Limits Of Love:

Limits of Love Gilbert Meilaender, 2010-11-01 Reflecting upon some problems of the moral life Gilbert Meilaender considers their difficulties within a vision that accentuates not only the limits but also the promise of the Christian story Created by God as finite beings we make particular attachments Redeemed by God for a community transcending nature and history our love always carries us beyond the special bonds of time and place We live therefore with a sense of permanent tension If this tension heightens our sense of the perplexities of life it should not free us from the obligation to probe clarify and where we can resolve some of those difficulties The author holds that theological ethics must clarify the direction for growth and development within the Christian life He undertakes such analysis emphasizing throughout the limits of the human condition the importance of our nature as embodied persons and the danger and pretension in some of our attempts to take control of and master human life This Christian vision is developed in chapters that explore a range of moral problems such as abortion artificial reproduction euthanasia care for defective infants provision of artificial nutrition and hydration and marital and political community These are throughout however theological explorations Taken together they illumine not only particular problems of the moral life but a vision of life classically Christian in its conception humane in its care for particular bonds of attachment and modest in its recognition of moral limits on our ability to seek the good Meilaender has developed a broad recognition both among scholars and students of ethics and among interested general readers He has the capacity to throw fresh angles of vision on complex problems so as to help both the sophisticated and the uninitiated reader to think more penetratingly about moral questions The Limits of Love Rajiva Wijesinha, 2005 **The Limits of Love** Frederic Raphael, 1961 Searching the Limits of Love David J. Hassel, 1985 Off-Limits Love Kay Lyons, 2025-03-18 The line between off limits and happily ever after might be way thinner than they realize Finn Blackwell is not comfortable with strangers Any of them Which means that most days he s perfectly happy working behind the scenes on his farm letting his employees do all the peopling And romance Totally off limits for someone like him or that s what he s always thought Until he meets her The last thing on Makayla Jensen s mind is finding love As a divorced single mom responsible for her ailing uncle s care she just doesn t have the time for it Or the patience So she puts the grumpy but handsome Finn firmly in the friend zone and intends to ignore her attraction to him Except she can t When a particularly pesky skeleton from Mak s past resurfaces will Finn decide their potential future together is worth fighting for Or will his unlucky in love curse prevail once again Off Limits Love book 5 in the Blackwell Brothers series is a sweet emotional and angsty friends to lovers contemporary romance that can be read as a standalone Download today and welcome to the family

The Light of Love Pasquale De Marco,2025-08-18 Love is not always rainbows and butterflies It can be messy painful and even downright ugly But it is also one of the most powerful forces in the universe It has the ability to make us feel alive connected and whole It can also teach us some of the most important lessons about ourselves In The Light of Love we will explore the dark side of love We will look at the ways in which love can hurt us betray us and even destroy us But we will also look at the ways in which love can help us grow heal and become more whole We will begin by examining the different faces of love We will see how love can be passionate possessive and even abusive We will also see how love can be healthy compassionate and transformative Once we have a better understanding of the different faces of love we can begin to explore the ways in which love can hurt us We will look at the pain of loss the sting of betrayal and the agony of heartbreak We will also see how love can lead to addiction codependency and even violence But while love can certainly hurt us it can also help us to heal We will see how love can help us to overcome trauma forgive ourselves and others and find peace and acceptance We will also see how love can inspire us to be more compassionate generous and loving Ultimately the dark side of love is not something to be feared It is simply a part of the human experience By embracing the dark side of love we can learn to appreciate the light side even more We can learn to love more deeply more fully and more compassionately And we can learn to find healing growth and transformation even in the darkest of times The Light of Love is a book for anyone who has ever loved and lost anyone who has ever been hurt by love and anyone who is looking to find healing and growth through love It is a book that will challenge your assumptions about love open your heart to new possibilities and empower you to create a more loving and fulfilling life If you like this book write a review

Parenting with NLP Ranjan K Sahoo, 2025-05-07 Parenting is often described as the most rewarding and the most challenging journey we'll ever embark on. It's filled with moments of pure joy, overwhelming frustration, deep connection, and occasional self-doubt. Many of us enter parenthood armed with love, hopes, and dreams for our children, but without a clear roadmap to navigate the complex emotional terrain that comes with raising another human being. What if there was a way to parent with more clarity, confidence, unconditional love, and connection? What if, instead of reacting to challenges as they arise, you could anticipate, understand, and guide your child's development with purpose and insight? This is the essence of proactive parenting: an approach rooted in mindfulness, emotional intelligence, and strategic communication. It's not about controlling outcomes or striving for perfection. Instead, it's about fostering an environment where both parent and child can grow, adapt, and thrive together.
