Kling,2004-08-12 No one can doubt that the Bible has exerted a tremendous influence on Western civilization since the dawn of Christianity But few of us have considered the precise nature of that influence in particular historical contexts In this book David Kling traces the fascinating story of how specific biblical texts have at different times emerged to be the inspiration of movements that have changed the course of history By examining eight such pivotal texts Kling elucidates the ways in which sacred texts continue to shape our lives as well as our history Among the passages he discusses are Upon this rock I will build my church Matthew 16 18 which inspired the formation of the papacy and has served as its foundation for centuries The righteous will live by faith Romans 1 17 which caught the imagination of Martin Luther and sparked the Protestant Reformation Go to Pharaoh and say to him Thus says the Lord Let my people go so that they may worship me Exodus 8 1 which has played an important and diverse role in African American history from early slave spirituals through the modern civil rights movement and beyond There is no longer Jew or Greek there is no longer slave or free there is no longer male and female for all of you are one in Christ Jesus Galatians 3 28 which has been adopted by feminists as a rallying cry in the battle for women s ordination Each of the historical episodes he explores from the beginning of Christian monasticism to the emergence of Pentecostalism is evidence of the dynamic interplay between Scripture and the social and cultural context in which it is interpreted Kling s innovative study of this process shows how sacred texts can give life to social movements and how powerful social forces can give new meaning to Scripture **The Book of Rural Life** Edward Mowbray Tuttle,1925
