Humble, 2003-09-02. Containing entries on over four hundred authors of fiction, poetry and drama from Germany, Austria and Switzerland, this invaluable work of reference presents material of a range and depth that no other book on the subject in English attains. For the second edition, the entries have been updated to include the most recent works of German literature. A number of new entries have been added, dealing in particular with the East German literary scene and the changing literary landscape after reunification. In addition to basic biographical facts, the Companion offers summaries, information on involvement in literary groups and political developments, schools and movements, critical terms and aspects of the other arts, including film. New Quarterly Review; Or, Home, Foreign and Colonial Journal, 1844. **Brecht's Poetry of Political**

Exile Ronald Speirs, 2000-11-02. Bertolt Brecht, one of the most influential European playwrights of the twentieth century, was also a poet of distinction. This volume is the first comprehensive study devoted to his most important collection of political poetry, the Svendborg Poems. The contributors analyse Brecht's work critically and historically, discussing it in relation to questions of poetics, political commitment, exile, propaganda, rhetoric and the scope and limitations of political poetry. Links are also drawn with the work of German, Soviet and English poets of the period and with later German poets.

Challenging Modernity Mark A. Pegrum, 2000-04-01. When Dada burst onto the European stage in 1916, it shocked and scandalized the public of its day with art forms, ideas and attitudes which were so revolutionary that it is only in recent decades that they have begun to find recognition within the broad cultural movement known as postmodernism. In fact, many postmodern artistic and intellectual tendencies can be seen to have descended via an underground tradition from the experiments of the Dadaists earlier this century. Yet the existence of this close link has been largely neglected by scholars. This book, for the first time, examines in depth the link between modernism and postmodernism and demonstrates the extensive similarities as well as the few crucial differences between the ideas and art of the Dadaists on the one hand and those of contemporary postmodern thinkers and artists on the other. Although they did not have access to postmodern terminology, it is clear that many Dadaists were essentially attempting to escape constrictive Enlightenment and modernist structures in order to create a proto-postmodern space of difference, otherness and flux. Their successes, failures and compromises in this respect are very illustrative for anyone interested in the progress of our own intellectual and artistic culture in its wavering between modern and postmodern. This book offers a much-needed historical perspective and solid basis for the ongoing debate on postmodernism. **Brahms Among Friends** Paul Berry, 2014-07-18. Brahms Among

Friends identifies patterns of listening performance and composition among close friends of Johannes Brahms and explores how those patterns informed the creation and reception of his music in the intimate genres of song sonata trio and piano miniature Among the tangled threads of counterpoint and circumstance that bound Brahms to his acquaintances was the technique of allusive musical borrowing whereby a brief passage from a familiar work was drawn into the fabric of a new composition For the specific listeners whose habits of mind and musicianship he knew best allusive borrowings could become rhetorically charged gestures persuasively revising the meanings his music conveyed and the interpretive strategies it invited Primary documents original manuscripts music analytic comparison and kinesthetic parameters experienced in the act of performance all work in tandem to support ten case studies in the interplay between Brahms's small scale works and the women and men who encountered them before publication Central characters include violinist Joseph Joachim singers Amalie Joachim Julius Stockhausen and Agathe von Siebold composers Heinrich and Elisabeth von Herzogenberg and pianists Emma Engelmann and Clara Schumann For these musicians and for the composer himself Brahms's allusive music served a broad variety of emotional needs and interpersonal ends Yet across diverse repertoire and interdisciplinary correlates ranging from ethnography to psychoanalysis each case study furthers a single underlying aim to reconstruct the mutually dependent perspectives of historically situated agents and restore forgotten features of their communicative landscapes as bases for both musical and historical scrutiny
