Germinie Lacerteux:

Germinie Lacerteux Edmond de Goncourt, Jules de Goncourt, 2022-11-20T00:07:54Z Germinie Lacerteux had a rough childhood in the French countryside but when she finds employment as a maidservant in Paris her life seems to be taking a turn for the better Her mistress Mademoiselle de Varandeuil treats her fairly and in Jupillon son of a local dairy shop owner she finds a secret lover But her generous nature and self sacrificial spirit make her vulnerable to his abuse and depravity Her boundless love and loyalty will ultimately plunge her into debt alcoholism nymphomania and depression and a never ending struggle to hide the dark side of her life from her mistress In this their fourth novel the brothers Edmond and Jules de Goncourt took inspiration from events close to home the passing of their maidservant Rose revealed her sordid hidden life much like Germinie s They called the novel that arose from their shock and surprise at Rose s secrets their clinic of love and it was met with high praise and utter disgust alike A young mile Zola adored the novel and Vincent van Gogh called it life as it is making the book one of the subjects of a still life Other contemporary writers were less enthusiastic calling it putrid and chiseled mire This could hardly have been a surprise to the Goncourt brothers for they already warned in the preface this book furnishes entertainment of a melancholy violent sort calculated to disarrange the habits and injure the health of the public This book is part of the Standard Ebooks project which produces free public domain ebooks **Sexualizing Power**

in Naturalism Irene Gammel, 1994 Presenting a revisionary reading of German Canadian and American texts such as Fanny Essler Settlers of the Marsh and Sister Carrie Gammel English U of Prince Edward Island attributes to naturalism a predominantly male genre the appropriation of a disruptive female sexuality not so much to liberate it from Victorian repression as to contain it within the male boundaries of naturalism Annotation copyright by Book News Inc Portland OR

The European Women's History Reader Fiona Montgomery, Christine Collette, 2002 The European Women s History Reader is a fascinating collection of seminal articles and extracts exploring the social economic religious and political history of women across Europe since the late eighteenth century This ambitious volume is arranged into four chronological sections all with their own introductions which provide context for the chapters that follow The collection also includes a useful general introduction which makes the articles accessible to students and helps to define this increasingly important area of study

European Literature from Romanticism to Postmodernism Martin Travers, 2006-08-15 An anthology of key theoretical writings by the major representatives of the schools and movements of European literature Each chapter in this book is devoted to one particular school of movement from within a body of literature from romanticism realism and modernism through to the literature of political engagement of the 1920s and 1930s *A New History of French Literature* Denis Hollier, 1998-08-19 This splendid introduction to French literature from 842 A D to the present decade is the most imaginative single volume guide to the French literary tradition available in English *Realism and Naturalism* Richard Daniel Lehan, 2005 In this intellectual and literary history of American British and Continental novels of realism and

naturalism from 1850 to 1950 Richard Lehan argues that literary naturalism is a narrative mode that creates its own reality Employing this strategy allows and encourages intertextuality one novel talking or responding to another Figures of the World Christopher Laing Hill, 2020-07-15 Figures of the World The Naturalist Novel and Transnational Form overturns Eurocentric genealogies and globalizing generalizations about world literature by examining the complex contradictory history of naturalist fiction Christopher Laing Hill follows naturalism's emergence in France and circulation around the world from North and South America to East Asia His analysis shows that transnational literary studies must operate on multiple scales combine distant reading with close analysis and investigate how literary forms develop on the move The book begins by tracing the history of naturalist fiction from the 1860s into the twentieth century and the reasons it spread around the world Hill explores the development of three naturalist figures the degenerate body the self-liberated woman and the social milieu through close readings of fiction from France Japan and the United States Rather than genealogies of European influence or the domination of cultural peripheries by the center novels by Émile Zola Tayama Katai Frank Norris and other writers reveal conspicuous departures from metropolitan models as writers revised naturalist methods to address new social conditions Hill offers a new approach to studying culture on a large scale for readers interested in literature the arts and the history of ideas Naturalist Fiction David Baguley, 1990 This is the first major study of naturalist fiction as a distinct literary genre It focuses mainly on French naturalist literature analysing a number of key works in detail but also draws examples from other national traditions particularly from the English novel Professor Baguley questions and revises many traditional assumptions on important theoretical issues such as the nature of literary history the concepts of realism and naturalism and the relations between science and literature He demonstrates the prevalence of certain recurrent generic patterns themes and techniques in the general body of naturalist literature ranging from disquieting tragic developments to the most outrageous ironic and parodic effects He argues persuasively that far from being a mere record of the external aspects of reality naturalist fiction is a literature of scandalous provocation which employs the strategies of realist art to convey a profoundly disturbing vision of that reality **The Servant's Hand** Bruce Robbins, 1993 A work of innovative literary and cultural history The Servant's Hand examines the representation of servants in nineteenth-century British fiction Wandering in the margins of these texts that are not about them servants are visible only as anachronistic appendages to their masters and as functions of traditional narrative form Yet their persistence Robbins argues signals more than the absence of the ordinary people they are taken to represent Robbins's argument offers a new and distinctive approach to the literary analysis of class while it also bodies forth a revisionist counterpolitics to the realist tradition from Homer to Virginia Woolf Originally published in 1986 Columbia University Press The Servant's Hand is appearing for the first time in paperback **Edmond de Goncourt and the Novel** Katherine Ashley, 2021-11-22 Edmond de Goncourt's four solo novels are not simply extensions of the Goncourt brothers' joint project but attempts to deviate from the Naturalism with which their name

had come to be associated By analysing paratexts the relationship between documentation and fiction as well as plot devices and themes this study links the evolution of Goncourt s fiction to wider literary debates surrounding Naturalism Decadence and the renewal of the novel in fin de si cle France In bringing Goncourt s writings to an English speaking public it will be of interest to students and scholars of the literary history of late nineteenth century France The New Nineteenth Century Barbara Leah Harman,Susan Meyer,2012-11-12 This book includes essays on writers from the 1840s to the 1890s well known writers such as Anne Bronte Wilkie Collins and Bram Stoker lesser known writers such as Geraldine Jewsbury Charles Reade Margaret Oliphant George Moore Sarah Grand and Mary Ward The contributors explore important thematic concerns the relation between private and public realms gender and social class sexuality and the marketplace and male and female cultural identity Proust, the Body and Literary Form Michael R. Finn,1999-03-25 This 1999 study examines Proust s involvement with fin de si cle hysteria and its impact on the writing of his great novel *The Westminster Review* ,1889

The Adventures of Louis de Rougemont Louis de Rougemont,2019-12-16 In The Adventures of Louis de Rougemont the author presents an extraordinary narrative that straddles the lines between autobiography and adventure De Rougemont s literary style is imbued with a vivid almost fantastical quality that captures the imagination immersing readers in his purported experiences in Australia and the South Seas Written in the late 19th century amidst the burgeoning interest in exploration and colonialism this work reflects the era s fascination with far off lands and the sublime encounters they promise all while offering insights into themes of survival identity and the nature of truth versus fiction Louis de Rougemont originally known as Ludwig Pieman was an adventurer and self proclaimed explorer whose own life was as colorful as the narratives he spun His background in Switzerland and a passion for storytelling led him to present exaggerated tales of his travels tapping into the zeitgeist of an age that celebrated the exploration of the unknown The dubious authenticity of his accounts raises questions about narrative reliability offering a rich field for scholarly exploration regarding the relationship between reality and fiction This book is highly recommended for readers interested in adventure narratives exploration literature and the intricacies of storytelling De Rougemont s tale not only entertains but also serves as a catalyst for discussions about the boundaries of truth in literary adventure making it a valuable addition to both casual readers and scholars alike

The Symbolist Movement in Literature Arthur Symons,1919 *Edmond and Jules de Goncourt* Marie Belloc Lowndes,1895 Selections from the Goncourt brothers journal and letters interspersed with commentary and biographical narrative *Publications of the Modern Language Association of America* Modern Language Association of America,1916 Vols for 1921 1969 include annual bibliography called 1921 1955 American bibliography 1956 1963 Annual bibliography 1964 1968 MLA international bibliography **The Working-Classes in Victorian Fiction** Peter Keating,2016-07-22 First published in 1971 The book examines the presentation of the urban and industrial working classes in Victorian fiction It considers the different types of working men and women who appear in fiction the environments they

are shown to inhabit and the use of phonetics to indicate the sound of working class voices Evidence is drawn from a wide range of major and minor fiction and new light is cast on Dickens Mrs Gaskell Charles Kingsley George Gissing Rudyard Kipling and Arthur Morrison This book would be of interest to students of literature sociology and history **The Fortnightly Review** ,1896 **Art in Literature, Literature in Art in 19th Century France** Emilie Sitzia,2011-12-08 The traditional relationship between painting and literature underwent a profound change in nineteenth century France Painting progressively asserted its independence from literature as it liberated itself from narrative obligations whilst interrogating the concept of subject matter itself Simultaneously the influence of art on the writing styles of authors increased and the character of the artist established itself as a recurring motif in French literature This book offers a panoramic review of the relationship between art and literature in nineteenth century France By means of a series of case studies chosen from key moments throughout the nineteenth century the aim of this study is to provide a focused analysis of specific examples of this relationship revealing both its multifaceted nature as well as offering a panorama of the development of this on going and increasingly complex cultural relationship From Jacques Louis David s irreverence for classical texts to Victor Hugo s graphic works from Edouard Manet s illustrations to Vincent Van Gogh s paintings of books from Honor de Balzac s Unknown Masterpiece to Joris Karl Huysmans s A Rebours this interdisciplinary investigation of the links between literature and art in France throws new light on both fields of creative endeavour during a critical phase of France s cultural history
