**Electric Light and Power** Arthur Frederick Guy, 1894      Tommy From Treemoonia Stephen J. Fyson, 2023-03-14 It was said Treemoonia had a memory that helped to keep important things important In the trees of Treemoonia the people are content work hard and help each other If they follow the Parable the book that tells of how they began then their land is blessed But not everyone believes in the Parable or the Winds of Treemoonia and they must deal with the consequences of their unbelief deep beneath the sheltering trees of their homeland Tommy is just another Treemoonian child enjoying a siesta day with his friends with his sister underfoot Annoyed that she insists on following him Tommy does his best to lose her that is until he actually loses her for real As Tommy frantically tries to find his sister he stumbles across a stepping vine leading beneath Treemoonia Knowing his sister may have followed the same vine Tommy soon finds himself going deep down into a dark world where creatures are not what they appear and where his questions are met with hatred and fear Will Tommy be able to find his way back home with his sister safely in hand Or will the creatures beneath Treemoonia swallow him up for good and keep him captive in his disbelief The answers can be found only in the Parable if only Tommy will believe what he already knows

**Television Aesthetics** Nikos Metallinos, 2013-11-05 USE FIRST TWO PARAGRAPHS ONLY FOR GENERAL CATALOGS This volume offers a response to three ongoing needs to develop the main composition principles pertinent to the visual communication medium of television to establish the field of television aesthetics as an extension of the broader field of visual literacy and to promote television aesthetics to both students and consumers of television Based on effective empirical research from three axes perception cognition and composition the aesthetic principles of television images presented are drawn from converging research in academic disciplines such as psychology perceptual cognitive and experimental neurophysiology and the fine arts painting photography film theater music and more Although the aesthetics of the fine arts were traditionally built on contextual theories that relied heavily on subjective evaluation on critical analyses and on descriptive research methods the

aesthetics of today's visual communication media consider equally valuable empirical methodologies found in all sciences. Investigations in these different academic disciplines have provided the constructs and strengthened the foundations of the theory of television aesthetics offered in this book. Special features include a great variety of pictures supporting the topics discussed, a thorough up-to-date and specifically related bibliography for each of the major parts of the book, computer drawings illustrating the concepts examined in the text, scientific data tables and charts documenting the research findings, cited simplified explanations of the processes of visual auditory and motion perceptions of images enhanced by specific diagrams, detailed analyses of the threefold process of stimulation, perception and recognition of televised images, and workable, easy-to-understand and use rules of picture composition, visual image evaluations and television program appreciation.

The Barb and the Bridle active 1866-1874 Robert Henderson, 2019-12-20. In *The Barb and the Bridle* Robert Henderson delves into the intricate relationship between humanity and equine companions, painting a vivid portrait of the role of horses in Victorian society. Through a blend of lyrical prose and practical observation, Henderson explores themes of utility, beauty, and the emotional bond between horse and rider. Set against the backdrop of the late 19th century, the book captures a pivotal moment in equestrian culture, emphasizing the rise of recreational riding alongside traditional uses, which elucidates the shifting perceptions of horses during this transformative period. The narrative is adorned with personal anecdotes and detailed descriptions reflecting a style that resonates with the era's appreciation for both nature and craftsmanship. Robert Henderson, active from 1866 to 1874, was a dedicated horseman and a keen observer of societal customs pertaining to equestrian life. His experiences as a rural equestrian not only inform the vivid portrayals within the text but also reveal his nuanced understanding of the interplay between socioeconomic factors and horse culture during his time. Henderson's passion for horses is evident, driven by a desire to capture and articulate the essence of these noble creatures in a rapidly industrializing world. I highly recommend *The Barb and the Bridle* to readers interested in equestrianism, Victorian literature, or the nuanced connections between humans and animals. Henderson's work serves as both a historical document and a heartfelt tribute, making it essential for anyone seeking a deeper appreciation of the equine legacy.
