Chicago Journal of Commerce and Metal Industries ,1892 *From Wall Street to Main Street* Reginald F.

Davis,2013-10-24 From Wall Street to Main Street the moral toxicity in our country is alarming There are frightening signs that America is on the same path to destruction as the Roman Empire was before its fall Since America has embraced secular progressivism and redefined its traditional spiritual values our nation has greatly declined History points to the judgment of God that came upon nations for their moral toxicity Unless America repents returns to God reorders its priorities and sets its financial house in order future generations will ask Why has the mighty fallen America needs to heed Abraham Lincoln who said America will never be destroyed from the outside If we falter and lose our freedom it will be because we destroyed ourselves from within From Wall Street to Main Street is a trumpet blast not only to alert Americans to our spiritual and moral decline but also to encourage our citizens to save this great republic Our struggle is not merely social economic and political it is spiritual There is hope and this hope is in the struggle to make God justice and morality central in our nation once again

Light Pollution Handbook Kohei Narisada,Duco Schreuder,2004-11-30 Constituting the first holistic overview including practical remedies this handbook provides the background needed by anyone grappling with the complex issue of outdoor lighting and its effects It describes not only the problems that astronomers and other night sky observers face in reducing the problems of information loss due to light pollution as well as the problems lighting technologists face in optimising outdoor lighting installations that cause little or no light pollution The first part is directed to decision makers and managers of outdoor space and covers the areas of general interest culminating in recommendations to reduce the impact of light pollution The second part is directed primarily to scientists and engineers as a support to the design and maintenance of outdoor lighting installations with special reference to astronomical observations Elaborating issues from the first part these contributions include examples that refer to specific outdoor lighting projects and to more general policy and educational measures Written for designers of lighting equipment and managers of astronomical observatories but also aimed at the authorities and decision makers responsible for the organization and maintenance of the public space it will serve a good purpose in graduate or postgraduate curricula for scientists engineers economists and law students This handbook fills the gap that exists between astronomical textbooks engineering texts and popular brochures about light pollution
