From The Author Of Nick Ascroft:

From the Author of Nick Ascroft, 2000 Nick Ascroft is one of the most gifted young poets to emerge in New Zealand in recent years He writes with astonishing dexterity in a wide range of voices and styles but underlying the verbal fireworks is a deeply felt engagement with life in New Zealand today Moral Sloth Nick Ascroft, 2021-05-06 We don't need your whataboutery and moral prevarication It s time to stand up and own your own culpability complicity and but I joke Sit thee down Hoist up that unethical hamburger and deploy your face into it Some people are part of the solution and the rest of us find the people who are part of the solution to be annoying We are the problem We will not be moved We will be moved if you shout at us but we re not going to like it These poems whistle while Rome burns They whistle with words in a language plump with shoulds and oughts and sorries and shouldn t ves They whistle Beethoven so badly the old man's bones are transformed into a sustainable turbine They only stop whistling to consider whether cheap comic cynicism is the kind of wry and arch whimsy no one needs least of all this doomed world of human apologists The poems lift their chins with pride The poems remain unapologetic No I am mistaken They are desperate sickening in their apology Nick Ascroft s Moral Sloth is among other things a virtuoso display of formal skills He does a particularly classy line in sonnets He can rhyme as tellingly as Alexander Pope or the Byron of Don Juan and c How to Win at 5-a-Side Nick Ascroft, 2016-08-25 The culmination of years of 5 a side football experience this celebrated manual to scaled down soccer success covers every element of the game and features expert advice on how to organise a winning team Written with authority passion and a sense of fun How to Win at 5 a side covers all of the game's essential skills including goalkeeping defending marking and shooting as well as other less conventional but still important components such as maintaining team moral buttering up the referee and wasting time when your team is ahead Illustrated throughout with photographs and diagrams to show real game situations and featuring exclusive contributions from former professional footballers and coaches How to Win at 5 a side is all you need to take your team to the next level Nonsense Nick Ascroft, 2003 This collection of poetry includes poems of startling virtuosity and disconcerting humor These poems are far from nonsense however as they repeatedly offer a serious message or emotional charge **Ultra Performance** Paul Moore, 2014-04-10 The world's leading endurance athletes are not only some of the fittest people on the planet they are also among the toughest mentally To train and race at the highest level of competition over hundreds and sometimes thousands of miles takes preparation dedication and the ability to push the body and mind beyond conventional limits Ultra Performance offers an insight into the psychology of these athletes Having interviewed fourteen ultra athletes Paul Moore distils the dynamics of the mental toughness they required the motivation focus and ability to keep the mind positive deep in the heart of fatigue What did it take for instance for Rachel Cadman to eat the elephant of the Arch to Arc running from London to Dover swimming the Channel then cycling to Paris And to win That takes steeliness beyond all mere effort pushing through and improvising when necessary The stories of these hard fought wins

feature strongly in the contributions from Brett Sutton world renowned triathlon coach and Craig Alexander one of the greatest athletes in the history of Ironman Others like Dee Cafari the first woman to circumnavigate the world solo in both directions required the resilience to overcome challenges they had set themselves With working examples of the implementation of their mental strategies Ultra Performance not only gives an insight into the toughest moments these professional athletes have ever faced but also offers advice to readers on how they can adapt and employ these techniques for themselves often to the non sporting pursuits of everyday life The Complete Guide to Clinical Massage Christopher M. Norris, 2013-11-15 A practical guide to clinical massage techniques This book is for a burgeoning specialist area for fitness professionals and physiotherapists tackled in Chris Norris s clear and accessible style Packed with photographs and clear descriptions The e book version also contains video clips showing the massage techniques in action From the tools of the trade to how to use techniques most effectively on patients this is a must have guide for all trainee and practising masseuses physiotherapists sports therapists and fitness professionals **Postcolonial Gateways and Walls** Daria Tunca, Janet Wilson, 2016-11-07 Metaphors are ubiquitously used in the humanities to bring the tangibility of the concrete world to the elaboration of abstract thought Drawing on this cognitive function of metaphors this collection of essays focuses on the evocative figures of the gateway and the wall to reflect on the state of postcolonial studies Some chapters on such topics as maze making in Canada and the Berlin Wall in the writings of New Zealand authors foreground the modes of articulation between literal borders and emotional dis connections while others examine how artefacts ranging from personal letters to clothes may be conceptualized as metaphorical gateways and walls that lead or conversely regulate access to specific forms of cultural expression and knowledge Following this line of metaphorical thought postcolonial studies itself may be said to function as either barrier or pathway to further modes of enquiry This much is suggested by two complementary sets of contributions on the one hand those that contend that the canonical centre periphery paradigm and the related writing back model have prevented scholars from recognizing the depth and magnitude of cross cultural influences between civilizations on the other those that argue that the scope of traditional postcolonial models may be fruitfully widened to include territories such as post imperial Turkey a geographical and cultural gateway between East and West that features in several of the essays included in this collection Ultimately all of the contributions testify to the fact that postcolonial studies is a field whose borders must be constantly redrawn and whose paradigms need to be continually reshaped and rebuilt to remain relevant in the contemporary world in other words the collection s varied approaches suggest that the discipline itself is permanently under construction Readers are therefore invited to perform a critical inspection of the postcolonial construction site CONTRIBUTORS Vera Alexander Elisabeth Bekers Devon Campbell Hall Simran Chadha Carmen Concilio Margaret Daymond Marta Dvo k Claudia Dupp Elena Furlanetto Gareth Griffiths John C Hawley Sissy Helff The Stupid Footballer is Marie Herbillon Deepika Marya Bronwyn Mills Padmini Mongia Golnar Nabizadeh Gerhard Stilz

Dead Paul McVeigh, 2013-07-04 As footballers biographies go this is special I can t remember reading another that seems to take the reader inside the subject recalling his thought processes as they occurred from boyhood to the Premier League It s riveting stuff and comes with a message for everyone about how ambition can be fulfilled I wish I d read it 50 years ago Patrick Barclay football writer Professional football in the modern era is played every bit as much in the mind as on the pitch More and more it s becoming clear that natural talent is nowhere near enough to sustain a career in the modern game Players need to be smart not academically but in terms of their thinking The ones who are dedicated with mental resilience and a winner s psychology are prospering and will continue to do so as the game evolves The stupid footballer is dead Ex Premiership footballer Paul McVeigh looks back on his professional career and how he learned to play the mental game and gives a look behind the scenes into the approach of some of the game s highest performers This book will appeal to sports fans and players who want to get inside the head of top professionals And if there is one book to be read by players at all levels who want to improve their performance on the pitch then this is it from someone who hit the heights in top level sport and is driven to share what he learned along the way World Literature Today ,2002 Landfall Charles Brasch,2009
