**Lighting the Night** William Echikson, 1990-01-01      **Europe, Eastern**, 1995      The Velvet Revolution Bernard Wheaton, 2018-02-06 The vivid portrayal of the Velvet Revolution describes the dramatic social and political changes that heralded the downfall of the Communist leadership in Czechoslovakia Bernard Wheaton one of the few Western observers in the country during the nonviolent change of government in November 1989 and Zdenek Kavan himself a Czech interweave firsthand description with interviews of student leaders press accounts and scholarly analysis of the historical antecedents of the revolution to bring the extraordinary events of 1989 to life The authors also trace the evolution of change in Czechoslovakia weighing the importance of the May 1990 elections and assessing political and social prospects for the future The narrative is enriched with political cartoons and photographs      *Revolutions in Eastern Europe* Niels Christian Nielsen, 1991 This book seeks to develop a general overview of religion's role in the peoples revolutions in Eastern Europe during the second half of 1989 while recognizing the distinctiveness of events in each country      **The Haunted Land** Tina Rosenberg, 2010-11-24 The Pulitzer Prize winning look at the collapse of Communism in Eastern Europe      *East and South* Lucy Gasser, 2021-07-15 What is Europe in academic discourse While Europe tends to be used as shorthand often interchangeable with the West neither the West nor Europe are homogeneous spaces Though postcolonial studies have long been debunking Eurocentrism in its multiple guises there is still work to do in fully comprehending how its imaginations and discursive legacies conceive the figure of Europe as not all who live on European soil are understood as equally European This volume explores this immediate need to rethink the axis of postcolonial cultural productions to disarticulate Eurocentrism to recognise Europe as a more diverse plural and fluid space to draw forward cultural exchanges and dialogues within the Global South Through analyses of literary texts from East Central Europe and beyond this volume sheds light on alternative literary cartographies the multiplicity of Europes and being European which exist both as they are viewed from the different geographies of the global South and within the continent itself Covering a wide spatial and temporal terrain in postcolonial and European cultural productions this volume will be of great interest to scholars and researchers of literature and literary criticism cultural studies post colonial studies global South studies and European studies      War of the Black Heavens Michael Nelson, 1997-12-01 International diplomacy and a changing global economy did not bring about the fall of the Iron Curtain Radio did and it was mightier than the sword Based on first hand interviews and documents from the Central Committee of the Soviet Communist Party Michael Nelson shows that Western radio principally the British Broadcasting Corporation Radio Free Europe Radio Liberty and the Voice of America were unrivaled forces in the fight against communism and the fall of the Iron Curtain The Communists did everything in their power to prevent the infiltration of Western thought into their world resorting to jamming radio signals assassinating staff and bombing stations The Russians for example decided to stop the mass production of short wave radios so that their citizens could not hear Western

broadcasts War of the Black Heavens reveals that due to administrative incompetence short wave radio production continued making worthless many of the billions of dollars spent on jamming These radio programs introduced a forbidden exciting culture to millions of eager listeners Pop music talk shows news and information about consumer goods all relayed a message of the good life subtly undermining the values of the communist regimes Western radio actively connected listeners with the cultures of Europe and North America War of the Black Heavens describes an unheralded story of success and adds a new interpretation that helps us understand some of the most momentous political events of this century **Czecho/Slovakia** Eric Stein,2010-05-06 As the clock struck midnight on December 31 1992 Czechoslovakia the only genuine democracy in post World War I Central Eastern Europe broke up into two independent successor states This book explores the failed search for a postcommunist constitution and it records in a lively style a singular instance of the peaceful settlement of an ethnic dispute For more than three years after the implosion of the Communist regime in 1989 the Czechs and Slovaks negotiated the terms of a new relationship to succeed the centralized federation created under communism After failing to agree to the terms of a new union the parties agreed on an orderly breakup In the background of the narrative loom general issues such as What are the sources of ethnic conflict and what is the impact of nationalism Why do ethnic groups choose secession and what makes for peaceful rather than violent separation What factors influence the course of postcommunist constitutional negotiations which are inevitably conducted in the context of institutional and societal transformation The author explores these issues and the reasons for the breakup Eric Stein a well known scholar of comparative law and a native of Czechoslovakia was invited by the Czechoslovak government to assist in the drafting of a new constitution This book is based on his experiences during years of work on these negotiations as well as extensive interviews with political figures journalists and academics and extensive research in the primary documents It will appeal to historians lawyers and social scientists interested in the process of transformation in Eastern Europe and the study of ethnic conflict as well as the general reader interested in modern European history Eric Stein is Hessel E Yntema Professor Emeritus University of Michigan Law School He previously served with the United States Department of State in the Legal Advisor s Office He is the author of many books and articles on comparative law and the law of the European Community *American Diplomacy and the End of the Cold War* Robert L. Hutchings,1997 Hutchings adds a scholar s balanced judgment and historical perspective to his insider s view from the White House as he reconstructs how things looked to policymakers in the United States and in Europe describes how and why decisions were made and critically examines those decisions in the light of what can now be known

**Reinventing Politics** Vladimir Tismaneanu,2000-10-06 Reinventing Politics gives an account of East European politics from the time of Soviet domination to the 1989 90 revolutions and considers the effect of tyranny on East European culture and politics the chances for successful and harmonious development in the region and its relationship with the rest of Europe Using primary materials from Eastern European democratic movements Tismaneanu shows how dissident enclaves

grassroots political groups independent unions and underground initiatives spearheaded the spontaneous outbursts of discontent that led to the nonviolent collapse of communist dictatorships In an illuminating exciting comparative analysis of the breakup of the Soviet Union s outer empire Tismaneanu identifies bureaucratic inertia renascent authoritarian tendencies and the lure of populist adventurers as key obstacles to democracy Publishers Weekly

**Resistance and Rebellion** Roger D. Petersen,2001-05-07 Resistance and Rebellion Lessons from Eastern Europe explains how ordinary people become involved in resistance and rebellion against powerful regimes The book shows how a sequence of casual forces social norms focal points rational calculation operate to drive individuals into roles of passive resistance and at a second stage into participation in community based rebellion organization By linking the operation of these mechanisms to observable social structures the work generates predictions about which types of community and society are most likely to form and sustain resistance and rebellion The empirical material centres around Lithuanian anti Soviet resistance in both the 1940s and the 1987 91 period Using the Lithuanian experience as a baseline comparisons with several other Eastern European countries demonstrate the breadth and depth of the theory The book contributes to both the general literature on political violence and protest as well as the theoretical literature on collective action Romania Versus the United States NA NA,2016-09-27 Handbook of the Sociology of Religion Michele Dillon,2003-08-18 Table of contents

*Kevlar Legions: The Transformation of the United States Army 1989-2005* John Sloan Brown,2012-08-12 This is the story of how the United States Army responded to the challenges of the end of the Cold War by transforming itself into the most capable ground force in the world today It argues that from 1989 through 2005 the U S Army attempted and largely achieved a centrally directed and institutionally driven transformation relevant to ground warfare that exploited Information Age technology adapted to post Cold War strategic circumstances and integrated into parallel Department of Defense efforts The process not only modernized equipment it also substantially altered doctrine organization training administrative and logistical practices and the service culture Kevlar Legions further contends that the digitized expeditionary Army has withstood the test of combat performing superbly with respect to deployment and high end conventional combat and capably with respect to low intensity conflict and the counterinsurgency challenges of Iraq and Afghanistan

*German Unification* M. Donald Hancock,2019-03-11 The East European revolutions of 1989 led to momentous changes throughout the region Nowhere were they felt more dramatically than in Germany where unification unexpectedly became reality unfolding with breathtaking speed unhindered by major obstacles However joy over the fall of the Berlin Wall and the opening of the borders was soon

dampene     Contexts of International Politics Gary Goertz, 1994-11-24 In this book Gary Goertz examines how states interact with their environment and contexts which are important in understanding international politics He presents a philosophical methodological and empirical discussion of three important contexts which affect decision makers history system structure and international norms The effects of these contexts are explored by viewing context in turn as cause as changing meaning and as a barrier The book engages with the literature on structural realism and international regimes and uses rational actor and diffusion models as theoretical references A number of concrete studies are provided using these contextual tools including oil nationalisation USSR East European relations enduring rivalries and decolonisation These empirical examples illustrate the fruitfulness of the contextual approach to international politics     *Eastern Europe '94* Scott McNeely, 1993 One of the least explored regions of Europe before the revolutions of 1989 and 1990 these three former Eastern Bloc nations have experienced an overall increase in tourism of 30% in the last three years and this pace is expected to continue well into the 90 s Eastern Europe is THE travel destination of the moment In addition to comprehensive cultural and practical information on the capital cities Prague Budapest and Warsaw the information goes off the beaten track with exploring tours of the Baltic Coast the Slovak countryside Hungary s Great Plain and other less touristy areas that are now more accessible to independent travellers     *A Good Comrade* Roger Gough, 2006-08-23 Few political lives have been as dramatic or as marked by sudden changes of fortune as that of Janos Kadar Hungary s communist leader from 1956 to 1988 A reformist who at first supported Imre Nagy s 1956 attempt to distance his country from Soviet domination Kadar eventually threw in his lot with the Soviet Union and the repression which followed Hungary s attempt at revolution in 1956 Was he an ambitious ruthless party functionary or a tragic visionary who sought to preserve a modicum of independence for his country by abandoning its aspirations and his friends In this the first biography in English since the collapse of the Soviet bloc Roger Gough paints a vivid picture of Kadar s personality and career whilst analysing his significance for Hungary and his place in the history of European communism *A Good Comrade* is a powerful portrait of a man who dominated Hungarian political life for three decades
