Divining the Woman of Endor J. Kabamba Kiboko, 2017-02-23 An examination of the language of divination in the Hebrew Bible particularly in 1 Samuel 28 3 25 the oft called Witch of Endor passage Kiboko contends that much of the vocabulary of divination in this passage and beyond has been mistranslated in authorized English and other translations used in Africa and in scholarly writings Kiboko argues that the woman of Endor is not a witch The woman of Endor is rather a diviner much like other ancient Near Eastern and modern African diviners She resists an inner biblical conquest theology and a monologic authoritarian view of divination to assist King Saul by various means including invoking the spirit of a departed person Samuel Kiboko carries out a Hebrew word study shaped by the theories of Mikhail M Bakhtin regarding the utterance heteroglossia and dialogism in order to understand the designative connotative emotive and associative meanings of the many divinatory terms in the Hebrew Bible She then examines 1 Samuel 28 and a number of prior translations thereof using the ideological framework of African feminist postcolonial biblical interpreters and translation theories to uncover the hidden ideology or transcript of these translations Finally using African contextual cultural hermeneutics and cross cultural translation theory Kiboko offers new English French and Kisanga translations of this passage that are both faithful to the original text and more appropriate to an inculturated liberation African Christian hermeneutic theology and praxis

The Social Universe of the English Bible Naomi Tadmor,2010-10-28 This book sheds light on the shaping of the English Bible and its impact on early modern English society and culture **HCSB - Bible Translation** E. Ray Clendenen,David K. Stabnow,2013-03-01 In Genesis 3 1 the serpent asked the woman Did God really say You can t eat from any tree in the garden What has God really said Before we can obey Him we must know what He has said The Psalmist prayed twice in his affliction Give me life through Your word Ps 119 25 107 When Jesus was afflicted by the Devil in the wilderness Mt 4 1 11 He defended Himself with the sword of the Spirit Eph 6 17 God s Word But Christians must know what God has said if we are to find strength and healing from affliction and defense against the Devil Bible translation is not a casual enterprise because it involves bringing the life saving Word of God to people in their own language And selecting a Bible translation is not on the order of picking out a sweater It s more like picking a doctor someone you can trust This book is about how Bible translation is done And it commends a particular translation the Holman Christian Standard Bible HCSB as a trustworthy guide to what God has really said Translating Scripture for Sound and Performance James A. Maxey,Ernst Wendland,2012-11-01 The various studies presented in this anthology underscore the foundational matter of translation in biblical studies as understood from the specific perspective of Biblical Performance Criticism If the assumption for the biblical messages being received is not individual silent reading then the question becomes how does this public

performative mode of communication affect the translation of this biblical material Rather than respond to this in general theoretical terms most in this collection of articles offer specific applications to particular Hebrew and Greek passages of Scripture Almost all the authors have firsthand experience with the translation of biblical materials into non European languages in communities who maintain a vibrant oral tradition The premise is that the original Scriptures which were composed in and for performance are being prepared again for live audiences who will receive these sacred texts not primarily in printed form but first and foremost in community by means of oral and visual media This volume is an invitation for others to join us in researching more intensely this intersection of sound performance and translation in a contemporary communication of the Word

Optimality in Translation Ali Darwish, 2008 Translation may be regarded as a response to a problem of communication usually between two language bound cultural entities The act itself is a multi dimensional and multi layered process involving in one consensual domain problem solving and decision making This book explores translation as a decision making process under constraints It examines these constraints and develops a three tier decision based translation model that can be used in self evaluation of translations and in translation quality assessment The model is anchored in optimality theory and regards translation as a temporary system of conflicting forces embodied by constraints yielding an optimal translation within these constraints
