Myth and the Limits of Reason Phillip Stambovsky, 2021-11-15 Traditionally understood as pre critical even pre rational mythical thought has in fact played a critical role in post Enlightenment intellectual history Modernists in philosophy and literature have used the depictive rationality of myth to disclose in self reflective ways the limits of discursive sense making in various domains of human experience In so doing they have effectively furthered without resort to analytical abstractions the epistemological critique of reason begun during the Enlightenment Stambovsky illustrates four widely diverse examples of this critical form of mythical thinking in works by Kierkegaard Miguel de Unamuno Henry James and Margaret Atwood The selected texts focus respectively on religious national cultural psychosocial and psychobiological realms of experience These illustrations follow an inquiry into why the very possibility of critical mythically inventive mythopoetic reflection is unsatisfactorily explained by leading rationalist accounts of myth It is with this problem in mind that Stambovsky begins his monograph with observations on the origins of rationalist and counter rationalist conceptualizations of myth in the fragments of Xenophanes the father of rationalist mythology and in Plato s Phaedrus Of pivotal import is the early rationalist discrimination of mythos from logos and its epistemological implications the rationalist legacy in the history of the idea of myth Following his look at paradigmatic classical precedents Stambovsky traces the influence of the rationalist legacy in the myth theory of Malinowski L vi Strauss Cassirer Ricoeur and Blumenberg The aim is to reveal how this influence in different ways limits these theories as instruments for detecting and explaining the seminal critical and historical significance of modern mythopoeia This study will be of particular interest to teachers and students of myth theory in departments of philosophy religion literature and cultural anthropology

Global Limits Mark F. N. Franke,2001-05-16 Global Limits challenges both the current proliferation of Kantian readings of international affairs and the theoretical foundation Kant is presumed to provide the discipline By thoroughly examining Kant s writings on politics history and ethics within the context of his larger philosophical project Franke demonstrates that Kant s approach to international politics flatly contradicts many of the debates on which the modern discipline of International Relations rests Paying specific attention to Kant s philosophy of judgment and the geopolitical vision one may draw from it Franke concludes that scholars must give up the universal limits offered by concepts such as the international world or global in favor of a far less certain and much more open interpretive framework emphasizing the political

"The" Monist ,1897 *Morality Within the Limits of Reason* Russell Hardin,1988 This provocative lucidly written reconstruction of utilitarianism focuses on the practical constraints involved in ethical choice information may be inadequate and understanding of causes and effects may be limited Good decision making may be especially constrained if other people

are closely involved in determining an outcome Hardin demonstrates that many of these structural issues can and should be distinguished from the thornier problems of utilitarian value theory and he is able to show what kinds of moral conclusions we can reach within the limits of reason

Making Sense of Myth Gerard Naddaf, 2024-03-12 To most myths are merely fantastic stories But for Luc Brisson one of the great living Plato scholars myth is a key factor in what it means to be human a condition of life for all Essential and inescapable myth offers a guide for living forming the core of belonging and group identity In 1999 Quebec classicist Louis Andr Dorion published a series of French conversations with Brisson on the idea of myth In *Making Sense of Myth* Gerard Naddaf offers an extended and updated English translation of these conversations as well as a new set of discussions between himself and Brisson Beginning with Brisson s childhood in the village of Saint Esprit Quebec through his education as a gifted child in minor seminaries starting at age eleven and continuing with his years in Paris first as a graduate student and later at the Centre national de la recherche scientifique CNRS Brisson tells the story of his escape from an all encompassing myth the one promulgated by the Roman Catholic Church The philosopher situates Quebec society as inseparable from the history of the Catholic Church in Quebec and argues that this correlation offers a perfect paradigm of myth and mythmaking Naddaf s introduction and afterword contextualize the conversations by discussing Brisson s and Plato s understanding of the origin and meaning of myth elaborating on the role of myth in anthropogeny in the creation of selfhood and in multiculturalism *Making Sense of Myth* promises both a philosophy of myth and a philosophy of life one inspired by Brisson s lifelong engagement with the great Western philosopher Plato

Seeing Silence Mark C. Taylor, 2020-08-13 Mark C Taylor explores the many variations of silence by considering the work of leading visual artists philosophers theologians writers and composers To hear silence is to find stillness in the midst of the restlessness that makes creative life possible and the inescapability of death acceptable So writes Mark C Taylor in his latest book a philosophy of silence for our nervous chattering age How do we find silence and more importantly how do we understand it amid the incessant buzz of the networks that enmesh us Have we forgotten how to listen to each other to recognize the virtues of modesty and reticence and to appreciate the resonance of silence Are we less prepared than ever for the ultimate silence that awaits us all Taylor wants us to pause long enough to hear what is not said and to attend to what remains unsayable In his account our way to hearing silence is paradoxically to see it He explores the many variations of silence by considering the work of leading modern and postmodern visual artists including Barnett Newman Ad Reinhardt James Turrell and Anish Kapoor Developing the insights of philosophers theologians writers and composers Taylor weaves a rich narrative modeled on the Stations of the Cross His chapter titles suggest our positions toward silence Without Before From Beyond Against Within Between Toward Around With In Recasting Hegel s phenomenology of spirit and Kierkegaard s stages on life s way Taylor translates the traditional Via Dolorosa into a Nietzschean Via Jubilosa that affirms light in the midst of darkness *Seeing Silence* is a thoughtful meditation that invites readers to linger long enough to see silence and in

this way perhaps to hear once again the wordless Word that once was named God Justice Fragmented George C. Pavlich, 2002-09-11 Suppose you have a dispute with your neighbour and wish to secure redress for losses incurred How might the issue be resolved Is it worth the cost and time delay to take the issue to court Or is there some other approach Over the past few decades a range of alternative dispute resolution programmes have emerged to settle conflicts informally outside the courtroom Drawing on real life experiences of community mediation practices in British Columbia Canada the author explores informal justice as an event rendered possible by the fragmentation of justice under postmodern conditions He develops some of Foucault's ideas on governmentality to erect an analytical framework that does not view community mediation as necessarily empowering or an inevitable expansion of state control The analysis identifies how one might engage with current versions of community justice and yet avoid the political apathy that too often accompanies such criticism *Legitimacy in Public Administration* O. C. McSwite, 1997-07-02 In this postmodern end of the century moment the question of what role public administration can legitimately play in a democratic society has deepened and taken on increased urgency At the same time the movement toward global marketization has gained enormous momentum traditional prejudices and racial and ethnic violence have appeared with a renewed virulence presenting unprecedented challenges to democratic governments *Legitimacy in Public Administration* reveals how the issue of administrative legitimacy is directly implicated indeed central to this broader issue It argues that legitimacy hinges at the generic level on the question of alterity how to regard and relate to different others This book reviews the history of the legitimacy issue in the literature of American public administration with the purpose of demonstrating that this discourse has been distorted by an underlying and undisclosed commitment to an elitist Man of Reason model of the public administrator's role Current attempts to reformulate administration to meet the challenge of new conditions will fail the author argues because they have not escaped the grip of this implicit distortion *Legitimacy in Public Administration* includes a challenging concluding chapter that uses insights from gender theory and demonstrates the connection between the legitimacy question and the critical problem of alterity The author also offers a new way to fundamentally reframe the legitimacy question so as not only to help the field of public administration resolve it but to show how this resolution can create a new understanding of the problem of racial and ethnic prejudice
