Portland's Good Life R. Bruce Stephenson, 2021-03-10 Iconic urbanist Lewis Mumford stressed the role of a well constructed city in the development of the good life championing pedestrian scaled sustainable cities In Portland's Good Life R Bruce Stephenson examines how Portland the one city in America that adopted Mumford's vision became a model city for living the good life Stephenson traces Portland's success to its grass roots governing system its housing and climate protection initiatives and most of all its citizens devoted to the public good all of which have resulted in the construction of a city that honors the humanity of its people

Portland Walter Fortner, 2007-08-01 The year was 1901 and Portland Oregon was celebrating its 50th birthday having grown from a community of 821 people to become the largest city in the Pacific Northwest A small change in postal regulations that year opened the door to the production of the picture postcard and collecting these cards quickly became a popular hobby Many of these cards survive today and provide a glimpse of life in days gone by Collected here are many rare images of Portland grand hotels and magnificent buildings the natural beauty of the surrounding area the great bridges and splendid sailing ships The world's fair honoring the centennial of the Lewis and Clark expedition and the annual Rose Festival inspired enough cards to fill their own books

Modernism in the Green Julia E. Daniel, Margaret Konkol, 2020-04-15 Modernism in the Green traces a trans Atlantic modernist fascination with the creation use and representation of the modern green From the verdant public commons in the heart of cities to the lookout points on mountains in national parks planned green spaces serve as felicitous stages for the performance of modernism In its focus on designed and public green zones Modernism in the Green offers a new perspective on modernism's overlapping investments in the arts politics urbanism race class gender and the nature culture divide This collection of essays is the first to explore the prominent and diverse ways greens materialize in modern literature and culture along with the manner in which modernists represented them This volume presents the idea of the green as a point of exploration as our contributors analyze social organic spaces ranging from public parks to roadways and refuse piles Like the term green one that evokes both more than human natural zones and crafted public meeting places these chapters uncover the social and spatial intersection of nature and culture in the very architecture of parks gardens buildings highways and dumps This book argues that such greens facilitate modernists exploration of how nature can manifest in an era of increasing urbanization and mechanization and what identities and communities the green now enables or prevents
