reforms Vietnam implemented in the 1980s ostensibly neutral guides have repeatedly represented events particularly those related to the Vietnam War in ways that favor the global ambitions of the United States Tracing a history of ideological assertions embedded in travel discourse Laderman analyzes the use of tourism in the Republic of Vietnam as a form of Cold War cultural diplomacy by a fledgling state that according to one pamphlet published by the Vietnamese tourism authorities was joining the family of free nations He chronicles the evolution of the Defense Department pocket guides to Vietnam the first of which published in 1963 promoted military service in Southeast Asia by touting the exciting opportunities offered by Vietnam to sightsee swim hunt and water ski Laderman points out that despite historians ongoing and well documented uncertainty about the facts of the 1968 Hue Massacre during the National Liberation Front's occupation of the former imperial capital the incident often appears in English language guidebooks as a settled narrative of revolutionary Vietnamese atrocity And turning to the War Remnants Museum in Ho Chi Minh City he notes that while most contemporary accounts concede that the United States perpetrated gruesome acts of violence in Vietnam many tourists and travel writers still dismiss the museum's display of that record as little more than propaganda
