911** Josh McDowell, 2000-07-18 Helping friends who struggle with life's toughest issues

Speaking Being Bruce Hyde, Drew Kopp, 2019-07-31 Speaking Being Werner Erhard Martin Heidegger and a New Possibility of Being Human is an unprecedented study of the ideas and methods developed by the thinker Werner Erhard In this book those ideas and methods are revealed by presenting in full an innovative program he developed in the 1980s called The Forum available in this book as a transcript of an actual course led by Erhard in San Francisco in December of 1989 Since its inception Erhard's work has impacted the lives of millions of people throughout the world Central to this study is a comparative analysis of Erhard's rhetorical project The Forum and the philosophical project of Martin Heidegger Through this comparative analysis the authors demonstrate how each thinker's work sometimes parallels and often illuminates the other The dialogue at work in The Forum functions to generate a language which speaks being That is The Forum is an instance of what the authors call ontological rhetoric a technology of communicating what cannot be said in language Nevertheless what does get said allows those participating in the dialogue to discover previously unseen aspects of what it currently means to be human As a primary outcome of such discovery access to creating a new possibility of what it is to be human is made available The purpose of this book is to show how communication of the unspoken realm of language speaking being is actually accomplished in The Forum and to demonstrate how Erhard did it in 1989 Through placing Erhard's language use next to Heidegger's thinking presented in a series of Sidebars and Intervals alongside The Forum transcript the authors have made two contributions They have illuminated the work of two thinkers who independently developed similar forms of ontological rhetoric while working from very different times and places Hyde and Kopp have also for the first time made Erhard's extraordinary form of ontological rhetoric available for a wide range of audiences from scholars at work within a variety of academic disciplines to anyone interested in exploring the possibility of being for human beings From the Afterword I regard Speaking Being as an enormously important contribution to understanding Heidegger and Erhard The latter has received far too little serious academic attention and this book begins to make up for that lack Moreover the book's analysis of Heidegger's thought is among the best that I have ever read I commend this book to all readers without reservation Michael E Zimmerman Professor Emeritus University of Colorado Boulder *Bloodstains Of My Footprints* Jerry Lester Spence, 2020-09-02 Book Delisted **Monthly Bulletin** City of Chicago Municipal Tuberculosis Sanitarium, 1917
