Lighthouse Stevensons:

The Lighthouse Stevensons Bella Bathurst, 2010-01-07 Bella Bathurst's epic story of Robert Louis Stevenson's ancestors and the building of the Scottish coastal lighthouses against impossible odds [The Lighthouse Stevensons](#) Bella Bathurst, 2011-06-28 The flamboyant and elegantly written saga of the legendary author's family and their lifesaving nautical advances across eighteenth century Scotland Publishers Weekly For centuries the seas around Scotland were notorious for shipwrecks. Mariners had nothing to aid their navigation but a single coal fire light on the east coast which was usually extinguished by rain. In 1786 the Northern Lighthouse Trust was established with Robert Stevenson appointed as chief engineer a few years later. In this engrossing book Bella Bathurst reveals that the Stevensons not only supervised the construction of the lighthouses under often desperate conditions but also perfected a design of precisely chiseled interlocking granite blocks that would withstand the enormous waves that batter these stone pillars. The same Stevensons also developed the lamps and lenses of the lights themselves which sent a gleam across the wave and prevented countless ships from being lost at sea. While it is the writing of Robert Louis Stevenson that brought fame to the family name this mesmerizing account shows how his extraordinary ancestors changed the shape of the Scotland coast against incredible odds and with remarkable technical ingenuity **Lighthouse Stevensons** Bella Bathurst, 2000 **LIGHTHOUSE**

Robert Louis Stevenson in the Pacific Roslyn Jolly, 2016-12-05 Robert Louis Stevenson's departure from Europe in 1887 coincided with a vocational crisis prompted by his father's death Impatient with his established identity as a writer Stevenson was eager to explore different ways of writing at the same time that living in the Pacific stimulated a range of latent intellectual and political interests Roslyn Jolly examines the crucial period from 1887 to 1894 focusing on the self transformation wrought in Stevenson's Pacific travel writing and political texts Jolly shows how Stevenson's desire to understand unfamiliar Polynesian and Micronesian cultures and to record and intervene in the politics of Samoa gave him opportunities to use his legal education pursue his interest in historiography and experiment with anthropology and journalism Thus as his geographical and cultural horizons expanded Stevenson's professional sphere enlarged as well stretching the category of authorship in which his successes as a novelist had placed him Rather than enhancing his stature as a popular writer however Stevenson's experiments with new styles and genres and the Pacific subject matter of his later works were resisted by his readers Jolly's analysis of contemporary responses to Stevenson's writing gleaned from an extensive collection of reviews many of which are not readily available provides fascinating insights into the interests obsessions and resistances of Victorian readers As Stevenson sought to escape the vocational straightjacket that confined him his readers just as strenuously expressed their loyalty to outmoded images of Stevenson the author and their distrust of the new guises in which he presented himself

Light Years Caroline Woodward, 2015-09-05 In 2007 Caroline Woodward was itching for a change With an established career in book selling and promotion four books of her own and having raised a son with her husband Jeff she yearned for adventure and to re ignite her passion for writing Jeff was tired of piecing together low paying part time jobs and with Caroline's encouragement applied for a position as a relief lightkeeper on a remote North Pacific island They endured lonely months of living apart but the way of life rejuvenated Jeff and inspired Caroline to contemplate serious shifts in order to accompany him When a permanent position for a lighthouse keeper became available Caroline quit her job and joined Jeff on the lights Caroline soon learned that the lighthouse keeping life does not consist of long empty hours in which to write The reality is hard physical labour long stretches of isolation and the constant threat of de staffing Beginning with a 3 30 a m weather report the days are filled with maintaining the light station buildings sea sampling radio communication beach cleanup wildlife encounters and everything in between As for dangerous rescue missions or dramatic shipwrecks that kind of excitement is rare So far the only life I know I've saved is my

own she says with her trademark dry wit Yet Caroline is exhilarated by the scenic coastline with its drizzle and fog seabirds and whales and finds time to grow a garden and as anticipated write Told with eloquent introspection and an eye for detail Light Years is the personal account of a lighthouse keeper in twenty first century British Columbia an account that details Caroline s endurance of extreme climatic interpersonal and medical challenges as well as the practical and psychological aspects of living a happy healthy useful and creative life in isolation

The Creaky Traveler in the North West

Highlands of Scotland Warren Rovetch,2002-10 On a journey of discovery Warren and Gerda Rovetch both creaky themselves explore the hidden places of Great Britain s last wilderness the rugged and startling coast of Scotland s North West Highlands They bring fresh perspectives to the environmental cultural and spiritual dimensions of their experience as their journey moves at an easy pace from village pubs and croft houses to places of untouched natural beauty and solitude Celtic history and tradition comes alive as our hosts meander their way along Part travelogue part guidebook but all charm and wit this book transports us to another culture where we have much to learn

The Triumph of Human Empire

Rosalind Williams,2013-09-30 In the early 1600s in a haunting tale titled New Atlantis Sir Francis Bacon imagined the discovery of an uncharted island This island was home to the descendants of the lost realm of Atlantis who had organized themselves to seek the knowledge of Causes and secret motions of things and the enlarging of the bounds of Human Empire to the effecting of all things possible Bacon s make believe island was not an empire in the usual sense marked by territorial control instead it was the center of a vast general expansion of human knowledge and power Rosalind Williams uses Bacon s island as a jumping off point to explore the overarching historical event of our time the rise and triumph of human empire the apotheosis of the modern ambition to increase knowledge and power in order to achieve world domination Confronting an intensely humanized world was a singular event of consciousness which Williams explores through the lives and works of three writers of the late nineteenth century Jules Verne William Morris and Robert Louis Stevenson As the century drew to a close these writers were unhappy with the direction in which their world seemed to be headed and worried that organized humanity would use knowledge and power for unworthy ends In response Williams shows each engaged in a lifelong quest to make a home in the midst of human empire to transcend it and most of all to understand it They accomplished this first by taking to the water in life and in art the transition from land to water offered them release from the condition of human domination At the same time each writer transformed his world by exploring the literary boundary between realism and romance Williams shows how Verne Morris and Stevenson experimented with romance and fantasy and how these traditions allowed them to express their growing awareness of the need for a new relationship between humans and Earth The Triumph of Human Empire shows that for these writers and their readers romance was an exceptionally powerful way of grappling with the political technical and environmental situations of modernity As environmental consciousness rises in our time along with evidence that our seeming control over nature is pathological and unpredictable Williams s history is one that speaks

very much to the present

Dreams of Exile Ian Bell,2015-03-03 The renowned nineteenth century author of *Treasure Island* gets his due in an admirable biography full of intelligence and scruple beautifully written The Independent Many biographies have been written of Robert Louis Stevenson portraying different versions of the famous author from the Bohemian dandy outraging Victorian Edinburgh to a writer of stories beloved by children and familiar from numerous film and television dramas In this acclaimed biography Ian Bell attempts to see Robert Louis Stevenson whole to trace the line of descent from the son of Calvinist engineers to the man who ended his days as Tusiata among the Samoan islanders Understanding that for Stevenson geography mattered Bell sets out to discover the complete man through the places he lived and the people he lived among as well as through the books that poured from him during his all too short literary life As such *Dreams of Exile* is both literary biography and travel narrative It follows Stevenson's development as an artist and as a man by following his often chaotic progress from continent to continent in good health and in bad in poverty and in wealth Along the way it reveals his often tortured relations with his family his robust sexuality and the mystery of his stormy marriage to a woman many years his senior But perhaps Bell's most important contribution is to rescue R L S from the many conflicting and often romanticized images that have continued to surround him and in the process to make a telling case for Stevenson's genius as a writer A biography as readable as a romance A very level headed and well written book London Review of Books
