## From Our Native Clay:

*From Our Native Clay* American Ceramic Arts Society, 1987 Ironically it was the Industrial Revolution of the nineteenth century that made the concept of art pottery possible For the most part this body of work was produced in reaction to industry s domination of production techniques taste and design The various labels of Art Pottery Art Furniture Art Metal etc have their origin in mid nineteenth century England where Summerly s Art Manufactures an early experiment in enlisting artists to design for industry was perhaps the first to use the art prefix But even more important was John Ruskin who condemned artistic objects made by machines as worthless He was repelled by the precision and repetition of industrial production For him beauty lay in the variations created by the hand of an artist or craftsman Introduction **From Our Native Clay** Martin Eidelberg, 1987 **The Clay-worker** , 1917 **Annual Mine Report** Industrial Commission of Ohio. Davies, 2012-04-26 Davies examines the work of four of the most important twentieth century poets who have explored the epic tradition Some of the poems display an explicit concern with ideas of American nationhood while others emulate the formal ambitions and encyclopaedic scope of the epic poem The study undertakes extensive close readings of Hart Crane s *The Bridge* 1930 Allen Ginsberg s *Howl* 1956 and *The Fall of America* Poems of These States 1965 71 1972 James Merrill s *The Changing Light at Sandover* 1982 and John Ashbery s *Flow Chart* 1991 Although not primarily an account of a Whitmanian lineage this book considers Whitman s renegotiation of the dialectic between the public and the private as a context for the project of the homosexual epic arguing for the existence of a genealogy of epic poems that rethink the relationship between these two spheres If as Bakhtin suggests the job of epic is to accomplish the task of cultural national and political centralization of the verbal ideological world the idea of the homosexual epic fundamentally problematizes the traditional aims of the genre *The Materials of Construction.
