Hooke,2023-05-22 Drawing on performance studies and sacramental and liturgical theology Ruthanna B Hooke develops a

theology of proclamation grounded in the body's experience of preaching The author explores the claim that preaching is a sacramental event of communion with the triune God by comparing the steps involved in voice production with the fourfold shape of the Eucharist This comparison yields a description of preaching as an event of self offering that allows space for the humanity of the preacher and as an encounter with the Holy Spirit that is communal and prophetic Preaching draws participants into Christ's dying and rising and hence into a mode of power known in vulnerability Calling hearers into the eschatological event of the resurrection preaching inherently moves toward proclamation on political and ethical issues Hooke uses this theological framework to offer ways of preaching on environmental crisis and on racism The author calls preachers to embodied engagement with preaching and describes a way for preachers to bear witness to Jesus Christ not only in the content of their proclamation but in their way of being in the preaching event

T&T Clark Handbook of Sacraments and Sacramentality Martha Moore-Keish, James Farwell, 2022-12-29 Introducing readers to the contemporary field of sacramental theology this volume covers the biblical and historical foundations a survey of the state of the discipline and a collection of constructive essays representing major themes practices and approaches to sacraments and sacramentality in the contemporary world The volume starts with a set of foundational essays that offer broad introduction to the field of sacramental theology from contemporary scholars analysing a number of historical figures in order to illumine and inform contemporary sacramental theology The second part of the volume is dedicated to a series of essays on sacramentality and includes attention to elements of space time ritual action music and word all as aspects of what Christians have termed sacramental reality The third set of essays includes attention to each of the seven practices that have most commonly been termed sacraments in Christian traditions baptism eucharist Lord's Supper confirmation confession forgiveness and reconciliation marriage ordination and anointing The final part of this volume features scholars who are working on sacraments in conversation with contemporary academic disciplines critical race theory queer theory comparative theology and disability studies

Drenched in Grace Lizette Larson-Miller, Walter Knowles, 2013-06-26 The importance of baptism within Christian history theology and practice is of the first order Rooted in Christian Scripture baptism is initiation into Jesus Christ and the sacramental beginning of engagement with the church the body of Christ In recent decades the relationship between baptismal theology and ecclesiology has changed Rather than focusing solely on the implications of baptism for individuals the center of theological conversation has moved increasingly to the nature of baptism as formative of the church One of the pioneers in exploring this theological issue in the United States has been the Rev Dr Louis Weil who from the time he helped author the 1979 Book of Common Prayer has advocated for an approach called baptismal ecclesiology In a number of essays since the 1980s Dr Weil has encouraged an increasingly ecumenical conversation around this particular approach to ecclesiology This ecumenical collection of essays by a distinguished and international group of sixteen scholars continues the conversation on liturgy and ecclesiology begun by Fr Weil

Sacramentality Renewed Lizette Larson-Miller, 2016-04-11 Tracing developments in sacramental theology over the past twenty five years this study explores a growing ecumenical dynamism in both the academic study of sacramentality and its centrality in pastoral applications But how does ecumenical excitement in a renewed discovery of sacramental theology fit with different theologies of church and different pastoral beliefs and practices How does the universality of academic accessibility in the form of an expansive ecumenical sharing of perspectives meet the particularities of pastoral reality and ecclesial polity Arguing in favor of fruitful ecumenical conversation this book also focuses on the crucial interaction of ecclesiology liturgical practice and sacramentality which raises the need for a creative tension between the particularities of a given ecclesial system and the catholicity of Christian sacramentality Using Anglican sacramental theologies and Anglicanism as vehicles of exploration this study contributes to an overview of the state of the field of sacramental theology in the twenty first century while challenging the assumption that one size fits all In sacramental theology as in other important areas of Christian life unity in diversity may be the basis for authentic lived sacramentality

Theological Radicalism and Tradition Howard E. Root, 2017-10-30 The limits of radicalism are those which end not in chaos but in the breaking of fresh ground Howard E Root Previously unpublished and only recently rediscovered by Dr Christopher R Brewer in an uncatalogued box in the archives of Lambeth Palace Library Canon Howard E Root s 1972 Bampton Lectures The Limits of Radicalism have to do with nothing less than what theology is a topic no less relevant today than it was in 1972 Against the radical reductionism of his time Root defended the integrity of theology and theological truth Advocating a backward looking radicalism he thought that tradition should display recognisable continuity and yet at the same time against reductionistic tendencies that it might be enriched and enlarged via a wide variety of additive imagery including though not limited to poetry and pop art music and even television We must begin where we are said Root for we cannot in the manner of Leonard Hodgson think ourselves into the minds and feelings of men 2000 years ago In this volume which begins with a substantial mostly biographical introduction Dr Brewer argues that Root a backward looking radical who defended metaphysics and natural theology and insisted that theologians look to the arts as theological resources anticipates the work of David Brown and others concerned with tradition and imagination relevance and truth A fascinating glimpse into the recent history of British Christianity Root s lectures as well as the related appendices are essential reading for theologians interested in the dynamics of a developing tradition and the theme of openness as well as those with a particular interest in 1960s Cambridge radicalism and the British reception of the Second Vatican Council

Servantship Graham Joseph Hill, 2013-10-10 Servantship is essentially about following our Lord Jesus Christ the servant Lord and his mission it is a life of discipleship to him patterned after his self emptying humility sacrifice love values and mission Servantship is humbly valuing others more than yourself and looking out for the interests and wellbeing of others Servantship is the cultivation of

the same attitude of mind Christ Jesus had making yourself nothing being a servant humbling yourself and submitting yourself to the will and purposes of the triune God Since servanthip is the imitation of Christ it involves an unreserved participation in the missio Dei the Trinitarian mission of God In this pioneering work sixteen servants describe the four movements of radical servanthip Servanthip is the movement 1 from leadership to radical servanthip 2 from shallowness to dynamic theological reflection 3 from theories to courageous practices and 4 from forgetfulness to transforming memory Servanthip recognizes in word thought and deed that whoever wants to become great among you must be your servant and whoever wants to be first must be your slave just as the Son of Man did not come to be served but to serve and to give his life as a ransom for many

Redeeming Transcendence in the Arts Jeremy Begbie, 2018-02-14 How can the arts witness to the transcendence of the Christian God Many people believe that there is something transcendent about the arts that they can awaken a profound sense of awe wonder and mystery of something beyond this world even for those who may have no use for conventional forms of Christianity In this book Jeremy Begbie a leading voice on theology and the arts employs a biblical Trinitarian imagination to show how Christian involvement in the arts can be shaped by the distinctive vision of God's transcendence opened up in and through Jesus Christ

Memento Mori in Contemporary Art Taylor Worley, 2019-11-28 This book explores how four contemporary artists Francis Bacon Joseph Beuys Robert Gober and Damien Hirst pursue the question of death through their fraught appropriations of Christian imagery Each artist is shown to not only pose provocative theological questions but also to question the abilities of theological speech to adequately address current attitudes to death When set within a broader theological context around the thought of death Bacon's works invite fresh readings of the New Testament's narration of the betrayal of Christ and Beuys' works can be appreciated for the ways they evoke Resurrection to envision possible futures for Germany in the aftermath of war Gober's immaculate sculptures and installations serve to create alternative religious environments and these places are both evocative of his Roman Catholic upbringing and virtually haunted by the ghosts of his excommunication from that past Lastly and perhaps most problematically Hirst has built his brand as an artist from making jokes about death By opening fresh arenas of dialogue and meaning making in our society and culture today the rich humanity of these artworks promises both renewed depths of meaning regarding our exit from this world as well as how we might live well within it for the time that we have As such it will be a vital resource for all scholars in Theology the Visual Arts Material Religion and Religious Studies

Liturgical Reform after Vatican II Nicholas E. Denysenko, 2015-12-01 Sacrosanctum Concilium SC was the first document promulgated by the Second Vatican Council The impact of this document was broad and ecumenical the liturgical reforms approved by the Council reverberated throughout Christendom impacting the order and experience of worship in Reformed and Orthodox Churches Unrecognized in most studies the Orthodox Churches were also active participants in the liturgical movement that gained momentum through the Catholic and Protestant Churches in the twentieth century This study examines Orthodox liturgical reform after Vatican II

through the lens of Catholic Orthodox ecumenical dialogue After establishing the retrieval of the priesthood of the laity and active liturgical participation as the rationales for liturgical reform the study presents the history of liturgical reform through four models the liturgical reforms of Alexander Schmemmann the alternative liturgical center in the Russian Orthodox Church Outside of Russia ROCOR the symposia on liturgical rebirth authorized by the Church of Greece and the renewed liturgy of New Skete Monastery Following a discussion of the main features of liturgical reform catechesis ars celebrandi and the role of the clergy Denysenko concludes with suggestions for implementing liturgical reform in the challenges of postmodernity and in fidelity to the contributions of Catholic Orthodox ecumenical dialogue The Shape of the Church Ephrem

Arcement,2024-10-03 This is a book to help further the ecumenical cause By providing a new paradigm for growth in ecclesial wholeness The Shape of the Church charts a pathway that is at once biblically and theologically grounded and pastorally applicable Seven interdependent dimensions are identified evangelical pentecostal sacramental intellectual mystical pastoral prophetic which constitute the church s wholeness and safeguard its integrity Throughout church history these seven dimensions have struggled to maintain a life giving balance and have often isolated themselves from one another distorting the church s catholicity and wholeness Reform movements have repeatedly arisen to help revive dimensions being neglected but have often over emphasized these dimensions to the neglect of others and further distorted the church s shape The Shape of the Church seeks to offer a vision of the church that values the full dimensionality of the church and insists upon the giftedness of all its dimensions arguing that the path forward to greater ecclesial maturity and wholeness is only through the nurturing and integration of all its seven dimensions Sport and Christianity Matt Hoven,Andrew Parker,Nick J. Watson,2019-10-31 Many people are passionate about sport yet few give thought to its role and importance in their lives let alone its relationship to Christian faith This book examines the potential of sports and challenges readers to consider how it relates to their deepest passions behaviours and actions while providing newcomers to the field with a framework to help consider the connection between sports participation and faith based values Featuring academic writers from a range of disciplinary fields including philosophy theology sports studies and education Sport and Christianity Practices for the Twenty First Century sheds insight into the meaning of sports for Christians as participants and as practitioners Divided into practises for the mind for the heart and for moral life the numerous topics include the value of play in sports sports as a means for dialogue between faith traditions sports as a place to cultivate virtue and the Christian spiritual life and prayer and religious experiences in sports The result is a text that promotes new ways of thinking about the sports Christianity relationship while at the same time developing a deeper understanding of the place of sports in our everyday lives

Orthodox Christian Perspectives on War Perry T. Hamalis,Valerie A. Karras,2017-12-15 Many regions of the world whose histories include war and violent conflict have or once had strong ties to Orthodox Christianity Yet policy makers religious leaders and scholars often neglect Orthodoxy s resources when they reflect on the challenges of war Through

essays written by prominent Orthodox scholars in the fields of biblical studies church history Byzantine studies theology patristics political science ethics and biology Orthodox Christian Perspectives on War presents and examines the Orthodox tradition's nuanced and unique insights on the meaning and challenges of war with an eye toward their contemporary relevance This volume is structured in three parts Confronting the Present Day Reality Reengaging Orthodoxy's Tradition and Constructive Directions in Orthodox Theology and Ethics Each exemplifies the value of interdisciplinary reflection on war and the potential for the Eastern Orthodox tradition to enhance ecumenical and interfaith discussions surrounding war in both domestic and international contexts The contributors do not advance a single account of the meaning of war or a comprehensive and normative stance purporting to be the Orthodox Christian teaching on war Instead this collection presents the breadth and depth of Orthodox Christian thought in a way that engages Orthodox and non Orthodox readers alike In addition to offering fresh resources for all people of good will to understand prevent and respond faithfully to war this book will appeal to Christian theologians who specialize in ethics to libraries of academic institutions and to scholars of war peace studies international relations and Orthodox thought Contributors Peter C Bouteneff George Demacopoulos John Fotopoulos Brandon Gallaher Perry T Hamalis Valerie A Karras Alexandros K Kyrou Aristotle Papanikolaou Elizabeth H Prodromou Nicolae Roddy James C Skedros Andrew Walsh and Gayle E Woloschak

Growing and Flourishing Stephen Spencer, 2019-01-30 What is genuine church growth Is it at heart the numerical growth of regular congregations or are there other dimensions and if so what are they How can we learn from other contexts in order to properly inform our understanding of what we mean by church growth Mara is one of the most marginalised regions in Tanzania which in turn is a country in the most marginalised continent on the planet and yet Spencer argues the church in the region has exhibited remarkable growth Looking beyond the usual dimensions of church growth discourse Stephen Spencer weaves in his own experience in Tanzania finding in that wholly different context an approach to church growth which might entirely change the discourse in the global north

We Shall Be Changed The Domestic and Foreign Missionary Society of The Protestant Episcopal Church, 2020-11-17 How will we regather the church after pandemic The Covid 19 pandemic is an inflection point for the church everywhere and certainly for the Episcopal Church The sudden flowering of creativity connection and collaboration is an expression of the Holy Spirit's

relentless presence within the church yet ongoing distancing creates difficulties to be overcome on the other side of the present crisis. How will we change habits of isolation and regather the church? How will we manage the impact on church finances? How is God calling us to embrace the energy and creativity of this moment and the longing people have felt for a return to community? What challenges will we face regathering the people of God particularly in already weakened communities? *We Shall Be Changed* is a gathering of brief essays from thought leaders around the church on pressing topics that the church needs to be considering now in preparation for the end of this pandemic. The book is designed to spur conversation within parishes, fellowship groups and clergy gatherings about how to embrace the gifts this time has given while anticipating and addressing the very real challenges the church will confront in its wake.

On Rowan Williams

Matheson Russell, 2009-01-01

Theologian, poet, public intellectual and clergyman Rowan Williams is one of the leading lights of contemporary British theology. He has published over twenty books and one hundred scholarly essays in a distinguished career as an academic theologian that culminated in his appointment as Lady Margaret Professor of Divinity at Oxford University. Williams left this post to serve in the Anglican Church first as Bishop of Monmouth then Archbishop of Wales before finally being enthroned in 2003 as the 104th Archbishop of Canterbury. In this collection of essays, a talented younger generation of Australian theologians critically analyzes the themes that bind together Williams's theology. These sympathetic yet probing essays traverse the full breadth of Williams's work from his studies on Arius, the Desert Fathers, Hegel and Trinitarian theology to his more pastoral writings on spirituality, sexuality, politics and the Anglican Church.
