**Getting From Here to There** Sheldon Bach, 2013-05-13 It is clinical work with the most difficult patients those with severe narcissistic sadomasochistic and borderline disorders that poses the greatest challenge to the therapist's guiding assumptions about clinical process indeed such work often leads therapists to question beliefs and expectations that formerly seemed self evident In *Getting From Here to There* Analytic Love Analytic Process Sheldon Bach elaborates the holistic vision that guides him in work with just such patients He dwells especially on the attentive presence through which the analyst effects a meeting with patients that invites the latter's trust in the analyst and in the therapeutic process And he writes of love of patient for analyst and of analyst for patient that grows out of this mutual trust and sustains therapeutic process For Bach analytic therapy aims at understanding the person as a mind body unity that manifests particular states of consciousness This holistic vision of treatment sustains a flexible clinical orientation that enables the analyst to meet states of consciousness in order to bring them into a system of which the analyst forms a part Bach thoughtfully explores the clinical issues that enter into this taxing process among them the establishment and maintenance of basic trust the patient's or the therapist's presence in the other's mind and the shifts in agency between patient and therapist And he describes at length the frequently exhausting even demoralizing transference countertransference struggles that enter into this type of analytic work Throughout Bach is guided by the conviction that work with extremely challenging

patients promotes the psychological growth and increased self knowledge of patient and analyst alike And he is admirably clear that the mutual living through of such treatments nurtures a kind of love between patient and analyst Getting From Here to There not only records the clinical lessons learned by an unusually gifted analyst it also chronicles the movement of psychoanalysis itself from the dissection of love into component parts to a synthetic grasp of its vital role in psychoanalytically informed treatment From Here to There Ed. Connie Leonard Geron,2013-12-12 If youve ever wondered what Mary of Nazareth was like as a child here is her story She must have been an extraordinary little girl for God to reach down and choose her to fulfil the ancient prophecy about a virgin that would bear a son Jesusthe only son of God Here is the story of Mary the little girl from a normal humble family in the area of Galilee She lived in the little village of Nazareth Her life was simple and ordinary Her household was fullwith parents and grandparents two big brothers and a haughty gorgeous older sister Mary delighted in everyday life and found joy and excitement in a humdrum existence She had no idea what was in store for her life Th ere was no clue that this seemingly unremarkable young girl would experience a grand adventure worthy of history books She was set in place and time to be chosen by God Himself to become the mother of the Savior of the world     *Getting Here from There* Margaret R Miles,Hiroko Sakomura,2012-01-26 This book of conversations between Margaret R Miles and Hiroko Sakomura compares the experiences of two women who grew up in different societies with different educations different professions and different religious orientations Reflecting on the different ways in which Japanese and American societies inhibited and enabled them these two women share their struggles difficulties and achievements All of this is set in the context of one of the most radical social movements in the history of the world as women are gaining increments of equality with men in designing and administering the institutions of public life with opportunities dangers and rewards This is a moment in which a critical mass of women want it all now in the best sense of the phrase seeking to preserve and reinterpret traditional values while
