Isolation and transformation are the central themes of The Spine isolation caused by death alien landscapes and lost ideals and the transformation for good or ill of those this isolation reaches The people and creatures in The Ones Consumed become absorbed figuratively or literally by the world around them Though the absorption often destroys them the section opens and closes with poems which reveal that there can be compensation and justice in the process Separate States deals with the experiences of those who find themselves cut off from the lives most familiar to them This separation results in their gaining knowledge stronger and deeper than the kind offered by the surfaces of the commonplace Isolation has more severe physical and emotional consequences for the people of the poems in Scars of What Touches Even when someone chooses isolation as in the final poem of the section the presence of the outside world forces itself past the barriers erected against its intrusion The last section Shaped by Shells and journeys is peopled by those who find reason for hope even though the innocence of an earlier age has vanished for them They accept the limitation that the only part of their world they can truly change is themselves and this releases them from the isolation which wounds or destroys so many in the earlier sections It is thus that the final poem transforms a scene of unthinking devastation into one where the poet alters the way he will live from that time on **The Furnace** Timothy S. Johnston,2013-12-23 Dead Space 2401 AD Kyle Tanner is about to die Alone floating in a vacsuit only a few million kilometers from a massive uncaring sun he has barely enough time or juice to get out a distress signal before either his oxygen runs out or he succumbs to the radiation When the CCF sent investigator Kyle Tanner to SOLEX One a solar energy harvester past Mercury he thought it would be an open and shut murder case A crew member was found dead minus his head and hands Not the worst Tanner has ever seen but the deeper he delves the more nightmarish it becomes A shadowy figure bleeding from his hands assaults Tanner in his quarters Then two more turn up dead missing their heads and hands as well With no one to trust and everyone a suspect even the intriguing chief engineer Shaheen Tanner must navigate a crew on the brink of madness to uncover a conspiracy that could threaten the whole of the human race Even if it means making the ultimate sacrifice 115 000 words *Transportation Lines on the Mississippi River System and the Gulf Intracoastal Waterway* United States.
