## **Finland A Role Model For Europe:**

Dividing United Europe Aline Sierp, Christian Karner, 2020-06-29 Pictures of Angela Merkel in a Nazi uniform the burning of German flags newspaper articles portraying Southern Europe as work shy and Northern Europe as tight fisted The Eurozone crisis has thrown up old stereotypes often digging into well established historical images of the other The conscious or tacit abuse of national prejudices by politicians and parts of the media and the strong emotional reactions among European citizens have caused a lot of public concern about the likely negative implications of such reawakening of national clichés and the newly hardening boundaries they construct for the process of European integration It is evident that current and recent crises confront European citizens with profound dilemmas which they seek to make sense of and in response to which much new political mobilisation takes place At the same time some of the interpretative and political reactions thus generated also have the potential to become very destructive processes putting into question years of integration efforts This book brings together scholars who examine the nexus between economic crisis national identities and the use of historical images and prejudices and stereotypes by focusing particularly on media and political discourses in different European countries In addition to detailed empirical discussions covering diverse national settings across Europe the different contributions discuss and offer a variety of conceptual and methodological approaches within the interdisciplinary study of national identities prejudice and stereotyping in the context of socio economic and political crises This book was originally published as a Special Issue of *National Identities* *European Integration and National Identity* Lene Hansen, Ole Waever, 2003-08-29 The four Nordic countries Denmark Finland Sweden and Norway have all held referenda on their relationship to the European Union in the 1990s These referenda catalysed heated debates should Finland and Sweden give up neutrality Should Denmark follow the European Union's move towards higher degrees of integration And had there been enough change in Norway to reverse the rejection of European Community membership in 1972 These key questions about the future of European integration are addressed in this highly topical book by examining the crucial role played by national identity **European Business Handbook 2003** Adam Jolly, 2003 Markets across the EU are moving towards a free market model with e commerce global competition the euro and enlargement fundamentally changing the way in which European companies are structured and run This European Business Handbook reviews how best to structure and implement European business models **European Integration and Rural Development** Michael Kull, 2016-04-22 To understand fully the process of European integration it is necessary to consider developments at the sub national and local level EU integration scholars have been examining the local level using the concept of multi level governance MLG since the 1990s While MLG was the first concept to scrutinize the position of local levels of public administration and other actors within the EU polity it overestimates the degree of influence it ascribes to local levels particularly as far as the rural is concerned Focusing on Germany and Finland with country specific information from all EU member states this book combines MLG with

the concept of structural constructivism in order to reveal some of the hidden aspects of EU integration Bringing together these concepts and methodologies and replacing mainstream theories of integration with this new approach offers a more accurate picture of multi level interaction in rural policy and of the impacts of European integration at the local level By examining the Community Initiative LEADER and setting this within a discussion of the state and structure of rural development policy this book looks at the challenges opportunities and policy options which are available and have been implemented in rural development It shows that these are often context dependent and that the future of rural development policies their shape and institutional configuration depend on reforms put in place at all levels of governance Finally it argues that the MLG of rural development policy must be built with people who have the know how and the local knowledge to implement development projects and who have made LEADER a success in the past

**The Economics of Education and Training** Christian Dustmann, Bernd Fitzenberger, Stephen Machin, 2008-01-12 Education and training are key to explain the current competitive strengths of national economies While in the past educational and training institutions were often seen as providers of necessary skills for national economies this view has changed with education and training now being seen as a key ingredient for international competitiveness This collection of papers on various aspects of the economics of education and training reflects this new interest

*Non-alignment and Its Origins in Cold War Europe* Rinna Kullaa, 2012-03-13 After World War II Europe stood divided between two clearly defined and competing ideologies and systems of government Within this context of confrontation and mutual hostility between the United States and the Soviet Union Rinna Kullaa provides a unique analysis of the attempts of two European states to successfully avoid absorption into the Soviet bloc This book explores the relations of Yugoslavia and Finland both with the Soviet Union and with each other as they strove to preserve and create their independence Whilst at first attempting the neutralism strategy employed by Finland in the face of Soviet hostility Tito's Yugoslavia instead led the way to the founding of the Non Aligned Movement in 1961 Kullaa's crucial analysis of the formative period of the Cold War will be of vital interest to students and researchers of International Relations European History the Cold War and diplomacy

*The Nordic Countries and the European Union* Caroline Howard Grøn, Peter Nedergaard, Anders Wivel, 2015-02-20 In European policy making the Nordic countries are often viewed as a relatively coherent bloc in international and European affairs the Nordic position has traditionally been conditioned on being different from and better than Europe This book offers a coherent original and systematic comparative analysis of the relationship between the Nordic countries and the European Union over the past two decades It looks at the historical frame institutions and policy areas addressing both traditional EU areas such as agriculture and more nascent areas affecting the domestic and foreign policies of the Nordic countries In doing so it examines how the Nordic approach to European policy making has developed and explains why the Nordic countries are similar in some respects while differing in others when engaging with EU institutions In highlighting the similarities and differences between the Nordic countries it explores what lessons positive and negative may be drawn from this approach for the Nordic countries and other small states This book will be of interest to scholars students and practitioners engaged with the Nordic Countries EU politics and policy making European politics and comparative politics

*EU Enlargement, Region Building and Shifting Borders of Inclusion and Exclusion* Professor James W. Scott, 2012-11-28 The 2004 entry of 10 Central and Eastern European countries along with Malta and Cyprus into the EU has caused a huge shift in the EU's external boundaries The socio economic and political transformations that this shift has caused not only suggest new regional development opportunities but also many potential problems and tensions While the EU insists that enlargement will not signify new divisions processes of inclusion and exclusion and the imposition of visa restrictions on non EU citizens could pose obstacles to co operation conjuring fears of an emerging fortress Europe that effectively divides the continent Illustrated with case studies from Central and Eastern European border areas this book examines capacities for region building across national borders in within the context of EU enlargement synthesizing the various insights provided by local information and suggesting ways forward for the future development of the EU's Wider Europe strategy

*The Ritual of May Day in Western*

Europe Abby Peterson, Herbert Reiter, 2016-05-20 Eric Hobsbawm claimed that the international May Day which dates back to a proclamation in 1889 by the Second International is perhaps the most ambitious of labour rituals. The first international May Day demonstrations in 1890 were widely celebrated across Europe and became the one day each year when organized labour could present its goals to the public, an eight-hour workday being the first concrete demand, shortly followed by those for improved working conditions, universal suffrage, peace among nations and international solidarity. The May Day ritual celebration was the self-assertion and self-definition of the new labour class through class organization. Thus it was trade unions and social democratic and socialist parties throughout Europe which took the initiative and have sustained May Day as a labour ritual to this day. Part I of this theoretically informed volume explores how May Day demonstrations have evolved and taken different trajectories in different political contexts. Part II focuses on May Day rituals today. By comparing demonstration level data of over 2000 questionnaires from six countries including Belgium, Italy, Spain, Sweden, Switzerland and the UK, the reader is able to gain a thorough understanding of how participants are bestowing meaning on May Day rituals. By concluding with reflections on the future of the May Day ritual in Western Europe, this ground-breaking book provides a detailed analysis of its evolution as a protest event. **Europe**, 1994 *International Organizations and the Idea of Autonomy* Richard Collins, Nigel D. White, 2011-04-20 This volume explores the idea of intergovernmental organizations as autonomous international actors. Including contributions from leading scholars in the fields of international law, politics and governance, it addresses themes of institutional autonomy in international law and governance from a range of theoretical and subject-specific contexts. The collection looks internally at aspects of the institutional law of international organizations and the workings of specific regimes and institutions as well as externally at the proliferation of autonomous organizations in the international legal order as a whole.
