Where the Magic Happens Caspar Craven, 2018-05-17 In June 2009 Caspar and Nichola created a plan to sail around the world with their young children Most people thought they were crazy But over the past seven years they've embraced every moment of this momentous chapter of their lives Five years of planning the vision the values the practicalities the realities the excitement the highs the lows and the seemingly adventure stopping obstacles led to two wonderful years of living their dream the magical and the scary enjoying life and learning as a family This is Caspar's story It's a story of a fabulous sailing adventure but it's also so much more than that it's an inspirational tale for all those wishing they could do the same it's a

practical guide to show you just how you can make it happen it s a motivational story of leadership and teamwork within a family and it s a funny heart warming tale of slightly unconventional family life The fascinating narrative of Caspar s story is accompanied by useful text features such as tip boxes sidebars and chapter summaries so that the reader can easily extrapolate the necessary nuggets about how they can make the dream a reality [Book Review Index](#) ,2003 Vols 8 10 of the 1965 1984 master cumulation constitute a title index **One Parent □ One Language** Susanne Döpke,1992-11-13 This volume examines the relationship between young children s degrees of bilingualism and features of the verbal input which these children receive from their parents In particular it seeks to explore the following question to what extent are families who follow the one parent one language principle and whose children become active bilinguals this way different from families who take the same approach but whose children never develop an active command of the minority language Case studies of six first born children growing up with German and English were done during the children s third year of life The input the children received was examined for parents consistency of language choice parents insistence that the children use the appropriate language parents sensitivity towards the children s interactional and attentional needs and parents orientation towards the teaching of formal aspects of the linguistic system The findings support the notion that raising one s children bilingually according to the one parent one language principle involves great efforts on the side of the minority language speaking parent Importantly they indicate that these efforts must be invested in the child s education turn by turn
