The Campus Novel, 2019-01-04 The Campus Novel Regional or Global presents innovative scholarship in the field of academic fiction Whereas the campus novel is traditionally considered a product of the Anglo American world the present study opens a new perspective it elucidates the intercultural exchange between the well established Western canon of British and American academic fiction and its more recent regional response outside the Anglo American territory **The Global Cold War on Campus** Kyara Anne Klausmann, 2023-11-06 How and why did students at Kabul University engage in political activism or refrained from it between 1964 and 1992 Based on oral history interviews with former students this book reveals how they as many others around the world at the same time were galvanized by and disappointed with promises of progress dominating local and international politics During the 1960s the international influences on campus encouraged students engagement with competing political ideologies Collective student protest against the monarchy turned into hostilities between opposing political groups within the student body claiming to lead Afghanistan towards independence and prosperity After the coup d tat by the People s Democratic Party of Afghanistan PDPA in 1978 none of the ideologies which had previously incited students provided hope for a better future anymore Many students who had fought for the PDPA earlier were repelled by the government s violence and those who stood up against the regime were persecuted and fled the country Overall the dynamics of political activism at Kabul University reflect the deep intertwinement of the Global Cold War and local struggles for inclusion and independence An Ultimate Guide for Campus Placement Prof. Amit Bankar, Dr. Rasika Chafle, 2025-03-29 An Ultimate Guide for Campus Placement is a comprehensive resource designed to help students confidently face the competitive world of campus recruitment Written by Amit Bankar an industry and academic expert with 24 years of experience this book provides a step by step thoughtful approach to mastering aptitude tests group discussions personal interviews resume building and communication skills It covers essential strategies to crack technical and HR interviews offering real life examples practical tips and expert insights The book also sheds light on the expectations of recruiters and how students can align their skills accordingly Whether you are an engineering management or any professional course student this guide will equip you with the knowledge and confidence needed to secure your dream job With a focus on industry trends skill development and placement strategies this book serves as a one stop solution for students aspiring for a successful career If you are preparing for campus placements competitive exams or job interviews this book is your ultimate companion to stand out in the selection process Community, Food Insecurity, and a Global Perspective on Campus Food Pantries Sonya Sharififard, 2024-12-28 This book explores food accessibility and its relationship to food security in communities representing high populations of college and university students Each chapter offers readers a vivid and multifaceted perspective on food practices cultural and social complexities and the current food system Using insights from the multidisciplinary fields of food studies educational leadership and human geography this book engages the

offer provocative and challenging insights into non hierarchical leadership The second section features case studies and other examples from the practical realm Contributions come from a wide array of programs and institutions from community colleges to Ivy League institutions to urban public universities Because campuses are increasingly diverse leadership programs must not only acknowledge but embrace the multiplicity of identities personified in their students Accordingly the next section offers essays and case studies on complex issues of intersection of leadership and identity The book concludes with two chapters essential for those seeking to access leadership development one focusing on the need for assessment the other containing an account of the first ever instrument designed specifically to access non hierarchical leadership written by the creator of this instrument *Ohio State University Monthly* Ohio State University.
