na DONALD SMITH, The Gifts of Near-Death Experiences Sheila Fabricant Linn,Dennis Linn,Matthew Linn,2016-01-01 Near death experiences NDEs are common well documented and similar across cultures throughout the world Current estimates are that between 4 and 15 percent of the world's population have had an NDE Therefore almost everyone has either had one or knows someone else who has had one Some of the fascination with NDEs comes from the fact that they often result in great leaps in personal growth These leaps are characterized by the loss of the fear of death the healing of deep hurts an increase in self esteem and compassion for others a sense of union with all things and a clearer sense of how to fulfill one's purpose in life This is a book that teaches readers how to reap the benefits of NDEs without having to experience trauma In the course of their many workshops around the world the authors have discovered that when one immerses oneself in accounts of NDEs one can experience love hope healing and a sense of purpose This is the only book that systematically encourages the reader to create a spiritual and psychological healing practice based on NDEs Each chapter includes an account of a fascinating NDE followed by a series of questions meditations exercises and video links The reader is encouraged to contemplate these stories and their own lives It is truly a profound guide to both living and dying

Osho, 2016-12-13 In the age of Facebook Twitter WhatsApp and email personal letters seem somehow out of date or at least
far from most people s everyday experience This book is a rare and unique collection of letters personally written by Osho to
participants from his early meditation events These are not letters to people and their personalities these are letters to our
souls Osho addresses essential issues and concerns that arise on the path of meditation and self discovery The letters are
encouragements to continue the process of meditation and address subjects like Self Acceptance Wisdom Consciousness The
Quest for Life A Life of Freedom Earth Is Our Home Dropping Fear Dealing with Anger Rebellion and many more in a direct
and penetratingly personal way Osho explains this about the value of writing letters If I write anything I write letters because
a letter is as good as something that is spoken It is addressed I have not written anything except letters because to me they

are a manner of speaking The other is always there before me when I write a letter The OSHO works consist almost exclusively of the spoken word addressed directly to individual people or larger audiences These talks were recorded and then transcribed and published as books This book represents one of the rare exceptions in the collected works of Osho in which his written personal letters are published Each one of these letters is like an condensed Osho Talk in haiku form He would meet with these correspondents time and again at his meditation camps or while staying in their homes This volume is a selection of his replies to their letters queries and calls for help His words are intimate incisive poetic playful and loving His encouragement to his correspondents to keep going on their chosen path of meditation and awareness while living loving and working in the ordinary world to keep their flame of commitment burning brightly when he is not physically present can inspire whomever opens this book *Wilbur and Melvia Lee Thornton Son Wilbur Junior* WILBUR THORNTON
